

§ 433.60

42 CFR Ch. IV (10-1-00 Edition)

§ 433.60 Limitations on level of FFP in State expenditures from provider-related donations and health care-related taxes during the transition period.

(a) *Maximum amounts.* The maximum amount of total provider-related donations, as specified in § 433.58(d)(3), and health care-related taxes that a State may receive without a reduction in FFP during a State fiscal year in the State's transition period specified in § 433.58(b) is calculated by multiplying—

(1) The State's total medical assistance expenditures for the fiscal year; by

(2) The greater of:

(i) 25 percent; or

(ii) The "State base percentage" (as described in paragraph (b) of this section).

(b) *State base percentage.*

(1) The State's base percentage is calculated by dividing the amount of the provider-related donations and health care-related taxes identified in § 433.58 and estimated by HCFA to be received in the State's fiscal year 1992 by the total non-Federal share of medical assistance expenditures (including administrative costs) in that fiscal year based on the best available HCFA data.

(2) In calculating the amount of taxes specified in paragraph (b)(1) of this section, taxes (including the tax rate or base) that were not in effect for the entire State fiscal year, but for which legislation or regulations imposing such taxes were enacted or adopted as of November 22, 1991, will be estimated as if they were in effect for the entire fiscal year.

(c) *Deductions before calculating FFP.* Before calculating FFP, HCFA will deduct from a State's medical assistance expenditures the total amount of any provider-related donations described in § 433.58(d)(3), and health care-related taxes in excess of the limit calculated under paragraph (a) of this section.

§ 433.66 Permissible provider-related donations after the transition period.

(a) *General rule.* (1) Except as specified in paragraph (a)(2) of this section,

subsequent to the end of a State's transition period, as defined in § 433.58(b), a State may receive revenues from provider-related donations without a reduction in FFP, only in accordance with the requirements of this section.

(2) The provisions of this section relating to provider-related donations for outstationed eligibility workers are effective on October 1, 1992, whether or not the State's transition period continues beyond that date.

(b) *Permissible donations.* Subject to the limitations specified in § 433.67, a State may receive, without a reduction in FFP, provider-related donations that meet at least one of the following requirements:

(1) The donations must be bona fide donations, as defined in § 433.54; or

(2) The donations are made by a hospital, clinic, or similar entity (such as a Federally-qualified health center) for the direct costs of State or local agency personnel who are stationed at the facility to determine the eligibility (including eligibility redeterminations) of individuals for Medicaid or to provide outreach services to eligible (or potentially eligible) Medicaid individuals. Direct costs of outstationed eligibility workers refers to the costs of training, salaries and fringe benefits associated with each outstationed worker and similar allocated costs of State or local agency support staff, and a prorated cost of outreach activities applicable to the outstationed workers at these sites. The prorated costs of outreach activities will be calculated taking the percent of State outstationed eligibility workers at a facility to total outstationed eligibility workers in the State, and multiplying the percent by the total cost of outreach activities in the State. Costs for such items as State agency overhead and provider office space are not allowable for this purpose.
