

or major stockholders will also be considered.

(d) Organizations representing trade injured industries must demonstrate that the industry is injured by increased imports and that the activities to be funded will yield some short-term actions that the industry itself (and individual firms) can and will take toward the restoration of the industry's international competitiveness.

(1) The emphasis is on practical results that can be implemented in the near term, and long-term research and development activities are given low priority.

(2) It is also expected that the industry will continue activities on its own without the need for continued Federal assistance.

§ 315.7 Award requirements.

(a) Award periods are as follows:

(1) TAACs are generally funded for 12 months;

(2) Firms are generally provided assistance over a 2-year period; and

(3) Organizations representing trade injured industries are generally funded for 12 months.

(b) Matching requirements are as follows:

(1) There are no matching requirements for certification assistance provided by the TAACs to firms or for administrative expenses for the TAACs;

(2) All adjustment proposals and implementation assistance must include not less than 25% nonfederal match, provided to the extent practicable, by firms being assisted; and

(3) Contributions of at least 50% of the total project cash cost, in addition to appropriate in kind contribution, are expected from organizations representing trade injured industries.

Subpart B—Trade Adjustment Assistance Centers

§ 315.8 Purpose and scope.

(a) Trade Adjustment Assistance Centers (TAACs) are available to assist firms in all fifty states, the District of Columbia and the Commonwealth of Puerto Rico in obtaining adjustment assistance. TAACs provide technical assistance in accordance with this subpart either through their own staffs or

by arrangements with outside consultants. Information concerning TAACs serving particular areas can be obtained from EDA. See the annual FY NOFA for the appropriate point of contact and address.

(b) Prior to submitting a request for technical assistance to EDA, a firm should determine the extent to which the required technical assistance can be provided through a TAAC. EDA will provide technical assistance through TAACs whenever EDA determines that such assistance can be provided most effectively in this manner. Requests for technical assistance will normally be made through TAACs.

(c) TAACs generally provide technical assistance to a firm by providing the following:

(1) Assistance to a firm in preparing its petition for certification;

(2) Assistance to a certified firm in diagnosing its strengths and weaknesses and developing an adjustment proposal for the firm; and

(3) Assistance to a certified firm in the implementation of the adjustment proposal for the firm.

Subpart C—Certification of Firms

§ 315.9 Certification requirements.

A firm will be certified eligible to apply for adjustment assistance based upon the petition for certification if EDA determines, under section 251(c) of the Trade Act, that:

(a) A significant number or proportion of workers in such firm have become totally or partially separated, or are threatened to become totally or partially separated.

(b) Either sales or production, or both of the firm have decreased absolutely; or sales or production, or both of any article that accounted for not less than 25 percent of the total production or sales of the firm during the 12-month period preceding the most recent 12-month period for which data are available have decreased absolutely; and

(c) Increases of imports (absolute or relative to domestic production) of articles like or directly competitive with

§ 315.10

13 CFR Ch. III (1-1-99 Edition)

articles produced by such firm contributed importantly to such total or partial separation or threat thereof, and to such decline in sales or production; provided that imports will not be considered to have contributed importantly if other factors were so dominant, acting singly or in combination, that the worker separation or threat thereof, or decline in sales or production would have been essentially the same irrespective of the influence of imports.

[60 FR 49678, Sept. 26, 1995, as amended at 61 FR 7984, Mar. 1, 1996]

§315.10 Processing petitions for certification.

(a) Firms are encouraged to consult with a TAAC or EDA for guidance and assistance in the preparation of their petitions for certification.

(b) A firm seeking certification shall complete a petition (OMB Control Number 0610-0091) in the form prescribed by EDA with the following information about such firm:

(1) Identification and description of the firm, including legal form of organization, economic history, major ownership interests, officers, directors, management, parent company, subsidiaries or affiliates, and production and sales facilities;

(2) Description of goods and services produced and sold;

(3) Description of imported articles like or directly competitive with those produced;

(4) Data on its sales, production and employment for the two most recent years;

(5) Copies of its audited financial statements, or if not available, unaudited financial statements and Federal income tax returns for the two most recent years;

(6) Copies of unemployment insurance reports for the two most recent years.

(7) Information concerning its major customers and their purchases; and

(8) Such other information as EDA may consider material.

(c) EDA shall determine whether the petition has been properly prepared and can be accepted. Immediately thereafter, EDA shall notify the petitioner that the petition has been ac-

cepted or advise the petitioner that the petition has not been accepted, but may be resubmitted at any time without prejudice when the specified deficiencies have been corrected and the resubmission will be treated as a new petition.

(d) A notice of acceptance of a petition shall be published in the FEDERAL REGISTER.

(e) An investigation shall be initiated by EDA to determine whether the petitioner meets requirements set forth in section 251(c) of the Trade Act and §315.9 above. The investigation can be terminated at any time for failure to meet such requirements. A report of this investigation shall become part of the record upon which a determination of the petitioner's eligibility to apply for adjustment assistance shall be made.

(f) A petitioner may withdraw a petition for certification if a request for withdrawal is received by EDA before a certification determination or denial is made. Such firm may submit a new petition at any time thereafter in accordance with the requirements of this section and §315.9.

(g) Following acceptance, EDA shall decide what action to take on petitions for certification as follows:

(1) Make a determination based on the record as soon as possible after all material has been submitted. In no event may the period exceed 60 days from the date on which the petition was accepted; and

(2) Either certify the petitioner eligible to apply for adjustment assistance or deny the petition, and in either event EDA shall promptly give notice of the action in writing to the petitioner. A notice to the petitioner or any parties requesting notice as specified in §315.10(d) of a denial of a petition shall specify the reasons upon which the denial is based. If a petition is denied, the petitioner shall not be entitled to resubmit its petition within one year from the date of the denial. At the time of the denial of a petition EDA may waive the 1-year limitation for good cause.
