

(a)(2)(i) of this section, the Secretary will seek to measure the adequacy of remuneration by comparing the government price to a world market price where it is reasonable to conclude that such price would be available to purchasers in the country in question. Where there is more than one commercially available world market price, the Secretary will average such prices to the extent practicable, making due allowance for factors affecting comparability.

(iii) *World market price unavailable.* If there is no world market price available to purchasers in the country in question, the Secretary will normally measure the adequacy of remuneration by assessing whether the government price is consistent with market principles.

(iv) *Use of delivered prices.* In measuring adequate remuneration under paragraph (a)(2)(i) or (a)(2)(ii) of this section, the Secretary will adjust the comparison price to reflect the price that a firm actually paid or would pay if it imported the product. This adjustment will include delivery charges and import duties.

(b) *Time of receipt of benefit.* In the case of the provision of a good or service, the Secretary normally will consider a benefit as having been received as of the date on which the firm pays or, in the absence of payment, was due to pay for the government-provided good or service.

(c) *Allocation of benefit to a particular time period.* In the case of the provision of a good or service, the Secretary will normally allocate (expense) the benefit to the year in which the benefit is considered to have been received under paragraph (b) of this section. In the case of the provision of infrastructure, the Secretary will normally treat the benefit as non-recurring and will allocate the benefit to a particular year in accordance with § 351.524(d).

(d) *Exception for general infrastructure.* A financial contribution does not exist in the case of the government provision of general infrastructure. General infrastructure is defined as infrastructure that is created for the broad societal welfare of a country, region, state or municipality.

(b) *Time of receipt of benefit.* In the case of assistance provided to workers, the Secretary normally will consider the benefit as having been received by the firm on the date on which the payment is made that relieves the firm of the relevant obligation.

(c) *Allocation of benefit to a particular time period.* Normally, the Secretary will allocate (expense) the benefit from assistance provided to workers to the year in which the benefit is considered to have been received under paragraph (b) of this section.

In applying this section, the Secretary will consider a subsidy to be contingent upon export performance if the provision of the subsidy is, in law or in fact, tied to actual or anticipated exportation or export earnings, alone or as one of two or more conditions.

(b) *Exception.* In the case of export promotion activities of a government, a benefit does not exist if the Secretary determines that the activities consist of general informational activities that do not promote particular products over others.

**§ 351.515 Internal transport and freight charges for export shipments.**

(a) *Benefit.*—(1) *In general.* In the case of internal transport and freight charges on export shipments, a benefit exists to the extent that the charges paid by a firm for transport or freight with respect to goods destined for export are less than what the firm would have paid if the goods were destined for domestic consumption.
