§ 422.2 Definitions.

As used in this part—
ACR stands for adjusted community rate.

Additional benefits are health care services not covered by Medicare, and reductions in premiums or cost-sharing for Medicare covered services, funded from adjusted excess amounts as calculated in the ACR.

Adjusted community rate (ACR) is the equivalent of the maximum amount allowed under § 422.310.

§ 422.2

42 CFR Ch. IV (10-1-00 Edition)

Arrangement means a written agreement between an M+C organization and a provider or provider network, under which—

(1) The provider or provider network agrees to furnish for a specific M+C plan(s) specified services to the organization's M+C enrollees;

(2) The organization retains responsibilities for the services; and

(3) Medicare payment to the organization discharges the enrollee's obligation to pay for the services.

Balance billing generally refers to an amount billed by a provider that represents the difference between the amount the provider charges an individual for a service and the sum of the amount the individual's health insurer (for example, the original Medicare program) will pay for the service plus any cost-sharing by the individual.

Basic benefits means all Medicare-covered benefits (except hospice services) and additional benefits.

Benefits are health care services that are intended to maintain or improve the health status of enrollees, for which the M+C organization incurs a cost or liability under an M+C plan (not solely an administrative processing cost). Benefits are submitted and approved through the ACR process.

Coinsurance is a fixed percentage of the total amount paid for a health care service that can be charged to an M+C enrollee on a per-service basis.

Copayment is a fixed amount that can be charged to an M+C plan enrollee on a per-service basis.

Cost-sharing includes deductibles, coinsurance, and copayments.

Licensed by the State as a risk-bearing entity means the entity is licensed or otherwise authorized by the State to assume risk for offering health insurance or health benefits coverage, such that the entity is authorized to accept prepaid capitation for providing, arranging, or paying for comprehensive health services under an M+C contract.

M+C stands for Medicare+Choice.

M+C eligible individual means an individual who meets the requirements of § 422.50.

M+C organization means a public or private entity organized and licensed by a State as a risk-bearing entity (with the exception of provider-spon-

sored organizations receiving waivers) that is certified by HCFA as meeting the M+C contract requirements.

M+C plan means health benefits coverage offered under a policy or contract by an M+C organization that includes a specific set of health benefits offered at a uniform premium and uniform level of cost-sharing to all Medicare beneficiaries residing in the service area of the M+C plan (or in individual segments of a service area, under § 422.304(b)(2)).

M+C plan enrollee is an M+C eligible individual who has elected an M+C plan offered by an M+C organization.

Mandatory supplemental benefits are health services not covered by Medicare that an M+C enrollee must purchase as part of an M+C plan that are paid for in full, directly by (or on behalf of) Medicare enrollees, in the form of premiums or cost-sharing.

MSA stands for medical savings account.

MSA trustee means a person or business with which an enrollee establishes an M+C MSA. A trustee may be a bank, an insurance company, or any other entity that—

(1) Is approved by the Internal Revenue Service to be a trustee or custodian of an individual retirement account (IRA); and

(2) Meets the requirements of § 422.262(b).

National coverage determination (NCD) means a national policy determination regarding the coverage status of a particular service that HCFA makes under section 1862(a)(1) of the Act, and publishes as a FEDERAL REGISTER notice or HCFA ruling. (The term does not include coverage changes mandated by statute.)

Optional supplemental benefits are health services not covered by Medicare that are purchased at the option of the M+C enrollee and paid for in full, directly by (or on behalf of) the Medicare enrollee, in the form of premiums or cost-sharing. These services may be grouped or offered individually.

Original Medicare means health insurance available under Medicare Part A and Part B through the traditional fee-for service payment system.

Point of service (POS) is a benefit option that an M+C coordinated care plan

can offer to its Medicare enrollees as an additional, mandatory supplemental, or optional supplemental benefit. Under the POS benefit option, the M+C plan allows members the option of receiving specified services outside of the M+C plan's provider network. In return for this flexibility, members typically have higher cost-sharing requirements for services received and, where offered as a mandatory or optional supplemental benefit, may also be charged a premium for the POS benefit option.

Provider means—

(1) Any individual who is engaged in the delivery of health care services in a State and is licensed or certified by the State to engage in that activity in the State; and

(2) Any entity that is engaged in the delivery of health care services in a State and is licensed or certified to deliver those services if such licensing or certification is required by State law or regulation.

Provider network means the providers with which an M+C organization contracts or makes arrangements to furnish covered health care services to Medicare enrollees under an M+C coordinated care or network MSA plan.

Religious and fraternal benefit (RFB) society means an organization that—

(1) Is described in section 501(c)(8) of the Internal Revenue Code of 1986 and is exempt from taxation under section 501(a) of that Act; and

(2) Is affiliated with, carries out the tenets of, and shares a religious bond with, a church or convention or association of churches or an affiliated group of churches.

RFB plan means an M+C plan that is offered by an RFB society.

Service area means a geographic area approved by HCFA within which an M+C-eligible individual may enroll in a particular M+C plan offered by an M+C organization. Each M+C plan must be available to all M+C-eligible individuals within the plan's service area. In deciding whether to approve an M+C plan's proposed service area, HCFA considers the following criteria:

(1) Whether the area meets the "county integrity rule" that a service area generally consists of a full county or counties. However, HCFA may approve a service area that includes a

portion of a county if it determines that the "partial county" area is necessary, nondiscriminatory, and in the best interests of the beneficiaries.

(2) The extent to which the proposed services area mirrors service areas of existing commercial health care plans or M+C plans offered by the organization.

(3) For M+C coordinated care plans and network M+C MSA plans, whether the contracting provider network meets the access and availability standards set forth in §422.112. Although not all contracting providers must be located within the plan's service area, HCFA must determine that all services covered under the plan are accessible from the service area.

(4) For non-network M+C MSA plans, HCFA may approve single county non-network M+C MSA plans even if the M+C organization's commercial plans have multiple county service areas.

(iii) Coordinated care plans include plans offered by health maintenance organizations (HMOs), provider-sponsored organizations (PSOs), preferred
