

bond for the proper safekeeping and delivery of the merchandise to the CES facility.

(4) If the importer or his agent acting as importer of record transfers the merchandise to a CES, that importer or agent shall assume liability under his importation and entry bond (see § 151.7(d) of this part) for the proper transfer of the merchandise until it is receipted for by the CES operator.

(c) *Annual blanket transfer.* Port directors may institute an annual blanket transfer application procedure to facilitate any of the bonded movements described in paragraph (b) of this section.

(d) *Designation of bonded movement and CES to be used.* In the event the port director deems it necessary, he may direct the type of bonded movement to be used to transfer merchandise to a CES and may designate the CES at which examination must take place. In either case the port director's action will be noted on the Customs Form 3461 or 3461 (ALT) or attachment thereto.

[T.D. 93-6, 58 FR 5606, Jan. 22, 1993]

### Subpart B—Sugars, Sirups, and Molasses

#### § 151.21 Definitions.

The following are general definitions for the purposes of this subpart in applying the provisions of Chapters 17 and 18, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202):

(a) *Degree.* "Degree" or "sugar degree" means an International Sugar Degree as determined by polarimetric test performed in accordance with procedures recognized by the International Commission for Uniform Methods of Sugar Analysis. This test discloses the percentage of sucrose contained in the sugar.

(b) *Total sugars.* "Total sugars" means the sum of the sucrose, the raffinose, and the reducing sugars.

[T.D. 73-175, 38 FR 17470, July 2, 1973, as amended by T.D. 89-1, 53 FR 51268, Dec. 21, 1988]

#### § 151.22 Estimated duties on raw sugar.

Estimated duties shall be taken on raw sugar, as defined in Subheading Note 1 to Chapter 17, Harmonized Tariff Schedule of the United States, on the basis of not less than 96° polariscopic test unless the invoice shows that the sugar is of a lower grade than that of the ordinary commercial shipment.

[T.D. 73-175, 38 FR 17470, July 2, 1973, as amended by T.D. 89-1, 53 FR 51268, Dec. 21, 1988]

#### § 151.23 Allowance for moisture in raw sugar.

Inasmuch as the absorption of sea water or moisture reduces the polariscopic test of sugar, there shall be no allowance on account of increased weight of raw sugar importations due to unusual absorption of sea water or other moisture while on the voyage of importation. Any portion of the cargo claimed by the importer to have absorbed sea water or moisture on the voyage of importation shall be weighed, sampled, and tested separately. No such claim shall be considered if made after the sugar claimed to have been damaged has been weighed.

#### § 151.24 Unlading facilities for bulk sugar.

When dutiable sugar is to be imported in bulk, a full description of the facilities to be used in unlading the sugar shall be submitted to the Commissioner of Customs as far as possible in advance of the date of importation, and special instructions will be issued as to the methods to be applied in weighing and sampling such sugar.

#### § 151.25 Mixing classes of sugar.

No regulations relative to the weighing, taring, sampling, classifying, and testing of imported sugar shall be so construed as to permit mixing together sugar of different classes, such as centrifugal, beet, molasses, or any sugar different in character from those mentioned, for the purpose of weighing, taring, sampling, or testing.
