

§ 152.101 Basis of appraisalment.

(a) *Effective date.* The value for appraisalment of merchandise exported to the United States on or after July 1, 1980, or, for articles classified under subheading 6401.10.00 Harmonized Tariff Schedule of the United States (19 U.S.C. 1202), on or after July 1, 1981, will be determined in accordance with section 402, Tariff Act of 1930 (19 U.S.C. 1401a), as amended by section 201, Trade Agreements Act of 1979.

(b) *Methods.* Imported merchandise will be appraised on the basis, and in the order, of the following:

(1) The transaction value provided for in § 152.103;

(2) The transaction value of identical merchandise provided for in § 152.104, if the transaction value cannot be determined, or can be determined but cannot be used because of the limitations provided for in § 152.103(j);

(3) The transaction value of similar merchandise provided for in § 152.104, if the transaction value of identical merchandise cannot be determined;

(4) The deductive value provided for in § 152.105, if the transaction value of similar merchandise cannot be determined;

(5) The computed value provided for in § 152.106, if the deductive value cannot be determined; or

(6) The value provided for in § 152.107, if the computed value cannot be determined.

(c) *Importer's option.* The importer may request the application of the computed value method before the deductive value method. The request must be made at the time the entry summary for the merchandise is filed with the port director (see § 141.0a(b) of this chapter). If the importer makes the request, but the value of the imported merchandise cannot be determined using the computed value method, the merchandise will be appraised using the deductive value method if it is possible to do so. If the deductive value cannot be determined, the appraised value will be determined as provided for in § 152.107.

(d) *Explanation to importer.* Upon receipt of a written request from the importer within 90 days after liquidation, the port director shall provide a reasonable and concise written expla-

nation of how the value of the imported merchandise was determined. The explanation will apply only to the imported merchandise being appraised and will not serve as authority with respect to the valuation of importations of any other merchandise at the same or a different port of entry. This procedure is for informational purposes only, and will not affect or replace the protest or administrative ruling procedures contained in parts 174 and 177, respectively, of this chapter, or any other Customs procedures. Under this procedure, Customs will not be required to release any information not otherwise subject to disclosure under the Freedom of Information Act, as amended (5 U.S.C. 552), the Privacy Act of 1974 (5 U.S.C. 552a), or any other statute (see part 103 of this chapter).

§ 152.102 Definitions.

As used in this subpart, the following terms will have the meanings indicated:

(a) *Assist.* (1) "Assist" means any of the following if supplied directly or indirectly, and free of charge or at reduced cost, by the buyer of imported merchandise for use in connection with the production or the sale for export to the United States of the merchandise:

(i) Materials, components, parts, and similar items incorporated in the imported merchandise.

(ii) Tools, dies, molds, and similar items used in the production of the imported merchandise.

(iii) Merchandise consumed in the production of the imported merchandise.

(iv) Engineering, development, artwork, design work, and plans and sketches that are undertaken elsewhere than in the United States and are necessary for the production of the imported merchandise.

(i) Is performed by an individual domiciled within the United States;

the buyer of the imported merchandise; and

(3) The following apply in determining the value of assists described in paragraph (a)(1)(iv) of this section:

(i) The value of an assist that is available in the public domain is the cost of obtaining copies of the assist.

(ii) If the production of an assist occurred in the United States and one or more foreign countries, the value of the assist is the value added outside the United States.

(iii) If the assist was purchased or leased by the buyer from an unrelated person, the value of the assist is the cost of the purchase or of the lease.

(b) *Commission.* "Selling commission" means any commission paid to the seller's agent, who is related to or controlled by, or works for or on behalf of, the manufacturer or the seller.

(c) *Generally accepted accounting principles.* (1) "Generally accepted accounting principles" refers to any generally recognized consensus or substantial authoritative support regarding:

(ii) Which changes in assets and liabilities should be recorded;

(iii) How the assets and liabilities and changes in them should be measured;

(iv) What information should be disclosed and how it should be disclosed; and

(v) Which financial statements should be prepared.

