(6) A muffler or a silencer for any firearm whether or not such firearm is included within this definition. The term shall not include an antique firearm or any device (other than a machine gun) which, although designed as a weapon, by reason of the date of its manufacture, value, design, and other characteristics is primarily a collector's item and is not likely to be used as a weapon. For purpose of this definition, the length of the barrel on a shot-

gun or rifle shall be determined by measuring the distance between the muzzle and the face of the bolt, breech, or breechlock when closed and when the shotgun or rifle is cocked. The overall length of a weapon made from a shotgun or rifle is the distance between the extreme ends of the weapon measured along a line parallel to the center line of the bore.

the cocking of the hammer or movement of the trigger rotates it and brings the next cartridge in line with the barrel for firing.

(k) *Rifle*. A weapon designed or redesigned, made or remade, and intended to be fired from the shoulder. Also, designed or redesigned and made or remade to use the energy of the explosive in a fixed cartridge to fire only a single projectile through a rifled bore for each single pull of the trigger, and shall include any such weapon which may be readily restored to fire a fixed cartridge.

(l) *Shotgun*. A weapon designed or redesigned, made or remade, and intended to be fired from the shoulder; and designed or redesigned, made or remade, to use the energy or the explosive in a fixed shotgun shell to fire through a smooth bore either a number of projecting (ball shot) or a single projectile for each single pull of the trigger and shall include any such weapon which may be readily restored to fire a fixed shotgun shell.

(m) *Silencer*. Any device for silencing, muffling, or diminishing the report of a portable firearm, including any combination of parts, designed or redesigned, and intended for the use in assembling or fabricating a firearm silencer or firearm muffler, and any part intended only for use in such assembly or fabrication.
