

(iii) The principal obligors are different person(s) and/or entity(ies). Related loans will not be considered independent credit risks if the operations of a related borrower are so financially interdependent with the borrower's operations that the economic survival of one will materially affect the economic survival of the other, determined in accordance with §614.4358(a)(2) of this chapter.

(b) If the evaluation required by paragraph (a) of this section results in a determination that the borrower's other loans with the institution do not represent an independent credit risk, and full collection of such loans is not expected, then all of the borrower's loans must be aggregated and classified as nonaccrual. If such other loans represent an independent credit risk and are fully collectible, then they may remain in their current performance category.

(c) When an institution becomes aware that a borrower has a loan that has been classified nonaccrual by any other lender, the institution must re-evaluate the credit risk in its loan to the borrower and then determine whether an independent credit risk exists.

**§621.8 Application of payments and income recognition on nonaccrual loans.**

Each institution shall employ the following practices with respect to application of cash payments on nonaccrual loans:

(a) If the ultimate collectibility of the recorded investment, in whole or in part, is in doubt, any payment received on such loan shall be applied to reduce the recorded investment to the extent necessary to eliminate such doubt.

(b) Once the ultimate collectibility of the recorded investment is no longer in doubt, payments received in cash on such loan may qualify for recognition as interest income if all of the following characteristics are met at the time the payment is received:

(1) The loan does not have a remaining unrecovered prior chargeoff associated with it, except in cases where the prior chargeoff was taken as part of a formal restructuring of the loan;

(2) The payment received has come from a source of repayment detailed in the plan of collection;

(3) The loan, after considering the payment, is not contractually past due more than 90 days and is not expected to become 90 days past due, or a repayment pattern has been established that reasonably demonstrates future repayment capacity.

(c) The institution shall employ the following practices with respect to earned but uncollected interest income on loans, leases, contracts, and similar assets that are determined not to be fully collectible:

(1) Earned but uncollected interest income that was accrued in the current fiscal year and is determined to be uncollectible shall be reversed from interest income; and

(2) Earned but uncollected interest income that was accrued in prior fiscal years and is determined to be uncollectible shall be charged off against the allowance for loan losses.

**§621.9 Reinstatement to accrual status.**

A loan may be reinstated to accrual status, when each of the following criteria are met:

(a) All contractual principal and interest due on the loan is paid and the loan is current;

(b) Prior chargeoffs are recovered, except for troubled debt restructures;

(c) No reasonable doubt remains regarding the willingness and ability of the borrower to perform in accordance with the contractual terms of the loan agreement; and

(d) Reinstatement is supported by a period of sustained performance in accordance with the contractual terms of the note and/or loan agreement. Sustained performance will generally be demonstrated by 6 consecutive monthly payments, 4 consecutive quarterly payments, 3 consecutive semi-annual payments, or 2 consecutive annual payments.

**§621.10 Monitoring of performance categories and other property owned.**

(a) Each institution shall:
