

§644.387 Suspension of acquisition action on installations proposed for disposal.

When a fee-owned installation is recommended for excess by the installation commander, or a preliminary or final real estate disposal directive is issued by the Air Force, any pending acquisition in connection with the installation will be suspended, unless the directive provides otherwise. A recommended plan for curtailment of uncompleted acquisition will be submitted to HQDA (DAEN-REA-L) WASH DC 20314. The plan will include the following information: Identification by tract numbers, names of owners, and area of each tract for which an option has been accepted or a declaration of taking filed, but as to which it is considered practicable and economical to obtain cancellation of the option or a stipulation for dismissal of the condemnation proceeding and revestment of title. Specific information as to the extent and nature of demolition of improvements, new construction, or other damages or changes made by the Government to the premises, and the probable cost of restoration in case of such cancellation or stipulation, will be included. Pertinent public relations aspects should also be covered. Generally, tracts on which a declaration of taking has been filed will not be returned to the owners by stipulation for amendment or dismissal of the condemnation proceedings. Exceptions to this may be recommended when shown to be in the best of interest of the United States.

§644.388 Army military—screening, clearance, preliminary report of excess, except where an E.O. 11954 survey has been made.

Upon receipt of a copy of the installation commander's recommendation of excess, the DE will take the following actions:

(a) Immediately notify DAEN-REM by teletype, furnishing a brief statement of the real estate included in the recommendation.

(b) Promptly screen the property against Army and other defense requirements if required by and in accordance with §§644.333 through 644.339, and advise DAEN-REM of the results.

(c) As soon as the screening message is dispatched under §644.388(b), or immediately upon receipt of a disposal directive from DAEN-REM when screening is not required by §§644.333 through 644.339, DEs will prepare and forward:

(1) SF 118, Report of Excess Real Property and other documentation required in reporting the excess property to GSA.

(2) ENG Form 2187-R, Disposal Report, for clearance with DOD and the Armed Services Committees (ASC) of Congress where required in accordance with §§644.340 through 644.347. This should be forwarded to DAEN-REZ-L within three weeks of dispatch of the screening message, or receipt of the disposal directive. This schedule will allow the Chief of Engineers to process the disposal assembly through the DA and DOD secretariats and to obtain necessary clearances from the ASC. DAEN-REM will furnish the DE copies of the DOD approval and the report to the ASC. This office will also furnish copies of the ASC report to the Washington and regional offices of GSA, to permit screening with other Government agencies.

(d) DOD approval of the disposal (property having estimated value in excess of \$100,000) signifies the property is excess to Defense requirements. Upon receipt of this approval, the DE will forward a preliminary Report of Excess to GSA by transmitting necessary copies of the completed SF 118, with attachments, carefully identified as preliminary. Where screening is negative for property having an estimated value of \$100,000 or less, the property is considered excess to Defense requirements and a final report of excess should be forwarded promptly to GSA.

§644.389 Army military—modified predisposal procedures where E.O. 11954 surveys have been made.

(a) DEs will be advised of military installations to be surveyed under E.O. 11954 by a DOD or GSA survey team.

(b) If property is to be declared excess as a result of a decision by the Department of the Army, appropriate commanders and DEs will be advised. The major commander will be requested to submit a Report of Excess pursuant to AR 405-90 to HQDA

(DAEN-REM) Washington, DC 20314 within 15 days. DEs will be furnished a copy of the report.

(c) Upon receipt of advice that property will be excessed, the DE, in coordination with the installation commander concerned, will commence preparation of ENG Form 2187-R, if required, for submission to DAEN-REZ-L.

(d) When the Report of Excess is approved, DAEN-REM will advise the DE and will request that screening be initiated. The approved report will be promptly referred through channels to the DE for further appropriate action.

(e) The ENG Form 2187-R will be forwarded to DAEN-REM not later than 15 days after receipt of the approved Report of Excess.

(f) As soon as the areas to be excessed are clearly defined, action will be initiated to assemble all necessary data so that the final SF 118 may be submitted to GSA within 30 days after necessary Congressional clearance is obtained under 10 U.S.C. 2662.

(g) When the estimated value of the property does not exceed \$100,000 and preparation of an ENG Form 2187-R is not required, the DE, upon being notified of the approval of the Report of Excess, will notify DAEN-REM of the date the SF 118 will be submitted to GSA.

§ 644.390 Executive Order 11954 surveys of civil works properties.

Procedures to be followed by DEs when civil works properties are surveyed by GSA under E.O. 11954 are contained in chapter 8 of ER 405-1-12.

§ 644.391 Predisposal conference.

(a) Where a substantial Army installation, or portion thereof, is involved, the DE will convene a predisposal conference with representatives of the using command, GSA, and other interested parties. Where an Air Force installation is involved, the Major Air Command will take the initiative in convening the conference. In any cases involving flying facilities, Federal Aviation Administration representatives will be invited. The agenda of the predisposal conference should provide for:

(1) Determinations on maintenance guidelines based on probable future uses of the property with emphasis on agreements concerning responsibility for assumption of care and custody, in accordance with AR 405-90, AFR 87-4, and §§ 644.368 through 644.375.

(2) Review of the SF 118 to assure its acceptability to GSA.

(3) Review with GSA, when appropriate, of the advisability of transferring custody and maintenance responsibilities to GSA at an early date.

(4) Planning for and, to the extent possible, making definite determinations on interim utilization pending disposal by GSA.

(b) It is of utmost importance that excess installations be put to productive use as military operations are phased out. This will do much to lessen the impact of the installation's closing on the economy of the local community. For this purpose, installations, in many cases, will be reported to GSA prior to phase out of military operations. In these cases, the DE has responsibility to insure, to the extent practicable, that other productive use is phased in as military operations are phased out. This can be accomplished only by careful planning and continuous coordination by the DE with using command and GSA. The using command will plan and execute the military phase out. However, the DE will assure that the Report of Excess to GSA specifically identifies and excludes the real and personal property to be retained by the military department. This information is required by GSA for disposal purposes.

(c) A report on the predisposal conference will be forwarded to DAEN-REM. Any difficulties indicated by GSA will be summarized in the report, along with any other problems encountered or foreseen.

(d) When requested, and on an individual project basis, the DE will prepare a real estate disposal study concerning the transfer of custody and maintenance responsibilities to GSA prior to final disposal. This study will be developed in conjunction with appropriate using command and GSA representatives. Its purpose will be to determine whether the transfer of the excess property to GSA would be more
