EDITORIAL NOTE: For revisions and amendments affecting Schedules A, B, C, and D, issued under part 888, but not carried in the Code of Federal Regulations, see the List of CFR Sections Affected, in the Finding Aids section of this volume.

**Subpart A—Fair Market Rents**

**§ 888.111 Fair market rents for existing housing: Applicability.**

The Fair Market Rents (FMRs) for existing housing (see definition in § 882.102 of this chapter) are determined by the Department of Housing and Urban Development (HUD) and apply to the Section 8 Certificate Program, including space rentals by owners of

manufactured homes under the Section 8 Certificate Program, the Section 8 Moderate Rehabilitation Program, Section 8 existing housing project-based assistance, and Section 8 existing housing assisted under part 886 of this chapter. FMRs are also used to determine payment standard schedules in the Rental Voucher program.

[60 FR 42226, Aug. 15, 1995]

**§ 888.113 Fair market rents for existing housing: Methodology.**

(a) *Basis for setting fair market rents.* Fair Market Rents (FMRs) are estimates of rent plus the cost of utilities, except telephone. They are housing market-wide estimates of rents that provide opportunities to rent standard quality housing throughout the geographic area in which rental housing units are in competition. The level at which FMRs are set is expressed as a percentile point within the rent distribution of standard quality rental housing units in the FMR area. FMRs are set at the 40th percentile rent—the dollar amount below which 40 percent of standard quality rental housing units rent. The 40th percentile rent is drawn from the distribution of rents of all units that are occupied by recent movers. Adjustments are made to exclude public housing units, newly built units and substandard units.

(b) *FMR Areas.* FMR areas are metropolitan areas and nonmetropolitan counties (nonmetropolitan parts of counties in the New England States). With several exceptions, the most current Office of Management and Budget (OMB) metropolitan area definitions of Metropolitan Statistical Areas (MSAs) and Primary Metropolitan Statistical Areas (PMSAs) are used because of their generally close correspondence with housing market area definitions. HUD may make exceptions to OMB definitions if the MSAs or PMSAs encompass areas that are larger than housing market areas. The counties deleted from the HUD-defined FMR areas in those cases are established as separate metropolitan county FMR areas. FMRs are established for all areas in the United States, the District of Columbia, Puerto Rico, the Virgin Islands, and the Pacific Islands.

(c) *Data sources.* (1) HUD uses the most accurate and current data available to develop the FMR estimates and may add other data sources as they are discovered and determined to be statistically valid. The following sources of survey data are used to develop the base-year FMR estimates:

(i) The most recent decennial Census, which provides statistically reliable rent data.

(ii) The American Housing Survey (AHS) data, conducted by the Bureau of the Census for HUD. AHS's have comparable accuracy to the decennial Census, and are used to develop between-census revisions for the largest metropolitan areas on a four-year revolving schedule.

(iii) Random Digit Dialing (RDD) telephone survey data, based on a sampling procedure that uses computers to select statistically random samples of rental housing.

(iv) Statistically valid information, as determined by HUD, presented to HUD during the public comment and review period.

(2) Base-year FMRs are updated and trended to the midpoint of the program year they are to be effective using Consumer Price Index (CPI) data for rents and for utilities or using rent-change factors obtained from the RDD regional surveys. The RDD rent-change factors are developed annually for the metropolitan and nonmetropolitan parts of the HUD-specified geographic regions not covered by CPI surveys, and are used to update the base-year FMR estimates within these regions.

(d) *Bedroom size adjustments.* (1) For most areas the ratios developed from the most recent decennial Census are applied to the two-bedroom FMR estimates to derive FMRs for other bedroom sizes. Exceptions to this procedure may be made for areas with local bedroom intervals below an acceptable range. To help the largest most difficult to house families find units, higher ratios than the actual market ratios may be used for three-bedroom and larger-size units.

(2) The FMR for single room occupancy housing is 75 percent of the FMR for a zero bedroom unit.

(e) *Manufactured home space.* The FMR for a manufactured home space is

30 percent of the FMR for a two-bedroom unit, or, where approved by HUD on the basis of survey data submitted in public comments, the 40th percentile of the rental distribution of manufactured home spaces for the FMR area. HUD accepts public comments requesting revision of the proposed manufactured home space FMRs for areas where space rentals are thought to differ from the 30 percent standard. To be considered for approval, the comments must contain statistically-valid survey data that show the 40th percentile manufactured home space rent (excluding the cost of utilities) for the FMR area. Once approved, the revised manufactured home space FMRs establish new base-year estimates that will be updated annually using the same data used to update the Rental Certificate program FMRs.

[60 FR 42226, Aug. 15, 1995]

**§ 888.115 Fair market rents for existing housing: Manner of publication.**

FMRs will be published at least annually in the FEDERAL REGISTER. The Department will propose FMRs and provide a comment period of at least 30 days for the purpose of identifying areas where the FMRs are believed to be too high or too low. To be considered for FMR revisions, public comments must include statistically valid rental housing survey data that justify the requested changes. After the comments have been considered, the Department will publish a final notice announcing FMRs to be effective on October 1 each year.

[60 FR 42227, Aug. 15, 1995]

**Subpart B—Contract Rent Annual Adjustment Factors**

**§ 888.201 Purpose.**

Automatic Annual Adjustment Factors are used to adjust rents under the Section 8 Housing Assistance Payments Program.

[44 FR 75383, Dec. 20, 1979]

**§ 888.202 Manner of publication.**

Adjustment Factors will be published in the FEDERAL REGISTER at least annually by Notice. Interim revisions
