

(8) Arrange and support educational opportunities for medical and other students at affiliated health facilities, ambulatory care centers, and health agencies throughout the area served by the center. In meeting this requirement, the center must:

(i) Coordinate the conduct of the following programs, including assisting in their planning and development, obtaining the necessary resources and providing administrative support services for:

(A) Clinical education for undergraduate medical or osteopathic students in at least family practice, general internal medicine or general pediatrics;

(B) Education for undergraduate and, as appropriate, graduate students, at a school of dentistry, if one is participating in the program;

(C) Education for students of the other schools or programs participating in the area health education center program under paragraph (d)(5) of this section; and

(D) Orientation for high school and post-high school students in schools in the area to develop awareness of health careers and health opportunities.

(9) Have an advisory board of which at least 75 percent of the members are persons from the area served by the center, including health service providers and consumers. For this purpose, health service providers are individuals who derive more than 10 percent of their annual income from the health care industry. In meeting this requirement:

(i) The advisory board must be reasonably divided between:

(A) Providers of health care, including at least one physician, dentist, nurse, and allied health professional who is actively engaged in the practice of his or her profession in the area served by the center; and

(B) Consumers, including students, who reside in the area and are broadly representative of the population in the area in terms of demographic factors, such as race, ethnic background and sex. The advisory board shall advise the chief administrative official of the center on all major policies concerning the operation of the center, on the es-

tablishment of center program priorities and on other issues, as necessary.

**§ 57.3805 When do the requirements of § 57.3804 apply?**

(a) The period of time in which any entity will have to meet all the requirements or § 57.3804 will be negotiated on a case-by-case basis, depending upon the nature and scope of the planned area health education center program. No cooperative agreement, however, shall provide funds solely for the planning or development of a program for a period of longer than two years.

(b) Each area health education center program must begin planning for at least one center during the first year of support so that at least one center is fully operational and meets all the applicable requirements of § 57.3804 during the third year of support. Additional centers may be phased in during the first four years of Federal support except that once planning for any center is initiated, it must become fully operational and meet all the applicable requirements of § 57.3804 within three years.

(c) Each school with which the Secretary enters into a cooperative agreement under this subpart must meet all the requirements of § 57.3804 during the first four years of Federal support, except that once planning to add any school is initiated, it must meet all the applicable requirements of § 57.3804 within three years.

**§ 57.3806 How will applications be evaluated?**

(a) After consulting with the National Advisory Council on Health Professions Education established by section 702 of the Act, the Secretary will award cooperative agreements to applicants whose projects will best promote the purposes of section 781 of the Act and these regulations, taking into consideration among other factors:

(1) The degree to which the proposed project adequately provides for the program requirements set forth in § 57.3804;

(2) The capability of the applicant to carry out the proposed project; and
