§ 600.11 Intergovernmental review.

Intergovernmental review of DOE financial assistance shall be conducted in accordance with 10 CFR part 1005.

§ 600.12 Generally applicable requirements.

(a) Except as expressly exempted by Federal statute or program rule, recipients and subrecipients of DOE financial assistance shall comply with all generally applicable requirements to which they are subject. Generally applicable requirements include, but are not limited to, the requirements of this part, Federal statutes, the OMB Circulars and other Governmentwide guidance implemented by this part, Executive Orders, and the requirements identified in appendix A of this part.

(b) Provisions shall be made to design and construct all buildings, in which DOE funds are used, to meet appropriate seismic design and construction standards. Seismic codes and standards meeting or exceeding the provisions of each of the model codes listed in this paragraph are considered to be appropriate for purposes of this part. These codes provide a level of seismic safety that is substantially equivalent to the National Earthquake Hazards Reduction Program (NEHRP) Recommended Provisions for the Development of Seismic Regulations for New Buildings, 1988 Edition (Federal Emergency Management Administration 222 and 223). Revisions of these model codes that are substantially equivalent to or exceed the then current or immediately preceding edition of the NEHRP Recommended Provisions (which are updated triennially) shall be considered to be appropriate standards. The model codes are as follows:

(1) 1991 Uniform Building Code, of the International Council of Building Officials,

(2) 1992 Supplement to the National Building Code, of the Building Official and Code Administrators International.

10 CFR Ch. II (1-1-00 Edition)

(3) 1992 Amendments to the Standard Building Code, of the Southern Building Code Congress International.

§ 600.13 Merit review.

(a) It is the policy of DOE that discretionary financial assistance be awarded through a merit-based selection process. A merit review means a thorough, consistent, and objective examination of applications based on pre-established criteria by persons who are independent of those submitting the applications and who are knowledgeable in the field of endeavor for which support is requested.

(b) Each program office must establish a merit review system covering the financial assistance programs it administers. Merit review of financial assistance applications is intended to be advisory and is not intended to replace the authority of the project/program official with responsibility for deciding whether an award will be made.
