

Environmental Protection Agency

§ 35.130

(g) *Public Water System Supervision allotment* (Safe Drinking Water Act, section 1443(a)): Population, geographic area, numbers of community and non-community water systems and other relevant factors. All jurisdictions except American Samoa, Guam, the Northern Mariana Islands, the Virgin Islands or an individual eligible Indian Tribe shall be allotted at least one percent. Up to three percent of the Public Water System Supervision funds shall be reserved each year for use on Indian lands.

(h) *Underground Water Source Protection allotment* (Safe Drinking Water Act, section 1443(b)): Population, geographic area, extent of underground injection practices, and other relevant factors. Up to five percent of the Underground Water Source Protection funds shall be reserved each year for use on Indian lands.

(i) *Hazardous waste management allotment* (Solid Waste Disposal Act, as amended, section 3011): The extent to which hazardous waste is generated, transported, treated, stored, and disposed of in the State and the extent of exposure of human beings and the environment to such waste, and such other factors as the Administrator deems appropriate.

(j) *Pesticide enforcement allotment* (Federal Insecticide, Fungicide, and Rodenticide Act, section 23): The State's population, the numbers of pesticide-producing establishments and certified private and commercial applicators, and the number of farms and their acreage.

(k) *Pesticide applicator certification and training allotment* (Federal Insecticide, Fungicide, and Rodenticide Act, section 23): The number of farms and numbers of private and commercial applicators requiring certification or recertification.

[47 FR 44954, Oct. 12, 1982, as amended at 54 FR 14357, Apr. 11, 1989; 54 FR 40368, Sept. 29, 1989; 57 FR 8074, Mar. 6, 1992; 59 FR 13817, Mar. 23, 1994; 60 FR 371, Jan. 4, 1995]

§ 35.120 Planning targets.

The Regional Administrator develops planning targets to help each applicant develop a work program. A planning target is the State's reserve or is based

on the State's allotment and the Regional Administrator's evaluation of each applicant's ability to use allotted funds effectively.

§ 35.125 Program guidance.

Program guidance helps State and local agencies establish and maintain effective environmental programs which meet their particular needs and those of the national program. National program managers in Headquarters issue guidance to Regional Administrators, and Regional Administrators issue guidance to applicants.

(a) *Headquarters guidance to Regional Administrators.* Headquarters guidance is based on the President's annual budget submission to Congress and the statutory and regulatory requirements for each environmental program. The guidance contains a statement of national objectives and priorities, an explanation of the activities required of the regions, and a list of program elements and associated outputs recommended for State and local environmental programs.

(b) *Regional guidance to applicants.* Regional guidance is based on Headquarters guidance and the Regional Administrator's knowledge of environmental problems in each State in his region and evaluation of each applicant's ability to carry out the program. The guidance contains EPA's objectives and priorities, the applicant's planning target, the program elements EPA uses for budget justification and management, categories of outputs which should be part of the applicant's work program, and special conditions or limitations relevant to the applicant.

§ 35.130 Work program.

The work program is part of the application for financial assistance and is the basis for the management and evaluation of performance under the assistance award. The work program must specify the work years and amount and source of funding estimated to be needed for each program element, the outputs committed to under each program

§ 35.135

element, including any outputs required under an authorization or delegation agreement, a schedule for accomplishment of outputs, and an identification of the agency responsible for each of the elements and outputs.

§ 35.135 Budget period.

An applicant may choose its budget period in consultation with and subject to the approval of the Regional Administrator.

§ 35.140 Application for assistance.

Each applicant should submit a complete application at least 60 days before the beginning of the budget period. In addition to meeting the requirements contained in part 30, a complete application must contain a discussion of performance to date under the existing award, the proposed work program, and a list of all applicable EPA-approved State strategies, program plans, and delegation or authorization agreements with a statement certifying that the proposed work program is consistent with them.

§ 35.141 EPA action on application.

The Regional Administrator will review each completed application and should approve, conditionally approve, or disapprove it within 60 days of receipt. When funds are available, the Regional Administrator will award assistance based on an approved or conditionally approved application. For a continuation award made after the beginning of the approved budget period, EPA will reimburse the applicant for allowable costs incurred from the beginning of the budget period, provided that such costs are contained in the approved application and that the application was submitted before the expiration of the prior budget period.

(a) *Approval.* The Regional Administrator will approve the application only if it satisfies the terms, conditions, and limitations of this subpart, 40 CFR part 30, and relevant statutes and program regulations; if the proposed outputs are consistent with EPA guidance or otherwise demonstrated to be necessary and appropriate; and if achievement of the proposed outputs is feasible, considering the applicant's existing problems, past performance, pro-

gram authority, organization, resources, and procedures.

(b) *Conditional approval.* The Regional Administrator may conditionally approve the application, after consulting with the applicant, if only minor changes are required. The Regional Administrator will include in the award the conditions which the applicant must meet to secure final approval and the date by which those conditions must be met.

(c) *Disapproval.* If the application cannot be approved or conditionally approved, the Regional Administrator will negotiate with the applicant to change the output commitments, to reduce the assistance amount, or to make any other changes necessary for approval. If negotiation fails, the Regional Administrator will disapprove the application in writing.

§ 35.143 Assistance amount.

(a) *Determining the assistance amount.* In determining the amount of assistance to an applicant, the Regional Administrator will consider the State's planning target, the extent to which the applicant's work program is consistent with EPA guidance, and the anticipated cost of the applicant's program relative to the proposed outputs.

(b) *Reduction of assistance amount.* If the Regional Administrator's evaluation of the applicant's work program indicates that the proposed outputs do not justify the level of funding requested, the Regional Administrator will reduce the assistance amount. If the evaluation indicates that the proposed outputs are not consistent with the priorities contained in EPA guidance, the Regional Administrator may reduce the assistance amount.

§ 35.145 Consolidated assistance.

Any applicant eligible to receive and administer funds from more than one assistance program may submit an application for consolidated assistance, following the process described in § 35.140. For consolidated assistance, the applicant prepares a single budget and work program covering all programs included in the application. The consolidated budget must identify each assistance program's funds. The consolidated work program must identify
