§ 52.1222 EPA-approved Minnesota State regulations.

The following table identifies the State regulations submitted to and approved by EPA as revisions to the Minnesota State Implementation Plan (SIP). This table is for informational purposes only and does not have any

independent regulatory effect. This table also does not include administrative orders that have been approved into the SIP. To determine regulatory requirements for a specific situation consult the plan identified in § 52.1220. To the extent that this table conflicts with § 52.1220, § 52.1220 governs.

(b) *Regulation for public availability of emission data.* (1) Any person who cannot obtain emission data from the Agency responsible for making emission data available to the public, as specified in the applicable plan, concerning emissions from any source subject to emission limitations which are part of the approved plan may request that the appropriate Regional Administrator obtain and make public such data. Within 30 days after receipt of any such written request, the Regional Administrator shall require the owner or operator of any such source to sub-

(2) Commencing after the initial notification by the Regional Administrator pursuant to paragraph (b)(1) of this section, the owner or operator of the source shall maintain records of the nature and amounts of emissions from such source and any other information as may be deemed necessary by the Regional Administrator to determine whether such source is in compliance with applicable emission limitations or other control measures that are part of the plan. The information recorded shall be summarized and reported to the Regional Administrator, on forms furnished by the Regional Administrator, and shall be submitted within 45 days after the end of the reporting period. Reporting periods are January 1 to July 30 and July 1 to December 31.