(2) The applicability of a particular set of generally accepted accounting principles will depend upon the basis on which the value of the imported merchandise is sought to be established, and the relevant country for the point in contention.

(3) Information submitted by an importer, buyer, or producer in regard to the appraisal of merchandise may not be rejected by Customs because of the accounting method by which that information was prepared, if the preparation was in accordance with generally accepted accounting principles.

(d) *Identical merchandise.* "Identical merchandise" means merchandise identical in all respects to, and produced in the same country and by the same person as, the merchandise being appraised. If identical merchandise cannot be found (or for purposes of related buyer and seller transactions (see § 152.103 (j)(2)(i)(A)) regardless of whether identical merchandise can be found), merchandise identical in all respects to, and produced in the same country as, but not produced by the same person as, the merchandise being appraised, may be treated as "identical merchandise". "Identical merchandise" does not include merchandise that incorporates or reflects any engineering, development, artwork, design work, or plan or sketch supplied free or at reduced cost by the buyer of the merchandise for use in connection with the production or sale for export to the United States of the merchandise, and is not an assist because undertaken within the United States.

(e) *Packing costs.* "Packing costs" means the cost of all containers (exclusive of instruments of international traffic) and coverings of whatever nature and of packing, whether for labor or materials, used in placing merchandise in condition, packed ready for shipment to the United States.

(f) *Price actually paid or payable.* "Price actually paid or payable" means the total payment (whether direct or indirect, and exclusive of any charges, costs, or expenses incurred for transportation, insurance, and related services incident to the international shipment of the merchandise from the country of exportation to the place of importation in the United States) made, or to be made, for imported merchandise by the buyer to, or for the benefit of, the seller.

(2) Any officer or director of an organization, and that organization.

(3) An officer or director of an organization and an officer or director of another organization, if each individual also is an officer or director in the other organization.

- (i) *Similar merchandise.* "Similar merchandise" means merchandise produced in the same country and by the same person as the merchandise being appraised, like the merchandise being appraised in characteristics and component material, and commercially interchangeable with the merchandise being appraised. If similar merchandise cannot be found (or for purposes of related buyer and seller transactions (see § 152.103 (j)(2)(i)(A)) regardless of whether similar merchandise can be found), merchandise produced in the same country as, but not produced by the same person as, the merchandise being appraised, like the merchandise being appraised in characteristics and component material, and commercially interchangeable with the merchandise being appraised, may be treated as "similar merchandise". "Similar merchandise" does not include merchandise that incorporates or reflects any engineering, development, artwork, design work, or plan or sketch supplied free or at reduced cost by the buyer of the merchandise for use in connection with the production or the sale for export to the United States of the merchandise, and is not an assist because undertaken within the United States.

§ 152.103 Transaction value.

(a) *Price actually paid or payable—(1) General.* In determining transaction value, the price actually paid or payable will be considered without regard to its method of derivation. It may be the result of discounts, increases, or negotiations, or may be arrived at by the application of a formula, such as the price in effect on the date of export in the London Commodity Market. The word "payable" refers to a situation in which the price has been agreed upon, but actual payment has not been made at the time of importation. Payment may be made by letters of credit or negotiable instruments and may be made directly or indirectly.

Example 1. In a transaction with foreign Company X, a U.S. firm pays Company X \$10,000 for a shipment of meat products, packed ready for shipment to the United States. No selling commission, assist, royalty, or license fee is involved. Company X is not related to the U.S. purchaser and imposes no condition or limitation on the buyer.

The customs value of the imported meat products is \$10,000—the transaction value of the imported merchandise.

Example 2. A foreign shipper sold merchandise at \$100 per unit to a U.S. importer. Subsequently, the foreign shipper increased its price to \$110 per unit. The merchandise was
