

traffic accident review board. The board will consist of law enforcement, engineer, safety, medical, and legal personnel. The board will determine principal factors leading to the accident and recommend measures to reduce the number and severity of accidents on and off the installation. (The Air Force will use Traffic Safety Coordinating Groups. The Navy will use Traffic Safety Councils per OPNAVINST 5100.12D.)

(d) Data will be shared with the installation legal, engineer, safety, and transportation officers. The data will be used to inform and educate drivers and to conduct traffic engineering studies.

(e) Army traffic accident investigation reports will be provided to Army Centralized Accident Investigation of Ground Accidents (CAIG) boards on request. The CAIG boards are under the control of the Commander, U.S. Army Safety Center, Fort Rucker, Alabama 36362-5363. These boards investigate Class A, on-duty, non-POV accidents and other selected accidents Army-wide. (See AR 385-40.) Local commanders provide additional board members as required to complete a timely and accurate investigation. Normally, additional board members are senior equipment operators, maintenance officer, and medical officers. However, specific qualifications of the additional board members may be dictated by the nature of the accident.

(f) The CAIG program is not intended to interfere with, impede, or delay law enforcement agencies in the execution of regulatory responsibilities that apply to the investigation of accidents for a determination of criminal intent or criminal acts. Criminal investigations have priority.

(g) Army law enforcement agencies will maintain close liaison and cooperation with CAIG boards. Such cooperation, particularly with respect to interviews of victims and witnesses and in collection and preservation of physical evidence, should support both the CAIG and law enforcement collateral investigations.

#### § 634.31 Parking.

(a) The most efficient use of existing on- and off-street parking space would

be stressed on a nonreserved (first-come, first-served) basis.

(b) Reserved parking facilities should be designated as parking by permit or numerically by category of eligible parkers. Designation of parking spaces by name, grade, rank, or title should be avoided.

(c) Illegal parking contributes to congestion and slows traffic flow on an installation. Strong enforcement of parking restrictions results in better use of available parking facilities and eliminates conditions causing traffic accidents.

(d) The "Denver boot" device is authorized for use as a technique to assist in the enforcement of parking violations where immobilization of the POV is necessary for safety. Under no circumstances should the device be used to punish or "teach a lesson" to violators. Booting should not be used if other reasonably effective but less restrictive means of enforcement (such as warnings, ticketing, reprimands, revocations, or suspensions of on-post driving privileges) are available. Procedures for booting must be developed as listed below.

(1) Local standing operating procedures (SOPs) must be developed to control the discretion of enforcers and limit booting to specific offenses. SOPs should focus on specific reasons for booting, such as immobilization of unsafe, uninspected, or unregistered vehicles or compelling the presence of repeat offenders. All parking violations must be clearly outlined in the installation traffic code.

(2) Drivers should be placed on notice that particular violations or multiple violations may result in booting. Also, drivers must be provided with a prompt hearing and an opportunity to obtain the release of their property.

(3) To limit liability, drivers must be warned when a boot is attached to their vehicle and instructed how to have the boot removed without damaging the vehicle.

#### § 634.32 Traffic violation reports.

(a) Most traffic violations occurring on DOD installations (within the UNITED STATES or its territories) should be referred to the proper U.S. Magistrate. (Army, see AR 190-29; DLA,

## Department of the Army, DoD

## § 634.33

see DLAR 5720.4; and Air Force, see AFR 110-15.) However, violations are not referred when—

(1) The operator is driving a Government vehicle at the time of the violation.

(2) A Federal Magistrate is either not available or lacks jurisdiction to hear the matter because the violation occurred in an area where the Federal Government has only proprietary legislative jurisdiction.

(3) Mission requirements make referral of offenders impractical.

(4) A U.S. Magistrate is available but the accused refuses to consent to the jurisdiction of the court and the U.S. Attorney refuses to process the case before a U.S. District Court.

(b) Installation commanders will establish administrative procedures for processing traffic violations.

(1) All traffic violators on military installations will be issued either a DD Form 1408 (Armed Forces Traffic Ticket) or a DD Form 1805 (United States District Court Violation Notice), as appropriate. Unless specified otherwise by separate Service/DLA policy, only on-duty law enforcement personnel (including game wardens) designated by the installation law enforcement officer may issue these forms.

(2) A copy of all violation reports on military personnel and DOD civilian employees apprehended for intoxicated driving will be forwarded to the installation alcohol and drug abuse facility.

(c) Installation commanders will establish procedures used for disposing of traffic violation cases through administrative or judicial action consistent with the Uniform Code of Military Justice (UCMJ) and Federal law.

(d) DD Form 1805 will be used to refer violations of State traffic laws made applicable to the installation (Assimilative Crimes Act (18 U.S.C. 13) and app C and other violations of Federal law) to the U.S. Magistrate. (Army users, see AR 190-29.)

(1) A copy of DD Form 1805 and any traffic violation reports on military personnel and DOD civilian employees will be forwarded to the commander or supervisor of the violator.

(2) Detailed instructions for properly completing DD Form 1805 and con-

tained in separate Service policy directives.

(3) The assimilation of State traffic laws as Federal offenses should be identified by a specific State code reference in the CODE SECTION block of the DD Form 1805 (or in a complaint filed with the U.S. Magistrate).

(4) The Statement of Probable Cause on the DD Form 1805 will be used according to local staff judge advocate and U.S. Magistrate court policy. The Statement of Probable Cause is required by the Federal misdemeanor rules to support the issuance of a summons or arrest warrant.

(5) For cases referred to U.S. Magistrates, normal distribution of DD Form 1805 will be as follows:

(i) The installation law enforcement official will forward copy 1 (white) and copy 2 (yellow) to the U.S. District Court (Central Violation Bureau).

(ii) The installation law enforcement office will file copy 3 (pink).

(iii) Law enforcement personnel will provide copy 4 (envelope) to the violator.

(e) When DD Form 1408 is used, one copy (including written warnings) will be forwarded through command channels to the service members's commander, to the commander of the military family member's sponsor, or to the civilian's supervisor or employer as the installation commander may establish.

(1) Previous traffic violations committed by the offender and points assessed may be shown.

(2) For violations that require a report of action taken, the DD Form 1408 will be returned to the office of record through the reviewing authority as the installation commander may establish.

(3) When the report is received by the office of record, that office will enter the action on the violator's driving record.

### SECTION III—STANDARDS AND PROCEDURES FOR PROCESSING DRUNK DRIVERS

#### §634.33 Training of law enforcement personnel.

(a) As a minimum, installation law enforcement personnel will be trained to do the following:
