

§ 101-42.1102-8 United States Munitions List items which require demilitarization.

(a) *General.* The United States Munitions List is located in 22 CFR part 121. A system of demilitarization codes has been developed and an appropriate code assigned to each Munitions List Item (MLI) to describe what, if any, restrictions or actual demilitarization requirements apply to each item. These codes, in addition to demilitarization policy and procedures for all surplus military items which are owned, procured by, or under the control of the Department of Defense, are contained in the Defense Demilitarization Manual (DoD 4160.21-M-1). This § 101-42.1102-8 applies only to MLIs and is to be used in conjunction with guidance in parts 101-42, 101-44, and 101-45.

(b) *Utilization requirements.* (1) Federal agencies acquiring MLIs which require demilitarization shall perpetuate the demilitarization codes in their property records and on subsequent reports of excess personal property submitted to GSA. Demilitarization shall be a condition of transfer of excess MLIs.

(2) Utilization without demilitarization of other than classified material is authorized only under the conditions cited in the Defense Demilitarization Manual, DoD 4160.21-M-1.

(c) *Donation requirements.* (1) Donation without demilitarization of other than classified material is authorized only under the conditions cited in the Defense Demilitarization Manual, DoD 4160.21-M-1.

(2) A State agency requesting the transfer of donation of MLIs identified as requiring demilitarization shall include the appropriate demilitarization code on the SF 123, and a statement that the State agency will obtain from the donee a certification that prior to further disposition, demilitarization of the property shall be performed by the donee under the demilitarization instructions for the code as set forth in the Defense Demilitarization Manual, DoD 4160.21-M-1. In the case of MLIs requested for donation by service educational activities or public airports pursuant to the provisions of subparts 101-44.4 and 101-44.5 respectively, the donee shall include a statement on the SF 123 certifying that appropriate de-

militarization of the property will be accomplished under the requirements of the codes before further disposition.

(3) Before disposing of MLIs identified as requiring demilitarization, donees may request demilitarization instructions from GSA through the State agency if the donation was made pursuant to subpart 101-44.2. Demilitarization instructions for such items donated to public airports, under subpart 101-44.5, may be requested through the Federal Aviation Administration. Demilitarization instructions for such items donated to service educational activities under subpart 101-44.4 may be obtained directly from the Item Technical Manager within DOD for the item involved.

(4) Demilitarization of property to be donated to public bodies under subpart 101-44.7 shall be accomplished in a manner to preserve so far as possible any civilian use or commercial value of the property, as prescribed in the minimum demilitarization requirements of the Defense Demilitarization Manual, DoD 4160.21-M-1.

(d) *Sales requirements.* (1) Except for sales authorized by statute, sales of "explosives" and "ammunition components" authorized by paragraphs (d) (2) and (3) of this section, or specialized sales authorized by the Secretary of Defense, MLIs identified as requiring demilitarization shall not be reported for public sale without first being demilitarized under the requirements of the assigned code in the Defense Demilitarization Manual, DoD 4160.21-M-1 or requiring demilitarization under the terms and conditions of sale. GSA will, as necessary, refer technical questions on demilitarization to the Department of Defense.

(2) *Explosives.* For the purpose of this section, the term *explosive* means any chemical compound, mixture, or device, the primary or common purpose of which is to function by explosion. The term includes, but is not limited to, dynamite and other high explosives, black powder, pellet powder, initiating explosives, detonators, safety fuses, squibs, detonating cord, igniter cord, igniters, and any other items appearing in the explosives list issued by the Secretary of the Treasury (18 U.S.C. 841(d)). The explosives list is published

Federal Property Management Regulations

§ 101-42.1102-9

and revised at least annually in the Federal Register by the Director, Bureau of Alcohol, Tobacco and Firearms, Department of the Treasury, as required by 27 CFR 55.23. The following procedures shall apply in any disposal of explosives:

(i) All explosives offered for sale shall be properly identified in the offering with respect to their hazardous characteristics.

(ii) All explosives shall be labeled by the holding agency before shipment so that their hazardous or dangerous character will be immediately evident upon inspection.

(iii) Purchasers of explosives shall be required, as a condition of sale, to execute the following certification:

It is hereby certified that the purchaser will comply with all applicable Federal, State, and local laws, ordinances, and regulations with respect to the care, handling, storage, shipment, resale, export, and other use of the materials, hereby purchased, and that he/she is a user of, or dealer in, said materials and will comply with all applicable Federal, State, and local laws. This certification is made in accordance with and subject to the penalties of Title 18, Section 1001, the United States Code, Crime and Criminal Procedures.

(3) *Ammunition components.* The term “ammunition components” means ammunition or cartridge cases, primers, bullets, or propellant powder designed for use in any firearm. The transportation of primers or propellant powder is governed by the Hazardous Materials Regulations (49 CFR parts 170-189) promulgated by the Department of Transportation. Purchasers of such materials are responsible to certify, based on their own examination, that the materials are properly classified, described, packaged, marked, and labeled and are in proper condition for transportation in accordance with the Hazardous Materials Regulations. So that bidders will be notified of the special requirements concerning the purchase and transportation of usable ammunition components, the following statement shall be included in the IFBs and shall be made a part of the contract by including in it the bid form to be submitted by the bidders:

Item No. _____ contains ammunition components offered for sale in this invita-

tion. The undersigned certifies that he/she will comply with all applicable local, State, and Federal laws and regulations concerning ammunition components.

(4) *Scrap ammunition components.* Ammunition components not usable or suitable for reuse as components of ammunition shall be reported and may be sold as scrap (for basic material content). With regard to such sale, the following statement shall be included in the invitation for bid and shall be made a part of the contract:

I, _____, certify that ammunition components purchased by me as Item No. _____, will not be used for the original manufactured purpose.

(e) *Abandonment and destruction requirements.* Besides the requirement of subpart 101-45.9, surplus munitions list items which require demilitarization shall be abandoned or disposed of under the requirements of §101-42.406, but only after performance of demilitarization under the requirements of the assigned code in the Defense Demilitarization Manual, DoD 4160.21-M-1.

§ 101-42.1102-9 Acid contaminated and explosive contaminated property.

(a) *Utilization requirements.* (1) Acid contaminated or explosive contaminated property shall be considered extremely hazardous property, and as such is not to be reported to GSA as excess personal property. Such property may be available for transfer to qualified recipients; i.e., those who are able to submit valid justifications as required by paragraph (a)(3) of this section.

(2) Excess acid contaminated or explosive contaminated property shall be properly labeled under the labeling requirements of §101-42.204.

(3) With the authorization of the appropriate GSA regional office, holding activities may transfer acid contaminated or explosive contaminated property in conformance with the requirements of §§ 101-43.309-5 and 101-42.207. In addition, the requesting agency must submit a written justification with the transfer order explaining the specific need for and the anticipated uses of the requested acid or explosive contaminated property, and certify that personnel in contact with the property shall be informed of the hazard and
