

(1) Is located outside any area that is a Metropolitan Statistical Area as defined by the Office of Management and Budget or that has been recognized as urban under §412.62;

(2) Is not deemed to be located in an urban area under §412.63;

(3) Is not classified as an urban hospital for purposes of the standardized payment amount by HCFA or the Medicare Geographic Classification Review Board; or

(4) Is not located in a rural county that has been redesignated to an adjacent urban area under §412.232.

(c) *Adjustment to the hospital-specific rate for rural EACH's experiencing increased costs.* (1) *General rule.* HCFA increases the applicable hospital-specific rate of an EACH that it treats as a sole community hospital if, during a cost reporting period, the hospital experiences an increase in its Medicare inpatient operating costs per discharge that is directly attributable to activities related to its membership in a rural health network.

(2) *Request and documentation.* In order for a hospital to qualify for an increase in its hospital-specific rate, it must meet the following criteria:

(i) The hospital must submit its request to its intermediary no later than 180 days after the date on the intermediary's notice of program reimbursement.

(ii) The request must include documentation specifically identifying the increased costs resulting from the hospital's participation in a rural health network and show that the increased costs during the cost reporting period will result in increased costs in subsequent cost reporting periods that are not already accounted for under the prospective payment system payment.

(iii) The hospital must show that the cost increases are incremental costs that would not have been incurred in the absence of the hospital's membership in a rural health network.

(iv) The hospital must show that the cost increases do not include amounts for start-up and one-time, nonrecurring costs attributable to its membership in a rural health network.

(3) *Intermediary recommendation.* The intermediary forwards the following

material to HCFA within 60 days of receipt from the hospital:

(i) The hospital's documentation and the intermediary's verification of that documentation.

(ii) The intermediary's analysis and recommendation of the request.

(iii) The hospital's Medicare cost report for the year in which the increase in costs occurred and the prior year.

(4) *HCFA determination.* HCFA determines, within 120 days of receiving all necessary information from the intermediary, whether an increase in the hospital-specific rate is warranted and, if it is, the amount of the increase. HCFA grants an adjustment only if a hospital's Medicare inpatient operating costs per discharge exceed the hospital's hospital-specific rate. The adjusted hospital-specific rate cannot exceed the hospital's Medicare inpatient operating costs per discharge for the cost reporting period.

(d) *Termination of EACH designation.* If HCFA determines that a hospital no longer complies with the terms, conditions, and limitations that were applicable at the time HCFA designated the hospital as an EACH, HCFA will terminate the EACH designation of the hospital, effective with discharges occurring on or after 30 days after the date of the determination.

(e) *Review of HCFA determination.* A determination by HCFA that a hospital's EACH designation should be terminated, is subject to review under part 405, subpart R of this chapter, including the time limits for filing requests for hearings as specified in §§405.1811(a) and 405.1841(a)(1) and (b) of this chapter.
