

(8) *Release upon the order of the FDIC.* The depository shall release to the foreign bank any pledged assets, as specified in a written notification of the appropriate regional director, upon the terms and conditions provided in such notification, including without limitation the waiver of any requirement that any assets be pledged by the foreign bank in substitution of any released assets.

(9) *Release to the FDIC.* Whenever the FDIC is obligated under section 11(f) of the Federal Deposit Insurance Act (12 U.S.C. 1821(f)) to pay insured deposits of an insured branch, the FDIC by written certification shall so inform the depository; and the depository, upon receipt of such certification, shall thereupon promptly release and transfer title to any pledged assets to the FDIC or release such assets to the foreign bank, as specified in the certification. Upon release and transfer of title to all pledged assets specified in the certification, the depository shall be discharged from any further obligation under the pledge agreement.

(10) *Interest earned on assets.* The foreign bank may retain any interest earned with respect to the assets currently pledged unless the FDIC by written notice prohibits retention of interest by the foreign bank, in which case the notice shall specify the disposition of any such interest.

(11) *Expenses of agreement.* The FDIC shall not be required to pay any fees, costs, or expenses for services provided by the depository to the foreign bank pursuant to, or in connection with, the pledge agreement.

(12) *Substitution of depository.* The depository may resign, or the foreign bank may discharge the depository, from its duties and obligations under the pledge agreement by giving at least 60 days' written notice thereof to the other party and to the appropriate regional director. The FDIC, upon 30 days' written notice to the foreign bank and the depository, may require the foreign bank to dismiss the depository if the FDIC in its discretion determines that the depository is in breach of the pledge agreement. The depository shall continue to function as such until the appointment of a successor depository becomes effective and the

depository has released to the successor depository the pledged assets and documents and instruments to effectuate transfer of title in accordance with the written instructions of the foreign bank as approved by the FDIC. The appointment by the foreign bank of a successor depository shall not be effective until:

(i) The FDIC has approved in writing the successor depository; and

(ii) A pledge agreement in form and substance satisfactory to the FDIC has been executed.

(13) *Waiver of terms.* The FDIC may by written order waive compliance by the foreign bank or the depository with any term or condition of the pledge agreement.

(f)(1) Authority is delegated to the Director (DOS), the Deputy Director (DOS), and where confirmed in writing by the Director, to an associate director, or to the appropriate regional director or deputy regional director, to enter into pledge agreements with foreign banks and depositories in connection with the pledge of asset requirements pursuant to this section. This authority shall also extend to the power to revoke such approval and require the dismissal of the depository.

(2) Authority is delegated to the General Counsel or designee to modify the terms of the model pledge agreement used for such deposit agreements.

#### § 347.211 Asset maintenance.

(a) An insured branch of a foreign bank shall maintain on a daily basis eligible assets in an amount not less than 106 percent of the preceding quarter's average book value of the insured branch's liabilities or, in the case of a newly-established insured branch, the estimated book value of its liabilities at the end of the first full quarter of operation, exclusive of liabilities due to the foreign bank's head office, other branches, agencies, offices, or wholly owned subsidiaries. The Director of the Division of Supervision or his designee may impose a computation of total liabilities on a daily basis in those instances where it is found necessary for supervisory purposes. The Board of Directors, after consulting with the insured branch's primary regulator, may require that a higher ratio of eligible

assets be maintained if the financial condition of the insured branch warrants such action. Among the factors which will be considered in requiring a higher ratio of eligible assets are the concentration of risk to any one borrower or group of related borrowers, the concentration of transfer risk to any one country, including the country in which the foreign bank's head office is located or any other factor the FDIC determines is relevant. Eligible assets shall be payable in United States dollars.

(b) In determining eligible assets for the purposes of compliance with paragraph (a) of this section, the insured branch shall exclude the following:

(1) Any asset due from the foreign bank's head office, other branches, agencies, offices or affiliates;

(2) Any asset classified "Value Impaired," to the extent of the required Allocated Transfer Risk Reserves or equivalent write down, or "Loss" in the most recent State or Federal examination report;

(3) Any deposit of the insured branch in a bank unless the bank has executed a valid waiver of offset agreement;

(4) Any asset not supported by sufficient credit information to allow a review of the asset's credit quality, as determined at the most recent State or Federal examination, as follows:

(i) Whether an asset has sufficient credit information will be a function of the size of the borrower and the location within the foreign bank of the responsibility for authorizing and monitoring extensions of credit to the borrower. For large, well known companies, when credit responsibility is located in an office of the foreign bank outside the insured branch, the insured branch must have adequate documentation to show that the asset is of good quality and is being supervised adequately by the foreign bank. In such cases, copies of periodic memoranda that include an analysis of the borrower's recent financial statements and a report on recent developments in the borrower's operations and borrowing relationships with the foreign bank generally would constitute sufficient information. For other borrowers, periodic memoranda must be supplemented by information such as copies of recent

financial statements, recent correspondence concerning the borrower's financial condition and repayment history, credit terms and collateral, data on any guarantors, and where necessary, the status of any corrective measures being employed;

(ii) Subsequent to the determination that an asset lacks sufficient credit information, an insured branch may not include the amount of that asset among eligible assets until the FDIC determines that sufficient documentation exists. Such a determination may be made either at the next Federal examination, or upon request of the insured branch, by the appropriate regional director;

(5) Any asset not in the insured branch's actual possession unless the insured branch holds title to such asset and the insured branch maintains records sufficient to enable independent verification of the insured branch's ownership of the asset, as determined at the most recent State or Federal examination;

(6) Any intangible asset;

(7) Any other asset not considered bankable by the FDIC.

(c) A foreign bank which has more than one insured branch in a state may treat all of its insured branches in the same state as one entity for purposes of compliance with paragraph (a) of this section and shall designate one insured branch to be responsible for maintaining the records of the insured branches' compliance with this section.

(d) The average book value of the insured branch's liabilities for a quarter shall be, at the insured branch's option, either an average of the balances as of the close of business for each day of the quarter or an average of the balances as of the close of business on each Wednesday during the quarter. Quarters end on March 31, June 30, September 30, and December 31 of any given year. For days on which the insured branch is closed, balances from the previous business day are to be used. Calculations of the average book value of the insured branch's liabilities for a quarter shall be retained by the insured branch until the next Federal examination.
