

§ 6.402

day and 30-day review periods for draft and final EISs, respectively, are computed from the Friday following a given reporting week. Pursuant to 40 CFR 1506.9, responsible officials shall comply with the guidelines established by OEA on the conduct of the filing system.

(b) *Minimum time periods.* No decision on EPA actions shall be made until the later of the following dates:

(1) Ninety (90) days after the date established in § 6.401(a) of this part from which the draft EIS review time period is computed.

(2) Thirty (30) days after the date established in § 6.401(a) of this part from which the final EIS review time period is computed.

(c) *Filing of EISs.* All EISs, including supplements, must be officially filed with OEA. Responsible officials shall transmit each EIS in five (5) copies to the Director, Office of Environmental Review, EIS Filing Section (A-104). OEA will provide CEQ with one copy of each EIS filed. No EIS will be officially filed by OER unless the EIS has been made available to the public. OEA will not accept unbound copies of EISs for filing.

(d) *Extensions or waivers.* The responsible official may independently extend review periods. In such cases, the responsible official shall notify OEA as soon as possible so that adequate notice may be published in the weekly FEDERAL REGISTER report. OEA upon a showing of compelling reasons of national policy may reduce the prescribed review periods. Also, OEA upon a showing by any other Federal agency of compelling reasons of national policy may extend prescribed review periods, but only after consultation with the responsible official. If the responsible official does not concur with the extension of time, OEA may not extend a prescribed review period more than 30 days beyond the minimum prescribed review period.

(e) *Rescission of filed EISs.* The responsible official shall file EISs with OEA at the same time they are transmitted to commenting agencies and made available to the public. The responsible official is required to reproduce an adequate supply of EISs to satisfy these distribution requirements prior to fil-

§ 6.402 Availability of documents.

(a) *General.* The responsible official will ensure sufficient copies of the EIS are distributed to interested and affected members of the public and are made available for further public distribution. EISs, comments received, and any underlying documents should be available to the public pursuant to the provisions of the Freedom of Information Act (5 U.S.C. 552(b)), without regard to the exclusion for interagency memoranda where such memoranda transmit comments of Federal agencies on the environmental impact of the proposed actions. To the extent practicable, materials made available to the public shall be provided without charge; otherwise, a fee may be imposed which is not more than the actual cost of reproducing copies required to be sent to another Federal agency.

(b) *Public information.* Lists of all notices, determinations and other reports/documentation, related to these notices and determinations, involving CEs, EAs, FNSIs, notices of intent, EISs, and RODs prepared by EPA shall be available for public inspection and maintained by the responsible official as a monthly status report. OEA shall maintain a comprehensive list of notices of intent and draft and final EISs provided by all responsible officials for public inspection including publication in the FEDERAL REGISTER. In addition, OEA will make copies of all EPA-prepared EISs available for public inspection; the responsible official shall do the same for any EIS he/she undertakes.
