

(2) Recent actions taken to restore debt service capability;

(3) Prospects for restored asset quality; and

(4) Such other factors as the Federal banking agencies may consider relevant to the quality of the asset.

(B) The initial year's provision for the ATRR shall be 10 percent of the principal amount of each specified international asset, or such greater or lesser percentage determined by the Federal banking agencies. Additional provision, if any, for the ATRR in subsequent years shall be 15 percent of the principal amount of each specified international asset, or such greater or lesser percentage determined by the Federal banking agencies.

(3) *Notification.* Based on the joint agency determinations under paragraph (b)(1) of this section, the OCC shall notify each banking institution holding assets subject to an ATRR:

(i) Of the amount of the ATRR to be established by the institution for specified international assets; and

(ii) That an ATRR to be established for specified assets may be reduced.

(c) *Accounting treatment of ATRR—(1) Charge to current income.* A banking institution shall establish an ATRR by a charge to current income and the amounts so charged shall not be included in the banking institution's capital or surplus.

(2) *Separate accounting.* A banking institution shall account for an ATRR separately from the Allowance for Possible Loan Losses, and shall deduct the ATRR from "gross loans and leases" to arrive at "net loans and leases." The ATRR must be established for each asset subject to the ATRR in the percentage amount specified.

(3) *Consolidation.* A banking institution shall establish an ATRR, as required, on a consolidated basis. Consolidation should be in accordance with the procedures and tests of significance set forth in the instructions for preparation of *Consolidated Reports of Condition and Income* (FFIEC 031, 032, 033 and 034). For bank holding companies, the consolidation shall be in accordance with the principles set forth in the "Instructions to the Bank Holding Company Financial Supplement to Report F.R. Y-6" (Form F.R. Y-9). Edge cor-

porations and Agreement corporations engaged in banking shall report in accordance with instructions for preparation of the Report of Condition for Edge corporations and Agreement corporations (Form F.R. 2886b).

(4) *Alternative accounting treatment.* A banking institution need not establish an ATRR if it writes down in the period in which the ATRR is required, or has written down in prior periods, the value of the specified international assets in the requisite amount for each such asset. For purposes of this paragraph, international assets may be written down by a charge to the Allowance for Possible Loan Losses or a reduction in the principal amount of the asset by application of interest payments or other collections on the asset. However, the Allowance for Possible Loan Losses must be replenished in such amount necessary to restore it to a level which adequately provides for the estimated losses inherent in the banking institution's loan portfolio.

(5) *Reduction of ATRR.* A banking institution may reduce an ATRR when notified by the OCC or, at any time, by writing down such amount of the international asset for which the ATRR was established.

#### §28.53 Accounting for fees on international loans.

(a) *Restrictions on fees for restructured international loans.* No banking institution shall charge any fee in connection with a restructured international loan unless all fees exceeding the banking institution's administrative costs, as described in paragraph (c)(2) of this section, are deferred and recognized over the term of the loan as an interest yield adjustment.

(b) *Amortizing fees.* Except as otherwise provided by this section, fees received on international loans shall be deferred and amortized over the term of the loan. The interest method should be used during the loan period to recognize the deferred fee revenue in relation to the outstanding loan balance. If it is not practicable to apply the interest method during the loan period, the straight-line method shall be used.

(c) *Accounting treatment of international loan or syndication administrative costs and corresponding fees.* (1) Administrative costs of originating, restructuring, or syndicating an international loan shall be expensed as incurred. A portion of the fee income equal to the banking institution's administrative costs may be recognized as income in the same period such costs are expensed.

(2) The administrative costs of originating, restructuring, or syndicating an international loan include those costs which are specifically identified with negotiating, processing and consummating the loan. These costs include, but are not necessarily limited to: Legal fees; costs of preparing and processing loan documents; and an allocable portion of salaries and related benefits of employees engaged in the international lending function and, where applicable, the syndication function. No portion of supervisory and administrative expenses or other indirect expenses such as occupancy and other similar overhead costs shall be included.

(d) *Fees received by managing banking institutions in an international syndicated loan.* Fees received on international syndicated loans representing an adjustment of the yield on the loan shall be recognized over the loan period using the interest method. If the interest yield portion of a fee received on an international syndicated loan by a managing banking institution is unstated or differs materially from the pro rata portion of fees paid other participants in the syndication, an amount necessary for an interest yield adjustment shall be recognized. This amount shall at least be equivalent (on a pro rata basis) to the largest fee received by a loan participant in the syndication that is not a managing banking institution. The remaining portion of the syndication fee may be recognized as income at the loan closing date to the extent that it is identified and documented as compensation for services in arranging the loan. Such documentation shall include the loan agreement. Otherwise, the fee shall be deemed an adjustment of yield.

(e) *Loan Commitment fees.* (1) Fees which are based upon the unfunded por-

tion of a credit for the period until it is drawn and represent compensation for a binding commitment to provide funds or for rendering a service in issuing the commitment shall be recognized as income over the term of the commitment period using the straight-line method of amortization. Such fees for revolving credit arrangements, where the fees are received periodically in arrears and are based on the amount of the unused loan commitment, may be recognized as income when received provided the income result would not be materially different.

(2) If it is not practicable to separate the commitment portion from other components of the fee, the entire fee shall be amortized over the term of the combined commitment and expected loan period. The straight-line method of amortization should be used during the commitment period to recognize the fee revenue. The interest method should be used during the loan period to recognize the remaining fee revenue in relation to the outstanding loan balance. If the loan is funded before the end of the commitment period, any unamortized commitment fees shall be recognized as revenue at that time.

(f) *Agency fees.* Fees paid to an agent banking institution for administrative services in an intentional syndicated loan shall be recognized at the time of the loan closing or as the service is performed, if later.

#### **§28.54 Reporting and disclosure of international assets.**

(a) *Requirements.* (1) Pursuant to section 907(a) of the International Lending Supervision Act of 1983 (title IX, Pub. L. 98-181, 97 Stat. 1153, 12 U.S.C. 3906) (ILSA) a banking institution shall submit to the OCC, at least quarterly, information regarding the amounts and composition of its holdings of international assets.

(2) Pursuant to section 907(b) of ILSA (12 U.S.C. 3906), a banking institution shall submit to the OCC information regarding concentrations in its holdings of international assets that are material in relation to total assets and to capital of the institution, such information to be made publicly available by the OCC on request.
