

Example 1 to paragraph (h)(3). Joint Venture AB is awarded a contract for \$10M. The joint venture will perform 50% of the work, with A performing \$2M (40% of the 50%, or 20% of the total value of the contract) and B performing \$3M (60% of the 50% or 30% of the total value of the contract). Since A will perform 40% of the work done by the joint venture, its share of the revenues for the entire contract is 40%, which means that the receipts from the contract awarded to Joint Venture AB that must be included in A's receipts for size purposes are \$4M. A must add \$4M to its receipts for size purposes, unless its receipts already account for the \$4M in transactions between A and Joint Venture AB.

(4) *Facility security clearances.* A joint venture may be awarded a contract requiring a facility security clearance where either the joint venture itself or the individual partner(s) to the joint venture that will perform the necessary security work has (have) a facility security clearance.

(i) Where a facility security clearance is required to perform primary and vital requirements of a contract, the lead small business partner to the joint venture must possess the required facility security clearance.

(ii) Where the security portion of the contract requiring a facility security clearance is ancillary to the principal purpose of the procurement, the partner to the joint venture that will perform that work must possess the required facility security clearance.

§ 121.104 How does SBA calculate annual receipts?

(a) *Receipts* means all revenue in whatever form received or accrued from whatever source, including from the sales of products or services, interest, dividends, rents, royalties, fees, or commissions, reduced by returns and allowances. Generally, receipts are considered "total income" (or in the case of a sole proprietorship "gross income") plus "cost of goods sold" as these terms are defined and reported on Internal Revenue Service (IRS) tax return forms (such as Form 1120 for cor-

porations; Form 1120S for S corporations; Form 1120, Form 1065 or Form 1040 for LLCs; Form 1065 for partnerships; Form 1040, Schedule F for farms; Form 1040, Schedule C for other sole proprietorships). Receipts do not include net capital gains or losses; taxes collected for and remitted to a taxing authority if included in gross or total income, such as sales or other taxes collected from customers and excluding taxes levied on the concern or its employees; proceeds from transactions between a concern and its domestic or foreign affiliates; and amounts collected for another by a travel agent, real estate agent, advertising agent, conference management service provider, freight forwarder or customs broker. For size determination purposes, the only exclusions from receipts are those specifically provided for in this paragraph. All other items, such as subcontractor costs, reimbursements for purchases a contractor makes at a customer's request, investment income, and employee-based costs such as payroll taxes, may not be excluded from receipts.

(1) The Federal income tax return and any amendments filed with the IRS on or before the date of self-certification must be used to determine the size status of a concern. SBA will not use tax returns or amendments filed with the IRS after the initiation of a size determination.

(2) When a concern has not filed a Federal income tax return with the IRS for a fiscal year which must be included in the period of measurement, SBA will calculate the concern's annual receipts for that year using any other available information, such as the concern's regular books of account, audited financial statements, or information contained in an affidavit by a person with personal knowledge of the facts.

(b) *Completed fiscal year* means a taxable year including any short year. "Taxable year" and "short year" have the meanings attributed to them by the IRS.

(c) *Period of measurement.* (1) Except for the Business Loan, Disaster Loan, Surety Bond Guarantee, and Small Business Investment Company (SBIC) Programs, annual receipts of a concern

that has been in business for 5 or more completed fiscal years means the total receipts of the concern over its most recently completed 5 fiscal years divided by 5.

(2) Except for the Business Loan, Disaster Loan Programs, Surety Bond Guarantee, and SBIC Programs, annual receipts of a concern which has been in business for less than 5 complete fiscal years means the total receipts for the period the concern has been in business divided by the number of weeks in business, multiplied by 52.

(3) Except for the Business Loan, Disaster Loan, Surety Bond Guarantee, and SBIC Programs, where a concern has been in business 5 or more complete fiscal years but has a short year as one of the years within its period of measurement, annual receipts means the total receipts for the short year and the 4 full fiscal years divided by the total number of weeks in the short year and the 4 full fiscal years, multiplied by 52.

(4) For the Business Loan, Disaster Loan, Surety Bond Guarantee, and SBIC Programs, a concern that has been in business for three or more completed fiscal years may elect to calculate annual receipts using either the total receipts of the concern over its most recently completed 5 fiscal years divided by 5, or the total receipts of the concern over its most recently completed 3 fiscal years divided by 3. Annual receipts of a concern which has been in business for less than three complete fiscal years means the total receipts for the period the concern has been in business divided by the number of weeks in business, multiplied by 52. Where a concern has been in business three or more complete fiscal years but has a short year as one of the years within its period of measurement, annual receipts means the total receipts for the short year and the two full fiscal years divided by the total number of weeks in the short year and the two full fiscal years, multiplied by 52. For the purposes of this subsection, the Business Loan Programs consist of the 7(a) Loan Program, the Microloan Program, the Intermediary Lending Pilot Program, and the Development Company Loan Program (“504 Loan Program”). The Disaster Loan Programs

consist of Economic Injury Disaster Loans, Military Reservist Economic Injury Disaster Loans, and Immediate Disaster Assistance Program loans.

