

§ 574.130

provided under this part. In allocating grant amounts among eligible activities, the EMSA's applicant shall address needs of eligible persons who reside within the metropolitan statistical area, including those not within the jurisdiction of the applicant.

[60 FR 1917, Jan. 5, 1995]

§ 574.130 Formula allocations.

(a) *Data sources.* HUD will allocate funds based on the number of cases of acquired immunodeficiency syndrome reported to and confirmed by the Director of the Centers for Disease Control, and on population data provided by the U.S. Census. The number of cases of acquired immunodeficiency syndrome used for this purpose shall be the number reported as of March 31 of the fiscal year immediately preceding the fiscal year for which the amounts are appropriated and allocated.

(b) *Distribution of appropriated funds for entitlement awards.* (1) Seventy-five percent of the funds allocated under the formula is distributed to qualifying cities and eligible States, as described in § 574.100, based on each metropolitan statistical area's or State's proportionate share of the cumulative number of AIDS cases in all eligible metropolitan statistical areas and eligible States.

(2) The remaining twenty-five percent is allocated among qualifying cities, but not States, where the per capita incidence of AIDS for the year, April 1 through March 31, preceding the fiscal year of the appropriation is higher than the average for all metropolitan statistical areas with more than 500,000 population. Each qualifying city's allocation reflects its EMSA's proportionate share of the high incidence factor among EMSA's with higher than average per capita incidence of AIDS. The high incidence factor is computed by multiplying the population of the metropolitan statistical area by the difference between its twelve-month-per-capita-incidence rate and the average rate for all metropolitan statistical areas with more than 500,000 population. The EMSA's proportionate share is determined by dividing its high incidence factor by the sum of the high incidence factors for all

24 CFR Ch. V (4-1-03 Edition)

EMSA's with higher than average per capita incidence of AIDS.

(c) *Minimum grant.* No grant awarded under paragraph (b) of this section shall be less than \$200,000. Therefore, if the calculations under paragraph (b) of this section would result in any eligible metropolitan statistical area or eligible State receiving less than \$200,000, the amount allocated to that entity is increased to \$200,000 and allocations to entities in excess of \$200,000 are proportionately reduced by the amount of the increase.

§ 574.190 Reallocation of grant amounts.

If an eligible State or qualifying city does not submit a consolidated plan in a timely fashion, in accordance with 24 CFR part 91, that provides for use of its allocation of funding under this part, the funds allocated to that jurisdiction will be added to the funds available for formula allocations to other jurisdictions in the current fiscal year. Any formula funds that become available as a result of deobligations or the imposition of sanctions as provided for in § 574.540 will be added to the funds available for formula allocations in the next fiscal year.

[57 FR 61740, Dec. 28, 1992, as amended at 60 FR 1918, Jan. 5, 1995]

Subpart C—Competitive Grants

§ 574.200 Amounts available for competitive grants.

(a) The Department will set aside 10 percent of the amounts appropriated under this program to fund on a competitive basis:

(1) Special projects of national significance; and

(2) Other projects submitted by States and localities that do not qualify for formula grants.

(b) Any competitively awarded funds that become available as a result of deobligations or the imposition of sanctions, as provided in § 574.540, will be added to the funds available for competitive grants in the next fiscal year.

(c) The competitive grants are awarded based on applications, as described in subpart C of this part, submitted in
