

§ 250.1632

the safety requirements of the operations to be performed; possible hazards to be encountered; and general safety considerations to be taken to protect personnel, equipment, and the environment. Date and time of safety meetings shall be recorded and available for MMS review.

§ 250.1632 Production rates.

Each sulphur deposit shall be produced at rates that will provide economic development and depletion of the deposit in a manner that would maximize the ultimate recovery of sulphur without resulting in waste (e.g., an undue reduction in the recovery of oil and gas from an associated hydrocarbon accumulation).

§ 250.1633 Production measurement.

(a) *General.* Measurement equipment and security procedures shall be designed, installed, used, maintained, and tested so as to accurately and completely measure the sulphur produced on a lease for purposes of royalty determination.

(b) *Application and approval.* The lessee shall not commence production of sulphur until the Regional Supervisor has approved the method of measurement. The request for approval of the method of measurement shall contain sufficient information to demonstrate to the satisfaction of the Regional Supervisor that the method of measurement meets the requirements of paragraph (a) of this section.

§ 250.1634 Site security.

(a) All locations where sulphur is produced, measured, or stored shall be operated and maintained to ensure against the loss or theft of produced sulphur and to assure accurate and complete measurement of produced sulphur for royalty purposes.

(b) Evidence of mishandling of produced sulphur from an offshore lease, or tampering or falsifying any measurement of production for an offshore lease, shall be reported to the Regional Supervisor as soon as possible but no later than the next business day after discovery of the evidence of mishandling.

30 CFR Ch. II (7-1-00 Edition)

PART 251—GEOLOGICAL AND GEOPHYSICAL (G&G) EXPLORATIONS OF THE OUTER CONTINENTAL SHELF

- Sec.
- 251.1 Definitions.
- 251.2 Purpose of this part.
- 251.3 Authority and applicability of this part.
- 251.4 Types of G&G activities that require permits or Notices.
- 251.5 Applying for permits or filing Notices.
- 251.6 Obligations and rights under a permit or a Notice.
- 251.7 Test drilling activities under a permit.
- 251.8 Inspection and reporting requirements for activities under a permit.
- 251.9 Temporarily stopping, canceling, or relinquishing activities approved under a permit.
- 251.10 Penalties and appeals.
- 251.11 Submission, inspection, and selection of geological data and information collected under a permit and processed by permittees or third parties.
- 251.12 Submission, inspection, and selection of geophysical data and information collected under a permit and processed by permittees or third parties.
- 251.13 Reimbursement for the cost of reproducing data and information and certain processing costs.
- 251.14 Protecting and disclosing data and information submitted to MMS under a permit.
- 251.15 Authority for information collection.

AUTHORITY: 43 U.S.C. 1331 *et seq.*

SOURCE: 62 FR 67284, Dec. 24, 1997, unless otherwise noted.

§ 251.1 Definitions.

Terms used in this part have the following meaning:

*Act* means the Outer Continental Shelf Lands Act (OCSLA), as amended (43 U.S.C. 1331 *et seq.*).

*Analyzed geological information* means data collected under a permit or a lease that have been analyzed. Analysis may include, but is not limited to, identification of lithologic and fossil content, core analyses, laboratory analyses of physical and chemical properties, well logs or charts, results from formation fluid tests, and descriptions of hydrocarbon occurrences or hazardous conditions.

*Archaeological interest* means capable of providing scientific or humanistic understanding of past human behavior, cultural adaptation, and related topics
