Subpart C—Base Entry Regulations for Naval Installations in the State of Hawaii

AUTHORITY: 50 U.S.C. 797; DoD Dir. 5200.8 of Aug. 20, 1954; 5 U.S.C. 301; 10 U.S.C. 6011; 32 CFR 700.702, 770.714.

SOURCE: 44 FR 76279, Dec. 26, 1979, unless otherwise noted.

§ 770.25 Purpose.

The purpose of this subpart is to promulgate regulations governing entry to naval installations in the State of Hawaii.

§ 770.26 Definitions.

For the purpose of this subpart the following definitions apply:

(a) *Naval installations.* A naval installation is a shore activity and is any area of land, whether or not fenced or covered by water, that is administered by the Department of the Navy or by any subordinate naval command. The term "naval installation" applies to all such areas regardless of whether the areas are being used for purely military purposes, for housing, for support purposes, or for any other purpose by a naval command. Section 770.31 contains a list of the major naval installations in Hawaii. This list is not considered to be all inclusive and is included only as a representative guide. For the purposes of this subpart the area of water within Pearl Harbor is considered to be within a naval installation.

(b) *Outleased areas.* Certain portions of naval installations in Hawaii which are not for the time needed for public use or for which a dual use is feasible have been outleased to private interests. Examples of such outleased areas are the Moanalua Shopping Center and lands such as Waipio Peninsula, which

has been outleased for agricultural purposes. For the purpose of this Subpart, outleased areas which are not within fenced portions of naval installations are not considered to be a part of naval installations. Rules for entry onto the outleased areas are made by the lessees, except in the case of Waipio Peninsula where the lessee (Oahu Sugar Company) is not authorized to allow anyone to enter Waipio Peninsula for any purpose not connected with sugar cane production.

§ 770.27 Background.

(a) Naval installations in Hawaii constitute a significant element of the national defense establishment. It is vital to the national defense that the use of such areas be at all times under the positive control of the Department of the Navy. Strict control must be exercised over access to naval installations in order to preclude damage accidental and intentional to Government property, injury to military personnel, and interference in the orderly accomplishment of the mission of command.

(b) There are several industrial areas within naval installations in Hawaii wherein construction activities and the use of heavy machinery pose grave risk of danger to visitors.

(c) Various types of flammable or incendiary materials and ordnance are stored at a number of locations within naval installations in Hawaii.

(d) Classified documents and equipment requiring protection from unauthorized disclosure by Executive order 12065 for reasons of national security are located at various locations within naval installations in Hawaii.

(e) In order to effect the positive control of the Navy over its installations in Hawaii, it is essential that entry onto those installations be restricted to authorized persons only.

(f) These entry regulations are being promulgated under the authority of Commander, Naval Base, Pearl Harbor, who has been assigned as immediate area coordinator for all naval installations in the State of Hawaii by Commander-in-Chief, U.S. Pacific Fleet.

§ 770.28 Entry restrictions.

Each commander is responsible for the security of his/her command.

Therefore, entry onto a command or into part of a command may be controlled by the commander through the imposition of such restrictions as may be required by attendant circumstances. Within the State of Hawaii, entry into a naval installation is not permitted without the permission of the responsible commander.

§ 770.29 Entry procedures.

(a) Operational, security, and safety considerations take priority over requests by individuals to visit a naval installation. Consistent with such considerations, visits by members of the general public may be authorized at the discretion of the commander. The commitment of resources which would be required to safeguard the persons and property of visitors as well as military property and personnel must of necessity preclude or severely restrict such visiting. The purpose and duration of the visit and the size of the party and areas to be visited are other considerations which may affect the commander's decision whether to permit visiting by members of the public.

(b) Any person or group desiring to enter a particular naval installation or portion thereof, shall submit a written request to the commander of the installation well enough in advance to allow a reasonable time for reply by mail. Mailing addresses for commanders of major installations covered by this subpart are listed in § 770.31. Full compliance with a naval installation's local visitor registration and entry control procedures shall be deemed the equivalent of obtaining the advance consent of the commander for entrance upon the installation for the purpose of this subpart. Authorization to enter one naval installation or a portion of one installation does not necessarily include the authorization to enter any other naval installation or all portions of an installation.

§ 770.30 Violations.

(a) Any person entering or remaining on a naval installation in the State of Hawaii, without consent of the commander or his authorized representative, shall be subject to the penalties of
