

**§ 280.6**

**30 CFR Ch. II (7-1-00 Edition)**

and reproduction, such time being the earliest practicable time;

(6) An agreement that the information and data resulting from the scientific research activity will not be sold or withheld for exclusive use;

(7) The name, registry number, registered owner, and port of registry of vessels used in the operation; and

(8) A scientific research plan.

(e) Within 30 days following the receipt of an application for a permit and the accompanying plan which does not require preparation of an environmental analysis the Director shall—

(1) Approve the application and plan;

(2) Require the applicant to modify the application and/or plan; or

(3) Disapprove the application and plan. If the Director disapproves an application and plan, the statement of rejection shall give the reasons for the disapproval and shall advise the applicant of the changes needed to obtain approval.

**§ 280.6 Prospecting or scientific research plan.**

(a) The applicant shall submit a plan with its application for a prospecting or scientific research permit. The plan shall include—

(1) Identification of the mineral(s) or material(s) of primary interest, if appropriate;

(2) A detailed description of the activities to be conducted;

(3) The type(s) of equipment to be used with special attention to safety and pollution prevention and control features and the name, registration, and mobile communication system of vessel(s);

(4) Maps showing location of proposed activities including drill holes, grab or basket samples, anticipated depth of penetration of drill holes, water depth, and location of proposed survey grids for each surveying method which is to be employed;

(5) A schedule indicating the starting and completion dates for each proposed activity;

(6) Anticipated environmental consequences of each proposed activity;

(7) Mitigation measures to be used to avoid or minimize adverse environmental impacts of proposed activities;

(8) For any activities which are to occur in an environmentally sensitive area, a plan for monitoring the effects of the activities on the environment;

(9) Any known archaeological resources in the area of the proposed activities; and

(10) Description of any potential conflicts with other uses or users in the permit area.

(b) If the penetration of one or more proposed drill holes will exceed 300 feet, the Director may require a drilling plan to be included as part of the plan before a permit is issued.

(c) If all needed information is not available at the time the plan is submitted, a plan shall indicate when the needed information will be obtained and submitted. In such a case, depending on the significance of the missing information, the Director may disapprove the plan, approve the plan based on the information submitted, or approve the plan with a specific condition that certain specified activities are not authorized and shall not be conducted until additional information is obtained and submitted for evaluation, and the Director gives specific approval to proceed with those activities.

**§ 280.7 Obligations of persons.**

(a) Activities authorized under a prospecting or scientific research permit issued under this part or research authorized pursuant to the provisions of § 280.5(c) of this part shall be conducted so as not to create conditions which will pose an unreasonable risk of—

(1) Interference with, or endangerment of, operations under any lease or permit issued or maintained pursuant to the Act;

(2) Serious, irreparable, or immediate harm or damage to life (including fish and other aquatic life) or to the marine, coastal, or human environment;

(3) Serious, irreparable, or immediate harm or damage to property or to any mineral (in areas leased or not leased);

(4) Pollution;

(5) Disturbance of archaeological resources;

(6) Hazardous or unsafe conditions; or

(7) Interference with or serious, irreparable, or immediate harm to other uses of the area.
