

(ii) The appropriate regulatory agency does not disapprove the dual service before the end of the 60-day period.

(2) The OCC may disapprove a notice of proposed service if it finds that:

(i) The service cannot be structured or limited so as to preclude an anti-competitive effect in financial services in any part of the United States;

(ii) The service would lead to substantial conflicts of interest or unsafe or unsound practices; or

(iii) The notificant failed to furnish all the information required by the OCC.

(3) The OCC may require that any interlock permitted under this paragraph (h) be terminated if a change in circumstances occurs with respect to one of the interlocked depository organizations that would have provided a basis for disapproval of the interlock during the notice period.

**§26.5 Regulatory Standards exemption.**

(a) *Criteria.* The OCC may permit an interlock that otherwise would be prohibited by the Interlocks Act and §26.3 if:

(1) The board of directors of the depository organization (or the organizers of a depository organization being formed) that seeks the exemption provides a resolution to the OCC certifying that the organization, after the exercise of reasonable efforts, is unable to locate any other candidate from the community or RMSA, as appropriate, who:

(i) Possesses the level of expertise required by the depository organization and who is not prohibited from service by the Interlocks Act; and

(ii) Is willing to serve as a management official; and

(2) The OCC, after reviewing an application submitted by the depository organization seeking the exemption, determines that:

(i) The management official is critical to the safe and sound operations of the affected depository organization; and

(ii) Service by the management official will not produce an anti-competitive effect with respect to the depository organization.

(b) *Presumptions.* The OCC applies the following presumptions when reviewing any application for a Regulatory Standards exemption:

(1) An interlock will not have an anti-competitive effect if it involves depository organizations that, if merged, would not cause the post-merger Herfindahl-Hirschman Index (HHI) to exceed 1800 and would not cause the HHI to increase by more than 200 points. This presumption does not apply to depository organizations subject to the Major Assets prohibition of §26.3(c).

(2) A proposed management official is critical to the safe and sound operations of a depository institution if:

(i) That official is approved by the OCC to serve as a director or senior executive officer of that institution pursuant to 12 CFR 5.51 or pursuant to conditions imposed on a newly chartered national bank; and

(ii) The institution had operated for less than two years, was not in compliance with minimum capital requirements, or otherwise was in a “troubled condition” as defined in 12 CFR 5.51 at the time the service under that section was approved.

(c) *Duration of interlock.* An interlock permitted under this section may continue until the OCC notifies the affected depository organizations otherwise. The OCC may require a national bank to terminate any interlock permitted under this section if the OCC concludes, after giving the affected persons the opportunity to respond, that the determinations under paragraph (a)(2) of this section no longer may be made. A management official may continue serving the depository organization involved in the interlock for a period of 15 months following the date of the order to terminate the interlock. The OCC may shorten this period under appropriate circumstances.

**§26.6 Management Consignment exemption.**

(a) *Criteria.* The OCC may permit an interlock that otherwise would be prohibited by the Interlocks Act and §26.3
