

§412.6

42 CFR Ch. IV (10-1-00 Edition)

that transfers an inpatient under the circumstances described in paragraph (b) or (c) of this section, is paid a graduated per diem rate for each day of the patient's stay in that hospital, not to exceed the amount that would have been paid under subparts D and M of this part if the patient had been discharged to another setting. The per diem rate is determined by dividing the appropriate prospective payment rate (as determined under subparts D and M of this part) by the geometric mean length of stay for the specific DRG to which the case is assigned. Payment is graduated by paying twice the per diem amount for the first day of the stay, and the per diem amount for each subsequent day, up to the full DRG payment.

(2) *Special rule for DRGs 209, 210, and 211.* A hospital that transfers an inpatient under the circumstances described in paragraph (c) of this section and the transfer is assigned to DRGs 209, 210 or 211 is paid as follows:

(i) 50 percent of the appropriate prospective payment rate (as determined under subparts D and M of this part) for the first day of the stay; and

(ii) 50 percent of the amount calculated under paragraph (f)(1) of this section for each day of the stay, up to the full DRG payment.

(3) *Transfer assigned to DRG 385.* If a transfer is classified into DRG 385 (Neonates, died or transferred) the transferring hospital is paid in accordance with §412.2(b).

(4) *Outliers.* Effective with discharges occurring on or after October 1, 1984, a transferring hospital may qualify for an additional payment for extraordinarily high-cost cases that meet the criteria for cost outliers as described in subpart F of this part.

[63 FR 41003, July 31, 1998, as amended at 65 FR 47106, Aug. 1, 2000]

§412.6 Cost reporting periods subject to the prospective payment systems.

(a) *Initial cost reporting period for each prospective payment system.* (1) Each subject hospital is paid under the prospective payment system for operating costs for inpatient hospital services effective with the hospital's first cost reporting period beginning on or after October 1, 1983 and for inpatient cap-

ital-related costs effective with the hospital's first cost reporting period beginning on or after October 1, 1991.

(2) The hospital is paid the applicable prospective payment rate for inpatient operating costs and capital-related costs for each discharge occurring on or after the first day of its first cost reporting period subject to the applicable prospective payment system.

(3) If a discharged beneficiary was admitted to the hospital before the first day of the hospital's first cost reporting period subject to the prospective payment system for inpatient operating costs, the reasonable costs of services furnished before that day are paid under the cost reimbursement provisions of part 413 of this chapter. For such discharges, the amount otherwise payable under the applicable prospective payment rate is reduced by the amount paid on a reasonable cost basis for inpatient hospital services furnished to that beneficiary during the hospital stay. If the amount paid under reasonable cost exceeds the inpatient operating prospective payment amount, the reduction is limited to the inpatient operating prospective payment amount.

(b) *Changes in cost reporting periods.* HCFA recognizes a change in a hospital's cost reporting period made after November 30, 1982 only if the change has been requested in writing by the hospital and approved by the intermediary in accordance with §413.24(f)(3) of this chapter.

[57 FR 39819, Sept. 1, 1992]

§412.8 Publication of schedules for determining prospective payment rates.

(a) *Initial prospective payment rates—*

(1) *For inpatient operating costs.* Initial prospective payment rates for inpatient operating costs (for the period October 1, 1983 through September 30, 1984) were determined in accordance with documents published in the FEDERAL REGISTER on September 1, 1983 (48 FR 39838), and January 3, 1984 (49 FR 324).

(2) *For inpatient capital-related costs.* Initial prospective payment rates for inpatient capital-related costs (for the
