

§ 1.408A-0

26 CFR Ch. I (4-1-21 Edition)

the assets of that deemed IRA are included as part of the trust of the qualified employer plan, section 408(q) does not apply and the plan will fail to satisfy the plan's qualification requirements.

(2) *Separate trusts and annuities.* If the qualified employer plan fails to satisfy its qualification requirements, either in form or operation, but the assets of a deemed IRA are held in a separate trust (or where a deemed IRA is an individual retirement annuity), then the deemed IRA does not automatically fail to satisfy the applicable requirements of section 408 or 408A. Instead, its status as an IRA will be determined by considering whether the account or the annuity satisfies the applicable requirements of sections 408 and 408A (including, in the case of individual retirement accounts, the prohibition against the commingling of assets under section 408(a)(5)). Also, if a deemed IRA fails to satisfy the requirements of a qualified IRA and the assets of the deemed IRA are held in a separate trust (or where the deemed IRA is an individual retirement annuity), the qualified employer plan will not fail the qualification requirements applicable to it under the Code solely because of the failure of the deemed IRA.

(h) *Definitions.* The following definitions apply for purposes of this section:

(1) *Qualified employer plan.* A *qualified employer plan* is a plan described in section 401(a), an annuity plan described in section 403(a), a section 403(b) plan, or a governmental plan under section 457(b).

(2) *Voluntary employee contribution.* A *voluntary employee contribution* is any contribution (other than a mandatory contribution within the meaning of section 411(c)(2)(C)) which is made by an individual as an employee under a qualified employer plan that allows employees to elect to make contributions to deemed IRAs and with respect to which the individual has designated the contribution as a contribution to which section 408(q) applies.

(3) *Employee.* An *employee* includes any individual who is an employee under the rules applicable to the qualified employer plan under which the deemed IRA is established.

(i) *Effective date.* This section applies to accounts or annuities established under section 408(q) on or after August 1, 2003.

§ 1.408A-1 Roth IRAs in general.

This section sets forth the following questions and answers that discuss the background and general features of Roth IRAs:

Q-1. What is a Roth IRA?

A-1. (a) A Roth IRA is a new type of individual retirement plan that individuals can use, beginning in 1998. Roth IRAs are described in section 408A, which was added by the Taxpayer Relief Act of 1997 (TRA 97), Public Law 105-34 (111 Stat. 788).

(b) Roth IRAs are treated like traditional IRAs except where the Internal Revenue Code specifies different treatment. For example, aggregate contributions (other than by a conversion or other rollover) to all an individual's Roth IRAs are not permitted to exceed \$2,000 for a taxable year. Further, income earned on funds held in a Roth IRA is generally not taxable. Similarly, the rules of section 408(e), such as the loss of exemption of the account where the owner engages in a prohibited transaction, apply to Roth IRAs in the same manner as to traditional IRAs.

Q-2. What are the significant differences between traditional IRAs and Roth IRAs?

A-2. There are several significant differences between traditional IRAs and Roth IRAs under the Internal Revenue

Code. For example, eligibility to contribute to a Roth IRA is subject to special modified AGI (adjusted gross income) limits; contributions to a Roth IRA are never deductible; qualified distributions from a Roth IRA are not includible in gross income; the required minimum distribution rules under section 408(a)(6) and (b)(3) (which generally incorporate the provisions of section 401(a)(9)) do not apply to a Roth IRA during the lifetime of the owner; and contributions to a Roth IRA can be made after the owner has attained age 70½.

§ 1.408A-2 Establishing Roth IRAs.

This section sets forth the following questions and answers that provide rules applicable to establishing Roth IRAs:

Q-1. Who can establish a Roth IRA?

A-1. Except as provided in A-3 of this section, only an individual can establish a Roth IRA. In addition, in order to be eligible to contribute to a Roth IRA for a particular year, an individual must satisfy certain compensation requirements and adjusted gross income limits (see § 1.408A-3 A-3).

Q-2. How is a Roth IRA established?

A-2. A Roth IRA can be established with any bank, insurance company, or other person authorized in accordance with § 1.408-2(e) to serve as a trustee with respect to IRAs. The document establishing the Roth IRA must clearly designate the IRA as a Roth IRA, and this designation cannot be changed at a later date. Thus, an IRA that is designated as a Roth IRA cannot later be treated as a traditional IRA. However, see § 1.408A-4 A-1(b)(3) for certain rules for converting a traditional IRA to a Roth IRA with the same trustee by redesignating the traditional IRA as a Roth IRA, and see § 1.408A-5 for rules for recharacterizing certain IRA contributions.

Q-3. Can an employer or an association of employees establish a Roth IRA to hold contributions of employees or members?

A-3. Yes. Pursuant to section 408(c), an employer or an association of employees can establish a trust to hold contributions of employees or members made under a Roth IRA. Each employ-

ee's or member's account in the trust is treated as a separate Roth IRA that is subject to the generally applicable Roth IRA rules. The employer or association of employees may do certain acts otherwise required by an individual, for example, establishing and designating a trust as a Roth IRA.

Q-4. What is the effect of a surviving spouse of a Roth IRA owner treating an IRA as his or her own?

A-4. If the surviving spouse of a Roth IRA owner treats a Roth IRA as his or her own as of a date, the Roth IRA is treated from that date forward as though it were established for the benefit of the surviving spouse and not the original Roth IRA owner. Thus, for example, the surviving spouse is treated as the Roth IRA owner for purposes of applying the minimum distribution requirements under section 408(a)(6) and (b)(3). Similarly, the surviving spouse is treated as the Roth IRA owner rather than a beneficiary for purposes of determining the amount of any distribution from the Roth IRA that is includible in gross income and whether the distribution is subject to the 10-percent additional tax under section 72(t).

§ 1.408A-3 Contributions to Roth IRAs.

This section sets forth the following questions and answers that provide rules regarding contributions to Roth IRAs:

Q-1. What types of contributions are permitted to be made to a Roth IRA?

A-1. There are two types of contributions that are permitted to be made to a Roth IRA: regular contributions and qualified rollover contributions (including conversion contributions). The term regular contributions means contributions other than qualified rollover contributions.

Q-2. When are contributions permitted to be made to a Roth IRA?

A-2. (a) The provisions of section 408A are effective for taxable years beginning on or after January 1, 1998. Thus, the first taxable year for which contributions are permitted to be made to a Roth IRA by an individual is the individual's taxable year beginning in 1998.
