Subpart A—General Provisions

SOURCE: 48 FR 4473, Feb. 1, 1983, unless otherwise noted.

§ 51b.101 To which programs do these regulations apply?

The regulations in this part apply to grants for preventive health service programs authorized under section 317 (42 U.S.C. 247b) and for venereal disease prevention and control programs authorized under section 318 (42 U.S.C. 247c) of the Act.

§ 51b.102 Definitions.

As used in these regulations:

Act means the Public Health Service Act, as amended.

Secretary means the Secretary of Health and Human Services (HHS) or any other officer or employee of that Department to whom the authority involved has been delegated.

State means one of the 50 States, the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands.

§ 51b.103 What are the general application requirements?

(a) The project application shall contain a full description of the program objectives, plans, and activities. With respect to programs authorized by section 317 of the Act only, the application shall also provide, as the Secretary may require:

(1) The amount of Federal, State, and other funds obligated by the applicant in its latest annual accounting period for the provision of such program.

(2) A description of the services provided by the applicant for this accounting period covered under paragraph (a)(1) of this section.

§51b.104

(3) The amount of Federal funds needed by the applicant to continue providing these services.

(4) A description of any proposed changes in the provision of the services, reasons and priorities, and the amount of Federal funds needed by the applicant to make the changes.

(b) The application shall contain evidence satisfactory to the Secretary that it has been submitted, as appropriate, for action to the planning agency designated by the Secretary under title XV of the Act (42 CFR parts 122 and 123). These grants are subject to the intergovernmental review of Federal programs of Executive Order 12372.

(c) The application shall contain assurances that no one will be denied services because of inability to pay, and that the services are provided in a manner which preserves human dignity and maximizes acceptance.

§51b.104 Can personnel, supplies, and related items be provided in lieu of cash?

The Secretary may reduce a grant by the amount of the fair market value of any supplies (including vaccines and other preventive agents) or equipment furnished a grant recipient when furnished at the request of the recipient. The Secretary also may reduce a grant by the amount of the pay, allowances, travel expenses, and any other costs in connection with the detail of any officer or employee of the Government to the recipient when the detail is at the request of the recipient. The amount the grant is reduced shall be available for payment by the Secretary of the costs incurred in furnishing the supplies or equipment or in detailing personnel and shall be deemed to have been paid to the recipient.

§51b.105 Which other HHS regulations apply to these grants?

Several other HHS regulations apply to grants under this part. These include, but are not limited to:

- 42 CFR part 50, subpart D—Public Health Service grant appeals procedure

§51b.106 What other conditions apply to these grants?

(a) The notice of grant award specifies how long HHS intends to support the project without requiring the project to re compete for funds. This period, called the project period, will usually be for 2 to 5 years.

(b) For budgetary and funding purposes, the project period is generally divided into 12-month intervals called budget periods. A grantee must submit a separate application to have the support continued for each subsequent budget period after the initial award. Decisions regarding continuation awards and the funding level of such awards will be made after consideration of such factors as the grantee's progress and management practices and the availability of funds. In all cases, continuation awards require a determination by HHS that continued funding is in the best interest of the government.

(c) Neither the approval of any application nor the award of any grant commits or obligates the United States in any way to make any additional, supplemental, continuation, or other award with respect to any approved application or portion of an approved application.

(d) Any funds granted pursuant to this subpart shall be expended solely for the purposes for which the funds were granted in accordance with the
