§ 57.2106 How long does grant support last?

(a) The notice of grant award specifies the length of time the Secretary intends to support the project without requiring the project to re compete for funds. This period, called the project period, will not exceed 3 years.

(b) Generally, the grant will initially be funded for 1 year, and subsequent continuation awards will also be for 1 year at a time. Decisions regarding the continuation awards and the funding levels of these awards will be made after consideration of such factors as

the grantee's progress, including the degree that the projected portion of non-federal funds supporting the project has been met, and management practices, the existence of legislative authority, and the availability of funds. In all cases, continuation awards require a determination by the Secretary that continued funding is in the best interest of the Federal Government.

(c) Neither the approval of any application nor the award of any grant shall commit or obligate the United States in any way to make any additional, supplemental, continuation, or other award with respect to any approved application or portion of an approved application. For continuation support, grantees must make separate application at such times and in such a form as the Secretary may prescribe.

§ 57.2107 For what purposes may grant funds be spent?

(a) A grantee shall only spend funds it receives under this subpart according to the approved application and budget, the authorizing legislation, terms and conditions of the grant award, applicable cost principles specified in subpart Q of 45 CFR part 74, and these regulations.

(b) Any balance of federally obligated grant funds remaining unobligated by the grantee at the end of a budget period may be carried forward provided specific approval is granted by the Secretary. If at any time during a budget period it becomes apparent to the Secretary that the amount of Federal funds awarded and available to the grantee for that period, including any unobligated balance carried forward from prior periods, exceeds the grantee's needs for the period, the Secretary may adjust the amounts awarded by withdrawing the excess. A budget period is an interval of time (usually 12 months) into which the project period is divided for funding and reporting purposes.

(c) The grantee may spend grant funds to pay individual participants in the program a per diem when the grantee determines that—
