

§ 650.215

dispersing, reclaiming and removing oil and hazardous substances used in bulk quantity on an installation. Identification of chemicals (whose technical product data has been provided to and accepted by EPA) that may be used to concentrate, neutralize, collect, disperse and remove oil or hazardous substances discharges. Pollution control actions taken will be in accordance with applicable Federal, State, or local standards, EPA guidelines, and the current National Oil and Hazardous Substances Pollution Contingency Plan.

(i) Reporting procedures as required by §§ 650.215 and 650.216 in the event of an oil or hazardous substance discharge by Army activities.

(j) Army resources useful to the RRT in the event Army agencies are tasked to aid in the cleanup of a non-Army caused spill. Specific procedures to facilitate recovery of costs encountered during cleanup of non-Army spills are given in AR 500-60.

REPORTS OF ARMY ACCIDENTAL OIL AND HAZARDOUS SUBSTANCES DISCHARGES

§ 650.215 General.

In the event of any spill, responsive actions will be taken to prevent oil and hazardous substances from entering any navigable waters or water supplies. All personnel assigned or employed by the Department of the Army will promptly report any observed oil spill, significant discharges of hazardous and toxic substances, or evidence of a spill by discovery of a slick or sheen on water from oil, gasoline, jet fuel, or other hazardous polluting substance. Spill events will be reported immediately by telephonic means to the EPA Regional Office, U.S. Coast Guard District Office or National Response Center (800) 424-8802. On-post spill events not entering navigable waters are to be reported promptly and completely, but EPA or USCG may not require further reporting in accordance with § 650.216. Off-post incidents will be reported as above and to the nearest or appropriate political jurisdiction and to the RRT at the RRC.

32 CFR Ch. V (7-1-99 Edition)

§ 650.216 Pollution Incident Report (RCS EPA 1001).

(a) Medium and major spills (§ 650.203) and any discharge of more than 1,000 U.S. gallons of oil or a spill of more than 500 U.S. gallons of other hazardous liquid substance into navigable waters on or adjacent to an Army installation in the United States will be promptly reported by the IOSC by telephonic means to (800) 424-8802, or to the nearest USCG District Office, to the EPA Regional Office, and electronically through channels to HQDA (DAEN-ZCE), Wash., DC 20310. (See Figures 9-1 and 9-2 for regions and districts.)

(1) When it has been determined by the OSC that a spill of a hazardous substance (less than 500 gallons) is in a harmful quantity or that the discharge poses a substantial threat to the public health or welfare, it will be classed as a medium or major discharge and a Pollution Incident Report will be submitted.

(2) The format for the Pollution Incident Report is given in table 9-2.

(3) Telephonic or electronic reports will be confirmed by a follow-up written message within 30 days after the spill to the EPA Regional Administrator, the NRT or RRT, as appropriate, and to DAEN-ZCE.

(b) When more than 1,000 U.S. gallons of oil (medium and major spills) or more than 500 U.S. gallons of a hazardous liquid substance (or any major discharge of a hazardous substance) have been discharged into or upon a navigable water in a single spill or when two spill events occur within any 12-month period, this written follow-up report will contain (in addition to the items in table 9-2) the following:

(1) Description of facility from which spill originated (including maps, flow diagrams, and topographic maps); date facility was put into operation; storage or handling capacity; and normal daily/weekly through-put.

(2) Cause of spill, including a failure analysis of system or subsystem in which the failure occurred. Describe unique problems encountered.

(3) Post spill corrective actions, including resources committed, attempts
