§ 615.5205 Minimum permanent capital standards.

Each institution shall at all times maintain permanent capital at a level of at least 7 percent of its risk-adjusted asset base.

[62 FR 4446, Jan. 30, 1997]

§ 615.5210 Computation of the permanent capital ratio.

(a) The institution's permanent capital ratio shall be determined on the basis of the financial statements of the institution prepared in accordance with generally accepted accounting principles except that the obligations of the Farm Credit System Financial Assistance Corporation issued to repay banks in connection with the capital preservation and loss-sharing agreements described in section 6.9(e)(1) of the Act shall not be considered obligations of any institution subject to this regulation prior to their maturity.

(b) The institution's asset base and permanent capital shall be computed using average daily balances for the most recent 3 months.

(c) The institution's permanent capital ratio shall be calculated by dividing the institution's permanent capital, adjusted in accordance with paragraph (e) of this section (the numerator), by the risk-adjusted asset base (the denominator), to derive a ratio expressed as a percentage.

(d) Until September 27, 2002, payments of assessments to the Farm Credit System Financial Assistance Corporation, and any part of the obligation to pay future assessments to the Farm Credit System Financial Assistance Corporation that is recognized as an expense on the books of a bank or association, shall be included in the capital of such bank or association for the purpose of determining its compli-

ance with regulatory capital requirements, to the extent allowed by section 6.26(c)(5)(G) of the Act. If the bank directly or indirectly passes on all or part of the payments to its affiliated associations pursuant to section 6.26(c)(5)(D) of the Act, such amounts shall be included in the capital of the associations and shall not be included in the capital of the bank. After September 27, 2002, no payments of assessments or obligations to pay future assessments may be included in the capital of the bank or association.

(e) For the purpose of computing the institution's permanent capital ratio, the following adjustments shall be made prior to assigning assets to risk-weight categories and computing the ratio:

(1) Where two Farm Credit System institutions have stock investments in each other, such reciprocal holdings shall be eliminated to the extent of the offset. If the investments are equal in amount, each institution shall deduct from its assets and its total capital an amount equal to the investment. If the investments are not equal in amount, each institution shall deduct from its total capital and its assets an amount equal to the smaller investment. The elimination of reciprocal holdings required by this paragraph shall be made prior to making the other adjustments required by this section.

(2) Where a Farm Credit Bank or an agricultural credit bank is owned by one or more Farm Credit System institutions, the double counting of capital shall be eliminated in the following manner:

(i) All equities of a Farm Credit Bank or agricultural credit bank that have been purchased by other Farm Credit institutions shall be considered to be permanent capital of the Farm Credit Bank or agricultural credit bank.

(ii) Each Farm Credit Bank and agricultural credit bank and each of its affiliated associations may enter into an agreement that specifies, for the purpose of computing permanent capital only, a dollar amount and/or percentage allotment of the association's allocated investment between the bank and the association. The following conditions shall apply:
