

(4) Prescribing requirements for use and disposition of real property acquired under awards, if the DoD Component makes any awards to institutions of higher education or to other nonprofit organizations under which real property is acquired in whole or in part with Federal funds (see 32 CFR 32.32).

§ 21.120 Publication and maintenance.

(a) The DoDGARs are published as chapter I, subchapter B, title 32 of the Code of Federal Regulations (CFR) and in a separate loose-leaf edition. The loose-leaf edition is divided into parts, subparts, and sections, to parallel the CFR publication. Cross-references within the DoDGARs are stated as CFR citations (e.g., a reference to § 21.115 in part 21 would be to 32 CFR 21.115).

(b) Updates to the DoDGARs are published in the FEDERAL REGISTER. When finalized, updates also are published as Defense Grant and Agreement Circulars, with revised pages for the separate, loose-leaf edition.

(c) Revisions to the DoDGARs are recommended to the Director of Defense Research and Engineering (DDR&E) by a standing working group. The DDR&E, Director of Defense Procurement, and each Military Department shall be represented on the working group. Other DoD Components that use grants or cooperative agreements may also nominate representatives. The working group meets when necessary.

§ 21.125 Deviations.

(a) The Head of the DoD Component or his or her designee may authorize individual deviations from the DoDGARs, which are deviations that affect only one grant or cooperative agreement, if such deviations are not prohibited by statute, executive order or regulation.

(b) Class deviations that affect more than one grant or cooperative agreement must be approved in advance by the Director, Defense Research and Engineering (DDR&E) or his or her designee. Note that OMB concurrence also is required for deviations from two parts of the DoDGARs, 32 CFR parts 32 and 33, in accordance with 32 CFR 32.4 and 33.6, respectively.

(c) Copies of justifications and agency approvals for individual deviations and written requests for class deviations shall be submitted to: Deputy Director, Defense Research and Engineering, ATTN: Research, 3080 Defense Pentagon, Washington DC 20301-3080.

(d) Copies of requests and approvals for individual and class deviations shall be maintained in award files.

§ 21.130 Definitions.

Acquisition. The acquiring (by purchase, lease, or barter) of property or services for the direct benefit or use of the United States Government (see more detailed definition at 48 CFR 2.101). In accordance with 31 U.S.C. 6303, procurement contracts are the appropriate legal instruments for acquiring such property or services.

Assistance. The transfer of a thing of value to a recipient to carry out a public purpose of support or stimulation authorized by a law of the United States (see 31 U.S.C. 6101(3)). Grants and cooperative agreements are examples of legal instruments used to provide assistance.

Contract. See the definition for procurement contract in this section.

Contracting activity. An activity to which the Head of a DoD Component has delegated broad authority regarding acquisition functions, pursuant to 48 CFR 1.601.

Contracting officer. A person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings. A more detailed definition of the term appears at 48 CFR 2.101.

Cooperative agreement. A legal instrument which, consistent with 31 U.S.C. 6305, is used to enter into the same kind of relationship as a grant (see definition “grant”), except that substantial involvement is expected between the Department of Defense and the recipient when carrying out the activity contemplated by the cooperative agreement. The term does not include “cooperative research and development agreements” as defined in 15 U.S.C. 3710a.

Deviation. The issuance or use of a policy or procedure that is inconsistent with the DoDGARs.

DoD Components. The Office of the Secretary of Defense, the Military Departments, the Defense Agencies, and DoD Field Activities.

Grant. A legal instrument which, consistent with 31 U.S.C. 6304, is used to enter into a relationship:

(1) The principal purpose of which is to transfer a thing of value to the recipient to carry out a public purpose of support or stimulation authorized by a law of the United States, rather than to acquire property or services for the Department of Defense's direct benefit or use.

(2) In which substantial involvement is not expected between the Department of Defense and the recipient when carrying out the activity contemplated by the grant.

Grants officer. An official with the authority to enter into, administer, and/or terminate grants or cooperative agreements.

Nonprocurement instrument. A legal instrument other than a procurement contract. Examples include instruments of financial assistance, such as grants or cooperative agreements, and those of technical assistance, which provide services in lieu of money.

Procurement contract. A legal instrument which, consistent with 31 U.S.C. 6303, reflects a relationship between the Federal Government and a State, a local government, or other recipient when the principal purpose of the instrument is to acquire property or services for the direct benefit or use of the Federal Government. See the more detailed definition for contract at 48 CFR 2.101.

Recipient. An organization or other entity receiving a grant or cooperative agreement from a DoD Component.

Subpart B—Authorities and Responsibilities

§ 21.200 Purpose.

This subpart describes the sources and flow of authority to use grants and cooperative agreements, and assigns the broad responsibilities associated with DoD Components' use of such instruments.

§ 21.205 DoD Components' authorities.

(a) In accordance with 31 U.S.C. 6301 *et seq.*, DoD Components shall use grants and cooperative agreements as legal instruments reflecting assistance relationships between the United States Government and recipients.

(b) Unlike the use of a procurement contract (for which Federal agencies have inherent, Constitutional authority), use of a grant or cooperative agreement to carry out a program requires authorizing legislation, the intent of which supports the use of an assistance instrument (e.g., the intent of the legislation authorizing a program supports a judgment that the principal purpose of the program is assistance, rather than acquisition). DoD Components may award grants and cooperative agreements under a number of statutory authorities that fall into three categories:

(1) *Authorities that statutes provide to the Secretary of Defense.* These authorities generally are delegated by the Secretary of Defense to Heads of DoD Components, usually through DoD directives, instructions, or policy memoranda that are not part of the Defense Grant and Agreement Regulatory System. Examples of statutory authorities in this category are:

(i) Authority under 10 U.S.C. 2391 to make grants or conclude cooperative agreements to assist State and local governments in planning and carrying out community adjustments and economic diversification required by changes in military installations or in DoD contracts or spending that may have a direct and significant adverse consequence on the affected community.

(ii) Authority under 10 U.S.C. 2413 to enter into cooperative agreements with entities that furnish procurement technical assistance to businesses.

(2) *Authorities that statutes may provide directly to Heads of DoD Components.* When a statute authorizes the head of a DoD Component to use a grant or cooperative agreement or to carry out a program with a principal purpose of assistance, use of that authority requires no delegation by the Secretary of Defense. For example, 10 U.S.C. 2358 authorizes the Secretaries