(d) *Annual receipts of affiliates.* (1) The average annual receipts size of a business concern with affiliates is calculated by adding the average annual receipts of the business concern with the average annual receipts of each affiliate.

(2) If a concern has acquired an affiliate or been acquired as an affiliate during the applicable period of measurement or before the date on which it self-certified as small, the annual receipts used in determining size status includes the receipts of the acquired or acquiring concern. This aggregation applies for the entire period of measurement, not just the period after the affiliation arose. However, if a concern has acquired a segregable division of another business concern during the applicable period of measurement or before the date on which it self-certified as small, the annual receipts used in determining size status do not include the receipts of the acquired division prior to the acquisition.

(3) Except for the Business Loan and Disaster Loan Programs, if the business concern or an affiliate has been in business for a period of less than 5 years, the receipts for the fiscal year with less than a 12-month period are annualized in accordance with paragraph (c)(2) of this section. Receipts are determined for the concern and its affiliates in accordance with paragraph (c) of this section even though this may result in using a different period of measurement to calculate an affiliate’s annual receipts.

(4) The annual receipts of a former affiliate are not included if affiliation ceased before the date used for determining size. This exclusion of annual receipts of such former affiliate applies during the entire period of measurement, rather than only for the period after which affiliation ceased. However, if a concern has sold a segregable division to another business concern during the applicable period of measurement or before the date on which it self-certified as small, the annual receipts used in determining size status

will continue to include the receipts of the division that was sold.

(e) Unless otherwise defined in this section, all terms shall have the meaning attributed to them by the IRS.

[61 FR 3286, Jan. 31, 1996, as amended at 65 FR 48604, Aug. 9, 2000; 69 FR 29203, May 21, 2004; 81 FR 34258, May 31, 2016; 84 FR 66578, Dec. 5, 2019; 87 FR 34120, June 6, 2022]

§ 121.105 How does SBA define “business concern or concern”?

(a)(1) Except for small agricultural cooperatives, a business concern eligible for assistance from SBA as a small business is a business entity organized for profit, with a place of business located in the United States, and which operates primarily within the United States or which makes a significant contribution to the U.S. economy through payment of taxes or use of American products, materials or labor.

(2) A small agricultural cooperative is an association (corporate or otherwise) acting pursuant to the provisions of the Agricultural Marketing Act (12 U.S.C.A. 1141j) whose size does not exceed the size standard established by SBA for other similar agricultural small business concerns. A small agricultural cooperative's member shareholders are not considered to be affiliates of the cooperative by virtue of their membership in the cooperative. However, a business concern or cooperative that does not qualify as small under this part may not be a member of a small agricultural cooperative.

(b) A business concern may be in the legal form of an individual proprietorship, partnership, limited liability company, corporation, joint venture, association, trust or cooperative, except that where the form is a joint venture there can be no more than 49 percent participation by foreign business entities in the joint venture.

(c) A firm will not be treated as a separate business concern if a substantial portion of its assets and/or liabilities are the same as those of a predecessor entity. In such a case, the annual receipts and employees of the predecessor will be taken into account in determining size.

[61 FR 3286, Jan. 31, 1996, as amended at 70 FR 51248, Aug. 30, 2005]

§ 121.106 How does SBA calculate number of employees?

(a) In determining a concern's number of employees, SBA counts all individuals employed on a full-time, part-time, or other basis. This includes employees obtained from a temporary employee agency, professional employee organization or leasing concern. SBA will consider the totality of the circumstances, including criteria used by the IRS for Federal income tax purposes, in determining whether individuals are employees of a concern. Volunteers (*i.e.*, individuals who receive no compensation, including no in-kind compensation, for work performed) are not considered employees.

(b) Where the size standard is number of employees, the method for determining a concern's size includes the following principles:

(1) The average number of employees of the concern is used (including the employees of its domestic and foreign affiliates) based upon numbers of employees for each of the pay periods for the preceding completed 24 calendar months.

(2) Part-time and temporary employees are counted the same as full-time employees.

(3) If a concern has not been in business for 24 months, the average number of employees is used for each of the pay periods during which it has been in business.

(4)(i) The average number of employees of a business concern with affiliates is calculated by adding the average number of employees of the business concern with the average number of employees of each affiliate. If a concern has acquired an affiliate or been acquired as an affiliate during the applicable period of measurement or before the date on which it self-certified as small, the employees counted in determining size status include the employees of the acquired or acquiring concern. Furthermore, this aggregation applies for the entire period of measurement, not just the period after the affiliation arose.

(ii) The employees of a former affiliate are not counted if affiliation ceased before the date used for determining size. This exclusion of employees of a former affiliate applies during
