the proposal. GSA will bill the office indicated in the order or authorization for the amount specified in the proposal. The reimbursement procedures are designed to recover GSA's direct cost for providing these services. Any changes in the scope of the project requested by the requisitioning agency prior to its completion may require a revision in the amount of the reimbursable charges and the time schedule for completion.

§ 101-26.507 Security equipment.

Federal agencies and other activities authorized to purchase security equipment through GSA sources shall do so in accordance with the provisions of this § 101-26.507. Under section 201 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 481), the Administrator of GSA has determined that fixed-price contractors and lower tier subcontractors who are required to protect and maintain custody of security classified records and information may purchase security equipment from GSA sources. Delivery orders for security equipment submitted by such contractors and lower tier subcontractors shall contain a statement that the security equipment is needed for housing Government security classified information and that the purchase of such equipment is required to comply with the security provision of a Government contract. In the event of any inconsistency between the terms and conditions of the delivery order and those of the Federal Supply Schedule contract, the latter shall govern. Security equipment shall be used as prescribed by the cognizant security office.

§ 101-26.507-2 Procurement time schedule.

Requisitions for security equipment will be consolidated by GSA on January 31, April 30, July 31, and October 31 of each year. The consolidated requisitions will be used in executing definite quantity contracts. To ensure inclusion in the invitation for bids, requisitions shall be submitted to GSA on or before January 1, April 1, July 1, or October 1 as appropriate. Requisitions received after any of these dates normally will be carried over to the subsequent consolidation date. Approximately 180 calendar days following the consolidation dates should be allowed for initial delivery. Requisitions shall include a required delivery date which reflects anticipated receipt under the time schedule.

§ 101-26.507-3 Purchase of security equipment from Federal Supply Schedules.

To ensure that a readily available source exists to meet the unforeseen demands for security equipment, Federal Supply Schedule contracts have been established to satisfy requirements that are not appropriate for consolidated procurement and do not exceed the maximum order limitations.

[60 FR 19675, Apr. 20, 1995]

§ 101-26.507-4 Quantities in excess of the maximum order limitation.

Quantities exceeding the maximum order limitation on Federal Supply Schedules will also be consolidated and procured by GSA pursuant to § 101-26.507-2. Where quantities are required to be delivered before the time frames established for the quarterly consolidated procurement, the requisition must indicate the earlier required delivery. As necessary, separate procurement action will be taken by GSA to satisfy the requirements.
