

(c) For ease of determining and evaluating Government costs, executive agencies also shall require offerors to unbundle FTS long distance services in their offers by separately describing and pricing the FTS services that satisfy Government requirements. However, the agency solicitation may prescribe an expected solution for the use of the FTS long distance network. Offerors would then be required to separately price the Government-furnished services of FTS only if their offers show a different use of FTS than the Government's expected solution.

(d) Notwithstanding paragraphs (a) and (b) of this section, agencies may continue to use intercity telecommunications services and facilities provided under contracts previously authorized and awarded without obtaining an exception to the use of the FTS long distance network. However, agencies shall use available FTS long distance services that can satisfy their procurement requirements upon expiration of such contracts. Before exercising renewal options under existing contracts that will result in the provision of intercity telecommunications services, agencies shall obtain an interim exception to the use of the FTS long distance network. This interim exception will allow GSA and the agencies to plan an orderly transition to the FTS long distance network.

(e) In planning for transition to the FTS long distance network, agencies shall be responsible for determining customer premises equipment requirements to achieve efficient interfaces with the type of FTS services needed. However, agencies shall avoid duplicating FTS services. Agencies shall avoid incorporating inherently intercity features (i.e., features that can be provided only as part of an intercity network) of the FTS long distance network in agency networks. An exception to the use of the FTS long distance network is hereby provided to agencies with requirements for non-inherently intercity features to satisfy such features within a local network.

**§ 101-35.301-3 Procedures.**

(a) GSA will provide assistance in understanding and pricing the services available from the FTS long distance

network and in developing plans for transition to the FTS long distance network. For assistance and information concerning the FTS network, agencies should contact the General Services Administration, Federal Telecommunications Service (T), 7980 Boeing Court, 4th Floor, Vienna VA, 22182-3988.

(b) Agencies seeking an exception to the use of the FTS long distance network are responsible for documenting their case. A complete agency request for an exception to the use of the FTS long distance network shall establish to the satisfaction of GSA that:

(1) The agency's procurement requirements are unique and cannot be satisfied by the FTS long distance network;

(2) The agency's procurement would be cost-effective; and

(3) The agency's procurement would not adversely affect the cost-effectiveness of the FTS long distance network. (The rebuttable presumption is that, if an agency procurement requirement is unique and the resultant procurement would be cost-effective, the agency procurement would not adversely affect the cost-effectiveness of the FTS long distance network.)

(c) An agency request for an interim exception to the use of the FTS long distance network shall be based on a GSA established date for transition of agency requirements to the FTS long distance network.

(d) Any agency exception request shall be sent to the General Services Administration/Federal Telecommunications Service (T).

(e) Agencies may conduct procurements for long distance telecommunications services and facilities without prior approval of GSA when the agency's requirements are within the scope of an exception to the use of the FTS long distance network provided by GSA.

(f) An agency may appeal a GSA denial of a request for an exception to the Office of Management and Budget (OMB).

(g) If an agency has a requirement for long distance telecommunications within the United States, Guam, Puerto Rico, or the Virgin Islands that may

## Federal Property Management Regulations

## § 101-35.503

be outside the scope of FTS, the requirement shall be submitted to GSA/T prior to initiating acquisition action. An exception to the mandatory use of the FTS long distance network will be given if GSA determines the service cannot be provided by the FTS.

### Subpart 101-35.4—Consolidated Local Telecommunications Service

#### § 101-35.400 Scope of subpart.

This subpart discusses local telecommunications facilities and services provided to executive agencies by GSA and other agencies.

#### § 101-35.401 General.

Consolidated local telecommunications service is available in most buildings occupied by concentrations of Federal employees. Local telecommunications includes any access services which provide, for a monthly fee, electronic connectivity to a larger telecommunications network and those support services which provide for the acquisition, operation and management of attached systems. Information on the use of consolidated local telecommunications services may be obtained from: GSA, Federal Telecommunications Service, Office of Regional Services (TR), 1730 M Street, NW., Suite 200, Washington, DC 20036.

#### § 101-35.402 Policies.

(a) All executive agencies shall evaluate sharing Government owned or contracted local telecommunications facilities and services. Evaluation criteria and associated decisions must be documented as appropriate.

(b) Executive agencies receiving local telecommunications services from another agency, e.g., a GSA consolidated switch, must acknowledge their shared responsibility to that community of agencies in exchange for those services. Such a community shall be considered a telecommunications "Shared Resource Community." The agency primarily responsible for providing telecommunications service(s) to members of this community shall be the "Lead Agency." Lead agencies must acknowl-

edge their responsibility(s) to provide services until an alternative arrangement has been coordinated with the community. Different agencies may take the lead in providing different services. Memoranda of Agreement will identify responsibilities and cost-recovery mechanisms.

(c) GSA charges to agencies for consolidated local telecommunications service will cover expenses for installation, changes in service, a common distributable charge, and termination.

### Subpart 101-35.5—National Security and Emergency Preparedness (NSEP)

#### § 101-35.500 Scope of subpart.

This subpart discusses NSEP services and assistance provided by GSA to executive agencies.

#### § 101-35.501 General.

Executive Order 12472 (49 FR 13471, 3 CFR, 1984 Comp., p. 193), requires that GSA ensure that the NSEP requirements of agencies are met. GSA incorporates NSEP safeguards and support features in networks and services it provides for agencies. GSA also provides emergency telecommunications for the special needs of agencies and helps agencies plan, obtain, and maintain continuity of telecommunications during wartime and non-wartime emergencies.

#### § 101-35.502 Policy.

Agencies shall use available GSA telecommunications systems and services to meet their NSEP requirements.

#### § 101-35.503 Procedures.

Before acquiring services or facilities to meet special NSEP requirements, agencies shall review GSA-provided services. Agencies shall coordinate their special NSEP requirements with: General Services Administration, Federal Telecommunications Service, Office of Service Delivery, NSEP Center (TOS), 18th & F Streets, NW., Washington, DC 20405.
