§ 52.1972 Approval status.

With the exceptions set forth in this subpart, the Administrator approves Oregon's plan for the attainment and maintenance of the national standards under section 110 of the Clean Air Act. Furthermore, the Administrator finds that the carbon monoxide and ozone attainment plans satisfy all requirements of part D, title 1, of the Clean Air Act as amended in 1977, except as noted in the following sections. In addition, continued satisfaction of part D requirements for the ozone portion of the SIP depends on the adoption and submittal of RACT requirements by July 1, 1980, for the sources covered by CTGs issued between January 1978 and January 1979. Additional RACT requirements must be submitted by each subsequent January for sources covered by CTGs issued by the previous January. Further, new source review permits issued pursuant to section 173 of the Clean Air Act will not be deemed valid by EPA unless the provisions of Section V of the emission offset interpretive rule published on January 16, 1979 (44 FR 3274) are met.
