

percent of the fair market value of the premises at the date of the lease, a Certificate of Necessity is required.

(3) A Certificate of Necessity is not required for the cost of installing equipment, apparatus, appliances, machinery, fixtures, movable partitions, etc., which are not intended to become an integral part of the building and which may be removed without injuring or defacing the item or the building. Such property is considered to be the property of the Government. The lease or a supplement thereto should provide for the installation and removal of such equipment, etc.

(4) Under the limitations in 40 U.S.C. 278a, not more than 25 percent of the net rental for the original lease period, if less than one year, may be expended before a lease is actually renewed. If the whole period, including renewals, is less than a year, not more than 25 percent of the rent for such whole period may be expended for alterations, repairs, and improvements (20 Comp. Gen. 30; 29 Comp. Gen. 299). Where a lease, entered into by the Government for an original term of less than a year, is renewed for the following fiscal year, the net rental for the first year of the rental term, as distinguished from the original term, is for consideration in the computation of the amount that may be paid under the 25 percent limitation, after the lease is actually renewed.

(i) *Items Not Within the Purview of the Economy Act.* (1) The limitations in 40 U.S.C. 278a are not applicable to leases of unimproved land (38 Comp. Gen. 143).

(2) Where fixtures, alterations, and improvements are of such characters to be of a temporary nature, and are not permanently attached to the realty so as to prevent removal thereof without destroying their usefulness or damaging them or the realty, they do not constitute alterations or improvements of the leased premises within the meaning of 40 U.S.C. 278a and therefore do not fall within the 25 percent limitation of that Act. Title to such temporary fixtures, alterations, and improvements remains in the Government (18 Comp. Gen. 144; 20 Comp. Gen. 105).

(3) Upon termination of leases, restoration of leased premises to the

original condition is not considered an alteration within the purview of 40 U.S.C. 278a.

(4) When the Government is required by the terms of the lease to maintain the leased premises, such maintenance, together with the cost of such improvements and alterations as may be made by the Government, may not exceed the 25 percent restriction of the Act.

(5) Leaseholds acquired through condemnation proceedings are excluded from the purview of the Act of 30 June 1932, as amended (40 U.S.C. 278a).

(j) *Architectural Barriers Act.* The Architectural Barriers Act of 1968 (Pub. L. 90-480), 82 Stat. 718, 142 U.S.C. 4151, *et seq.*, as amended, requires that when Federal funding is used in the design, construction, or alteration of certain buildings or facilities, the buildings or facilities must be designed, constructed or altered to insure that physically handicapped persons will have ready access to, and use of, such buildings. In the Corps' leasing program, when Federal funds are used to make improvements to leased premises, it is necessary that the plans and specifications for the construction or alteration work be approved in accordance with guidelines published by the American National Standards Institute (ANSI), as implemented by DOD Construction Criteria Manual 4270.1-M, Section 5-1.6.

#### § 644.142 Lease forms and instructions.

ENG Form 856 will be used for Corps of Engineers leases in the United States and possessions, and overseas, for the leasing of unimproved land. ENG Form 527 is recommended for leases of improved property in overseas areas. Standard Forms 2, 2A, or 2B (short form) will be used for all Corps of Engineers leases of improved property in the United States and possessions. Standard Form 2B is limited to rentals not exceeding \$3,600 per annum. The General Provisions are on the reverse side of the short form lease.

(a) *Mandatory Clauses.* The following clauses must be included in all Corps of Engineers leases:

(1) Officials Not to Benefit clause (para 15 of ENG Form 527) is required by 18 U.S.C. 431.

(2) Gratuities clause (para 16a of ENG Form 527) is required by 5 U.S.C. 174d.

§ 644.155

(3) Covenant against Contingent Fees (para 14, ENG Form 527) is required by 10 U.S.C. 2306(b).

(4) An Examination of Records clause (para 17, ENG Form 527) is required by 10 U.S.C. 2313(b). Exceptions to the use of this clause in 10 U.S.C. 2313(c) are permitted when the contractor is a foreign Government or agency thereof, or when the laws of the country involved preclude it. Also, if the Head of the Agency determines, with the concurrence of the Comptroller General, that the use of the clause would not be in the public interest, it may be omitted in leases covering land in foreign countries.

(5) The Nondiscrimination clause (Executive Order 11063, dated 20 November 1962) is required in all leases in the United States. It is desirable, but is not considered mandatory in overseas leases.

(b) *Hold Harmless Clauses.* "Hold harmless" clause will not normally be added to the lease forms. Where lessors insist upon such a clause, however, the following is suggested for use: "The Lessors (licensors) shall not be responsible or liable for injuries to persons or damage to property when such injuries or damage are caused by or result from the Government's use of the premises under the terms of this agreement and are not due to the negligence of the Lessors."

(c) *Escalator Clauses.* In those cases where a lessor expresses an unwillingness to enter into a lease, extending for a number of years, with a rental consideration that includes a fixed amount for utilities, the following clause may be inserted in the standard lease:

After the first term of the lease, the Lessor or the Government may, by giving notice at lease 90 days prior to the anniversary date of the lease, request an adjustment in rental payments based on an increase or decrease in the cost of utilities. The request must be supported with full justification to include documentary evidence of actual utility costs incurred by the Lessor which are in excess of the amounts estimated at the beginning of the lease term. The requested adjustment in rent will be subject to negotiation, and if granted, will be provided by a Supplemental Agreement to this lease.

32 CFR Ch. V (7-1-99 Edition)

ACQUISITION OF RIGHTS-OF-ENTRY

SOURCE: Sections 644.155 through 644.157 appear at 44 FR 31125, May 30, 1979, unless otherwise noted.

**§ 644.155 General.**

Sections 644.155 through 644.157 describe the procedures of the Corps of Engineers relative to obtaining rights-of-entry on lands for both military and civil works projects and in the Corps' acquisition programs for other Federal Government agencies. These procedures are applicable to all Division and district Engineers having real estate responsibilities.

**§ 644.156 Definition.**

A right-of-entry is a bare authority to do a specified act or series of acts upon non-Government-owned property or non-Government-controlled property without acquiring any estate or interest therein. The principal effect of a right-of-entry is to authorize an act which, in the absence of the right-of-entry, would constitute a trespass. The written instrument furnishes evidence of the permission granted to the government and the obligations, responsibilities, and liabilities assumed by the Government. It does not authorize any uses of the property by the Government other than those specified in the instrument.

**§ 644.157 Procedures.**

(a) ENG Form 1258, Right-of-Entry for Survey and Exploration, will be used to obtain authority from the owner of lands to be used for the purpose of making surveys, test borings, and other exploratory work as may be necessary to complete the particular investigation.

(b) ENG Form 2803, Right-of-Entry for Construction, will be used to obtain authority from the owner of lands to be used for construction purposes when all of the following conditions apply:

(1) A Real Estate Directive has been issued on an Army (military) or Air Force project, or the Chief of Engineers has approved acquisition in connection with a civil works project or for another Government agency.

(2) The construction schedule does not allow sufficient time to secure the
