

(DAEN-REM) Washington, DC 20314 within 15 days. DEs will be furnished a copy of the report.

(c) Upon receipt of advice that property will be excessed, the DE, in coordination with the installation commander concerned, will commence preparation of ENG Form 2187-R, if required, for submission to DAEN-REZ-L.

(d) When the Report of Excess is approved, DAEN-REM will advise the DE and will request that screening be initiated. The approved report will be promptly referred through channels to the DE for further appropriate action.

(e) The ENG Form 2187-R will be forwarded to DAEN-REM not later than 15 days after receipt of the approved Report of Excess.

(f) As soon as the areas to be excessed are clearly defined, action will be initiated to assemble all necessary data so that the final SF 118 may be submitted to GSA within 30 days after necessary Congressional clearance is obtained under 10 U.S.C. 2662.

(g) When the estimated value of the property does not exceed \$100,000 and preparation of an ENG Form 2187-R is not required, the DE, upon being notified of the approval of the Report of Excess, will notify DAEN-REM of the date the SF 118 will be submitted to GSA.

§ 644.390 Executive Order 11954 surveys of civil works properties.

Procedures to be followed by DEs when civil works properties are surveyed by GSA under E.O. 11954 are contained in chapter 8 of ER 405-1-12.

§ 644.391 Predisposal conference.

(a) Where a substantial Army installation, or portion thereof, is involved, the DE will convene a predisposal conference with representatives of the using command, GSA, and other interested parties. Where an Air Force installation is involved, the Major Air Command will take the initiative in convening the conference. In any cases involving flying facilities, Federal Aviation Administration representatives will be invited. The agenda of the predisposal conference should provide for:

(1) Determinations on maintenance guidelines based on probable future uses of the property with emphasis on agreements concerning responsibility for assumption of care and custody, in accordance with AR 405-90, AFR 87-4, and §§ 644.368 through 644.375.

(2) Review of the SF 118 to assure its acceptability to GSA.

(3) Review with GSA, when appropriate, of the advisability of transferring custody and maintenance responsibilities to GSA at an early date.

(4) Planning for and, to the extent possible, making definite determinations on interim utilization pending disposal by GSA.

(b) It is of utmost importance that excess installations be put to productive use as military operations are phased out. This will do much to lessen the impact of the installation's closing on the economy of the local community. For this purpose, installations, in many cases, will be reported to GSA prior to phase out of military operations. In these cases, the DE has responsibility to insure, to the extent practicable, that other productive use is phased in as military operations are phased out. This can be accomplished only by careful planning and continuous coordination by the DE with using command and GSA. The using command will plan and execute the military phase out. However, the DE will assure that the Report of Excess to GSA specifically identifies and excludes the real and personal property to be retained by the military department. This information is required by GSA for disposal purposes.

(c) A report on the predisposal conference will be forwarded to DAEN-REM. Any difficulties indicated by GSA will be summarized in the report, along with any other problems encountered or foreseen.

(d) When requested, and on an individual project basis, the DE will prepare a real estate disposal study concerning the transfer of custody and maintenance responsibilities to GSA prior to final disposal. This study will be developed in conjunction with appropriate using command and GSA representatives. Its purpose will be to determine whether the transfer of the excess property to GSA would be more
