

## Office of the Secretary of Defense

## § 264.3

264.3 Background.

264.4 Policy.

264.5 Claims for compensation.

AUTHORITY: Secs. 601, 606, 75 Stat. 438, 440; 22 U.S.C. 2351, 2356.

SOURCE: 25 FR 14456, Dec. 31, 1960, unless otherwise noted.

### § 264.1 Purpose and cancellation.

The purpose of this part is to restate Department of Defense policy concerning the international interchange for defense purposes of patent rights and technical information. DoD Directive 2000.3, "Technical Property Interchange Agreements", dated April 15, 1954, is hereby superseded and cancelled. Delegation published at 19 FR 2523 is cancelled.

### § 264.2 Scope.

This part applies to the activities of all Department of Defense personnel involved in the international interchange for defense purposes of patent rights and technical information. The policy prescribed herein applies to unclassified as well as classified information, owned by the United States Government or privately owned, but does not apply to patents, patent applications, and technical information in the field of atomic energy.

### § 264.3 Background.

(a) Pursuant to the provisions of the Mutual Security Act of 1954, as amended, and of predecessor legislation superseded by that Act, the United States has entered into agreements for the Interchange of Patent Rights and Technical Information for Defense Purposes with Australia, Belgium, Denmark, France, the Federal Republic of Germany, Greece, Italy, Japan, The Netherlands, Norway, Portugal, Spain, Turkey, and the United Kingdom. The agreements, which are published in the Treaties and Other International Act Series, are basically similar in substance but are not identical. Under the agreements:

(1) Each government undertakes to facilitate the interchange of privately owned patent rights and of technical information through the medium of commercial relationships, to the extent permitted by the laws and secu-

rity requirements of the contracting governments.

(2) When technical information is supplied by one government to the other for information only, the recipient government undertakes to treat the information as disclosed in confidence and to use its best endeavors to ensure that the information is not dealt with in any manner likely to prejudice the rights of the owner to obtain patent or similar statutory protection.

(3) When technical information supplied by one government to the other discloses an invention which is the subject of a patent or patent application held in secrecy in the country of origin, the recipient government undertakes to accord similar treatment to a corresponding patent application filed in that country.

(4) When privately owned technical information is released by one government to the other and the recipient government uses or discloses the information, the owner shall, subject to the extent that the owner may be entitled thereto under the applicable law and subject to arrangements between the contracting governments regarding the assumption as between them of liability for compensation, receive prompt, just and effective compensation for such use and for any damages resulting from such use or disclosure.

(5) Each government is entitled to use for defense purposes without cost any invention which the other government (including government corporations) owns or to which it has the right to grant a license to use, except to the extent that there may be liability to any private owner of an interest in the invention.

(b) Each of these agreements establishes a Technical Property Committee consisting of a representative of each contracting government, whose function it is to consider and make recommendations to the contracting governments on all matters relating to the subject of the agreement and to assist where appropriate in the negotiation of commercial or other agreements for the use of patent rights and technical information in the military assistance program.
