

the United States or by other obligations guaranteed as to principal and interest by the United States government, provided the loans are fully secured by the current market value of such obligations. If the market value of the collateral declines to below the balance of the loan, and the entire loan, individually, or when combined with other loans and undisbursed commitments to or attributed to the borrower, causes the borrower's total indebtedness to exceed the institution's lending limit, the institution shall have 5 business days to bring the loan into conformance before it shall be deemed to be in violation of the lending limit.

(4) Interests in loans sold, including participation interests, when the sale agreement meets the following requirements:

(i) The interest sold must be an undivided interest in the principal amount of the loan and in the collateral securing the loan; and

(ii) The interest must be sold without recourse; and

(iii) The agreement under which the interest is sold must provide for the sharing of all payments of principal, collection expenses, collateral proceeds, and risk of loss on a pro rata basis according to the percentage interest in the principal amount of the loan. Agreements that provide for the pro rata sharing to commence at the time of default or similar event, as defined in the agreement under which the interest is sold, shall be considered to be pro rata agreements, notwithstanding the fact that advances are made and payments are distributed on a basis other than pro rata prior to that time.

(5) Loans sold in their entirety to a pooler certified by the Federal Agricultural Mortgage Corporation, if an interest in a pool of subordinated participation interests is purchased to satisfy the requirements of title VIII of the Act.

§ 614.4358 Attribution rules.

(a) For the purpose of applying the lending limit to the indebtedness of a borrower, loans to a related borrower shall be combined with loans outstanding to the borrower and attributed to

the borrower when any one of the following three conditions exist:

(1) *Liability.* (i) The borrower has primary or secondary liability on a loan made to the related borrower. The amount of such loan attributable to the borrower is limited to the amount of the borrower's liability.

(ii) This section does not require attribution of a guarantee taken out of an abundance of caution. To qualify for the abundance of caution exception to the requirements of this subpart, the institution must document in the loan file that the loan, when evaluated under the loan underwriting standards adopted pursuant to § 614.4150 of this part without considering the guarantee, would support the credit decision under the same basic terms and conditions.

(iii) For the banks for cooperatives and agricultural credit banks operating under title III authorities of the Act, look-through notes are exempt from the lending limit provisions provided they meet the criteria of § 614.4356.

(2) *Financial interdependence.* The operations of a borrower and related borrower are financially interdependent. Financial interdependence exists if the borrower is the primary source of repayment for a related borrower's loan, or if the operations of the borrower and the related borrower are commingled.

(i) The borrower shall be considered the primary source of repayment on the loan to the related borrower if the borrower is obligated to supply 50 percent or more of the related borrower's annual gross receipts, *and* reliance on the income from one another is such that, regardless of the solvency and liquidity of the borrower's operations, the debt service obligation of the related borrower could not be met if income flow from the borrower is interrupted or terminated. For the purpose of this paragraph, gross receipts include, but are not limited to, revenues, intercompany loans, dividends and capital contributions.

(ii) The assets or operations of the borrower and related borrower are considered to be commingled if they cannot be separated without materially impacting the economic survival of the individual operations and their ability to repay their loans.

(3) *Control.* The borrower directly or indirectly controls the related borrower. A borrower is deemed to control a related borrower if either paragraph (a)(3)(i) or (a)(3)(ii) of this section exist:

(i) The borrower, directly or acting through one or more other persons, owns 50 percent or more of the stock of the related borrower; or

(ii) The borrower, directly or acting through one or more other persons, owns or has the power to vote 25 percent or more of the voting stock of a related borrower, and meets at least one of the following three conditions:

(A) The borrower shares a common directorate or management with a related borrower. A common directorate is deemed to exist when a majority of the directors, trustees, or other persons performing similar functions of one borrower also serves the other borrower in a like capacity. A common management is deemed to exist if any employee of the borrower holds the position of chief executive officer, chief operating officer, chief financial offi-

cer, or an equivalent position in the related borrower's organization.

(B) The borrower controls in any manner the election of a majority of directors of a related borrower.

(C) The borrower exercises or has the power to exercise a controlling influence over management of a related borrower's operations through the provisions of management placement or marketing agreements, or providing services such as insurance carrier or bookkeeping.

(b) Each institution shall make provisions for appropriately designating loans to a related borrower that are combined with the borrower's loan and attributed to the borrower to ensure that loans to the borrower are within the lending limits.

(c) *Attribution rules table.* For the purposes of applying the lending limit to the indebtedness of a borrower, loans to a related borrower shall be combined with loans outstanding to the borrower and attributed to the borrower when any one of three attribution rules are met as outlined in Table 1.

TABLE 1

Attribution rule	Criteria per §614.4358	Attribute
(A) Liability *to the extent of the borrower's liability.	Borrower has primary or secondary liability	Yes.*
	Borrower's liability is taken out of an abundance of caution	No.*
(B) Financial Interdependence (Economic survival of the borrower's operation will materially impact economic survival of the related borrowers operation).	Look-through notes (BC only)	No.
	Source of Repayment: Borrower is obligated to supply 50 percent or more of related borrower's annual gross receipts, and reliance on the income from one another is such that the debt service of the related borrower could not be met if income flow from the borrower is interrupted or terminated.	Yes.
	Commingled Operations: Assets or operations of the borrowers are commingled and cannot be separated without materially impacting the borrowers' repayment capacity	Yes.
(C) Control (The borrower, directly or indirectly, controls the related borrower).	The borrower owns 50 percent or more of the stock of the related borrower.	Yes.
	The borrower owns or has the power to vote 25 percent or more of the voting stock of a related borrower, and (1) Shares a common directorate or management with a related borrower, or (2) Controls the election of a majority of directors of a related borrower, or (3) Exercises a controlling influence over management of a related borrower's operations through the provisions of management placement or marketing agreements, or providing services such as insurance carrier or bookkeeping.	Yes.
