**§ 101-40.102 Representation before regulatory bodies.**

The statutory authority for the Administrator of General Services to participate in regulatory proceedings is contained in section 201 of the Federal Property and Administrative Services Act of 1949, as amended. In general, no executive agency subject to the act may appear on its own behalf in any proceedings before a transportation regulatory body. Representation is either provided by the Administrator or,

in certain instances, authority, with the approval of the Administrator, may be delegated to certain officials in the General Services Administration or to the head of another executive agency to represent itself pursuant to section 205(d) of the act (40 U.S.C. 486(d)).

(b) When a shipper's affidavit in support of a carrier's application for operating authority is required by law, the requesting agencies shall furnish the General Services Administration with such information and the appropriate form(s) as may be prescribed by transportation regulatory bodies in proceedings of this kind.

**§ 101-40.103-1 Domestic transportation.**

Preferential treatment, normally, shall not be accorded to any commercial mode of transportation (motor, rail, air, or water) or to any particular commercial carrier when arranging for domestic transportation services. However, where for valid reasons, a particular mode of transportation or a particular carrier within that mode must be used to meet specific program requirements and/or limitations, only that mode or carrier shall be considered. Examples of valid reasons for considering only a particular mode or carrier are (a) where only a certain mode of transportation or individual carrier is able to provide the needed service or is able to meet the required

delivery date; and (b) where the consignee's installation and related facilities preclude or are not conducive to service by all modes of transportation. (See also § 101.40.303-1.)

**§ 101-40.103-2 International transportation.**

(See § 1-1.323 of this title and 4 CFR 52.2 for a certificate required for non-use of U.S.-flag vessels or U.S.-flag certificated air carriers.)

(See also 48 CFR subpart 47.5.)

(b) *U.S.-flag air carriers.* Arrangements for international air transportation services shall be made in accordance with the so-called Fly America Act, as enacted by section 5 of the International Fair Competitive Practices Act of 1974, Public Law 93-623, January 3, 1975, as amended by section 21 of the International Air Transportation Competition Act of 1979, Public Law 96-192, February 15, 1980 (49 U.S.C. 1517). **§ 101-40.103-3 Coastwise transportation.**

As stated in 46 U.S.C. 883, no merchandise shall be transported by water, or by land and water, between points in the United States, including Districts, Territories, and possessions thereof embraced within the coastwise laws, either directly or via a foreign port, or for any part of the transportation, in any other vessel than a vessel built in and documented under laws of the United States and owned by persons who are citizens of the United States or vessels to which the privilege of engaging in coastwise trade is extended by sections 13 and 808 of title 46 of the

United States Code. There are exceptions and limitations to this basic provision, especially with regard to the United States island territories and possessions in the Atlantic and Pacific Oceans. (For example, see 46 U.S.C. 877 relative to the Virgin Islands; 48 U.S.C. 1664 relative to American Samoa; and Presidential Proclamation 3215, December 12, 1957, relative to Canton Island.) [52 FR 21032, June 4, 1987]

**§ 101-40.105 Use of Government-owned transportation equipment.**

Generally, the preferred method of transporting property for the Government is through use of the facilities and services of commercial carriers. However, under certain circumstances, Government vehicles may be used when they are available. They may be used for such purposes as local transfer of property, pickup or delivery services which are not performed by the commercial carriers in connection with the line-haul transportation, transportation of property to meet emergencies, and accomplishment of program objectives which cannot be attained through use of commercial carriers.
