

§ 119.225

35 CFR Ch. I (7–1–98 Edition)

(b) Have satisfactorily completed an approved Panama Canal Commission training program for chief engineer of steam vessels of at least four years' duration and have completed at least 260 eight-hour watches in the engine room of a Panama Canal Commission steam vessel under the supervision of a licensed engineer.

(c) While holding a license as assistant engineer of motor vessels, have served at least 130 eight-hour watches as observer-assistant engineer on steam vessels.

[43 FR 13382, Mar. 30, 1978, as amended at 46 FR 63192, Dec. 30, 1981]

§ 119.225 Assistant engineer, motor vessels; experience required.

In order to be eligible for examination the license of assistant engineer of motor vessels, an applicant therefor must—

(a)(1) Have graduated from either the Panama Nautical School's program for engineer officers, from a maritime academy in the United States recognized by the U.S. Coast Guard for licensing purposes or from another maritime academy located outside the United States which is determined by the Maritime Operations Director to have standards substantially equal to the U.S. Academies, and

(2) Be participating in an approved Panama Canal Commission training program for chief engineer of motor vessels; or

(b) Have satisfactorily completed an approved Panama Canal Commission training program for chief engineer of motor vessels of at least four years' duration and have completed at least 260 eight-hour watches in engine room of a Panama Canal Commission motor vessel under the supervision of a licensed engineer; or

(c) While holding a license as assistant engineer of steam vessels, have served at least 130 eight-hour watches as observer-assistant engineer on motor vessels.

§ 119.226 Assistant engineer (watch standing), motor vessel; experience required.

In order to be eligible for examination for the license of Assistant Engi-

neer (Watch Standing) of motor vessels, an applicant therefore must:

(a) Have graduated from the marine engineering program of a recognized maritime academy; or

(b) Have graduated from a recognized marine engineer apprentice program; or

(c) Have graduated from the professional (college-level) marine engineering program of a recognized school of technology, and have completed three months of service in the engine department of a steam and/or motor vessel under the supervision of a licensed engineer; or

(d) Have graduated from the professional (college level) mechanical or electrical engineering program of a recognized school of technology, and have completed six months of service in the engine department of a steam and/or motor vessel under the supervision of a licensed engineer; or

(e) Have three years of service in the engine room of a steam and/or motor vessel, eighteen months of which must have been as a qualified member of the engine department or equivalent supervisory position. (A qualified member of the engine department is any person below the rating of license officer and above the rating of coal passer, wiper or assistant electrician, who holds a current, valid permanent certificate of service as a qualified member of the engine department issued by the U.S. Coast Guard or a currently valid equivalent certificate of service issued by the Government of Panama. Ratings included are those of donkeyman, refrigerating engineer, oiler, deck engineer, fireman, electrician, water tender, junior engineer, machinist, pumpman, deck engine mechanic, and engineman.)

[55 FR 4837, Feb. 12, 1990, as amended at 55 FR 15229, Apr. 23, 1990]

§ 119.227 Chief and assistant engineer; steam and motor vessels.

Upon request, the Maritime Operations Director may issue (a) a single license for chief engineer of steam and motor vessels to persons holding currently valid licenses as chief engineer of steam vessels and chief engineer of motor vessels and (b) a single license for assistant engineer of steam and

Panama Canal Regulations

Pt. 121

motor vessels to persons holding currently valid licenses as assistant engineer of steam vessels and assistant engineer of motor vessels.

[43 FR 13382, Mar. 30, 1978]

PART 121—INSPECTION AND REGISTRATION OF VESSELS

Subpart A—General Provisions

Sec.

121.1 Applicability of part.

121.2 Definitions.

Subpart B—Inspection

VESSELS

- 121.41 Certificates of inspection.
- 121.42 Distribution of certificates.
- 121.43 Fee for inspection.
- 121.44 Standards in inspection of hulls.
- 121.45 Drawings of new vessels to be furnished to the Marine Safety Unit.
- 121.46 Inspection of tank vessels.
- 121.47 Inspection of hulls.
- 121.48 Sea chests, sea valves and strainers.
- 121.49 Pumping arrangements.
- 121.50 Steering arrangements.
- 121.51 Watertight bulkheads and doors.
- 121.52 Engine room signal gear.
- 121.53 Materials, construction, and repairs of boilers and machinery.
- 121.54 Preparation of boilers for inspection.
- 121.55 Tests and inspections of new boilers.
- 121.56 Tests and inspections of boilers and main steam pipes in service.
- 121.57 Inspection of mountings and attachments.
- 121.58 Safety valves.
- 121.59 Fusible plugs.
- 121.60 Water columns, test cocks, and water gages.
- 121.61 Steam gages.
- 121.62 Safety valves or relief valves on reduced pressure lines, evaporators, etc.
- 121.63 Guards in dangerous places.
- 121.64 Unfired pressure vessels.
- 121.65 Notice to the Marine Safety Unit of vessel on dock; alterations.
- 121.66 Whistles.
- 121.67 Fog bells.
- 121.68 Engine signals; voice tubes.
- 121.69 Proceeding to another port for repairs.
- 121.70 Marking of draft on vessel.
- 121.71 Emergency lighting system.
- 121.72 Repairs to firefighting and lifesaving apparatus.
- 121.73 Extra steering apparatus.
- 121.74 Repairs on boilers and unfired pressure vessels.
- 121.75 Increase in passenger allowance.
- 121.76 Inclining test.
- 121.77 Inspection of steam pipes.

- 121.78 Deep-sea sounding apparatus.
- 121.79 Carrying of excess steam.
- 121.80 Signaling lamps.
- 121.81 Steering gear tests.
- 121.82 Hatches.
- 121.83 Draft.
- 121.84 Lookouts and fire patrolmen.
- 121.85 Sanitation.
- 121.86 Fuel tanks; fuel piping.
- 121.87 Examination of boilers and machinery by engineer.
- 121.88 Fusible plug report.
- 121.89 Boiler steam hours.
- 121.90 Annual report of floating equipment on hand.
- 121.91 Inspectors not to accept statements.
- 121.92 Lifesaving apparatus.
- 121.93 Care of lifeboats.
- 121.94 Lifeboat equipment.
- 121.95 Line-throwing appliances and equipment.
- 121.96 Life preservers; number required.
- 121.97 Life preserver inspection.
- 121.98 Means of escape from vessels.
- 121.99 Fire axes.
- 121.100 Fire detecting and alarm system.
- 121.101 Steam and inert-gas fire extinguishing systems, fire pumps, outlets and hoses.
- 121.102 Portable fire extinguishers.
- 121.103 Station bills.
- 121.104 Fire alarm signals; drills.
- 121.105 Fire hazards, and fire extinguishing equipment.
- 121.106 Fire-fighting equipment on steam propelled vessels.
- 121.107 Non-self-propelled vessels; equipment.
- 121.108 Complement of officers and crew.

MOTORBOATS

- 121.131 Equipment on motorboats.
- 121.132 Motorboat filling, venting, and sounding pipes; shut-off valves.
- 121.133 Carburetor back-fire flame arrestor.
- 121.134 Ventilation of motorboats.

Subpart C—Registration and Numbering

- 121.171 Registration and numbering of motorboats.
- 121.172 Numbers to be displayed on motorboats.
- 121.173 Registration and numbering of vessels under 20 meters (65') in length not propelled by machinery.
- 121.174 Numbers to be displayed on vessels under 65 feet other than motorboats.

AUTHORITY: 22 U.S.C. 3811, E.O. 12215, 45 FR 36043, and 44 U.S.C. 3501.
