

to receive an allowance for movement of his/her mobile home, he/she may be eligible to receive an allowance based on the transportation of his/her household goods under part 302-8.

(b) *Geographic limitations*—(1) *Overland transportation*. Allowances for transportation of mobile homes overland may be made only for transportation of such homes within the continental United States (CONUS), within Alaska, and through Canada en route between Alaska and CONUS. Allowances for transportation within the limits prescribed may be paid even though the transportation involved originates, terminates, or passes through locations not covered, provided the amount of the allowance shall be computed on the basis of that part of the transportation which is within CONUS, within Alaska, or through Canada en route between Alaska and CONUS.

(2) *Over-water transportation*. Allowances for transportation of mobile homes over-water may be made only for transportation of such homes from a point of origin either within CONUS or within Alaska to a destination point either within CONUS or within Alaska.

(c) *Relationship to other allowances*. Allowances for transporting mobile homes (including mileage when towed by employee) are in addition to payment of per diem, mileage, and transportation expenses for employees and their immediate families. However, the fact that a mobile home may be moved at Government expense only if the employee certifies that it is to be used as a residence at the destination should be considered in determining allowances to be paid under parts 302-4, 302-5, and 302-6.

(b) *Islands involved*. In addition to mileage, if the point of origin or destination is an island within the boundaries of one of the continental United States or Alaska and a ferry is used in transportation of a mobile home, the statute mileage between the island and the usual place of arrival or departure on the mainland shall be allowed, except that when such mileage is included in the standard highway mileage guides the mileage shown therein shall be used.

Where point of origin or destination, or both, are not in the continental United States or Alaska, the allowable distance shall be limited to the distance which the mobile home is transported within or between any of the continental United States and Alaska, and through Canada en route between Alaska and the continental United States.
