is not customarily and regularly engaged in making sales. Rather, he is employed primarily to deliver goods and to perform activities in the supermarkets of a nature usually performed by store employees not employed as salesmen. Such a routeman is not employed in the capacity of outside salesman within the exemption provided by section 13(a)(1).

(5) Some employees are engaged in a combination of activities involving delivery, the selling of services, and the performance of the services. For example, some drivers call on customers for the purpose of selling pesticides and, if a sale is consummated, applying the pesticides on the customer's property. Such employees, like those referred to in §541.501(e), are not exempt as outside salesmen. They are primarily engaged in delivery or service functions, not in outside selling.

§541.506 Nonexempt work generally.

Nonexempt work is that work which is not sales work and is not performed incidental to and in conjunction with the outside sales activities of the employee. It includes outside activities like meter-reading, which are not part of the sales process. Inside sales and all work incidental thereto are also nonexempt work. So is clerical warehouse work which is not related to the employee's own sales. Similarly, the training of other salesmen is not exempt as outside sales work, with one exception. In some concerns it is the custom for the salesman to be accompanied by the trainee while actually making sales. Under such circumstances it appears that normally the trainer-salesman and the trainee make the various sales jointly, and both normally receive a commission thereon. In such instances, since both are engaged in making sales, the work of both is considered exempt work. However, the work of a helper who merely assists the salesman in transporting goods or samples and who is not directly concerned with effectuating the sale is nonexempt work.

§541.507 20-percent limitation on nonexempt work.

Nonexempt work in the definition of "outside salesman" is limited to "20 percent of the hours worked in the workweek by nonexempt employees of the employer." The 20 percent is computed on the basis of the hours worked by nonexempt employees of the employer who perform the kind of nonexempt work performed by the outside salesman. If there are no employees of the employer performing such nonexempt work, the base to be taken is 40 hours a week, and the amount of nonexempt work allowed will be 8 hours a week.

§541.508 Trainees, outside salesmen.

The exemption is applicable to an employee employed in the capacity of outside salesman and does not include employees training to become outside salesmen who are not actually performing the duties of an outside salesman (see also §541.506).

SPECIAL PROBLEMS

§541.600 Combination exemptions.

(a) The divisions' position under the regulations in subpart A of this part permits the "tacking" of exempt work under one section of the regulations in subpart A to exempt work under another section of those regulations, so that a person who, for example, performs a combination of executive and professional work may qualify for exemption. In combination exemptions, however, the employee must meet the stricter of the requirements on salary and nonexempt work. For instance, if the employee performs a combination of an executive's and an outside salesman's function (regardless of which occupies most of his time) he must meet the salary requirement for executives. Also, the total hours of nonexempt work under the definition of "executive" together with the hours of work which would not be exempt if he were clearly an outside salesman, must not exceed either 20 percent of his own time or 20 percent of the hours worked in the workweek by the nonexempt employees of the employer, whichever is the smaller amount.

(b) Under the principles in paragraph (a) of this section combinations of exemptions under the other sections of the regulations in subpart A of this part are also permissible. In short, under the regulations in subpart A,
