

§ 3410.2-2

43 CFR Ch. II (10-1-99 Edition)

to the description in the deed or document by which the United States acquired title in accordance with § 3471.1-1(d)(2) of this title.

(3) Each application shall contain three copies of an exploration plan which complies with the requirements of § 3482.1(a) of this title.

(4) Each application and its supporting documents shall be filed with a nonrefundable filing fee (43 CFR 3473.2).

(5) Exploration license applications shall normally cover no more than 25,000 acres in a reasonably compact area and entirely within one state. An application for an exploration license covering more than 25,000 acres must include a justification for an exception to the normal acreage limitation.

(b) Nothing in this subpart shall preclude the authorized officer from issuing a call for expressions of leasing interest in an area containing exploration licenses or applications for exploration licenses.

(c) Applicants for exploration licenses shall be required to provide an opportunity for other parties to participate in exploration under the license on a pro rata cost sharing basis.

(1) Immediately upon the filing of an application for an exploration license the applicant shall publish a "Notice of Invitation," approved by the authorized officer, once every week for 2 consecutive weeks in at least one newspaper of general circulation in the area where the lands covered by the license application are situated. This notice shall contain an invitation to the public to participate in the exploration under the license and shall contain the location of the Bureau of Land Management office in which the application shall be available for inspection. Copies of the Notice of Invitation shall be filed with the authorized officer at the time of publication by the applicant, for posting in the proper Bureau of Land Management Office and for Bureau of Land Management's publication of the Notice of Invitation in the FEDERAL REGISTER.

(2) Any person who seeks to participate in the exploration program contained in the application shall notify the authorized officer and the applicant in writing within 30 days after the

publication in the FEDERAL REGISTER. The authorized officer may require modification of the original exploration plan to accommodate the legitimate exploration needs of persons seeking to participate, and to avoid the duplication of exploration activities in the same area, or may notify the person seeking to participate that the person should file a separate application for an exploration license.

(d) An application to conduct exploration which could have been conducted as a part of exploration under an existing or recent coal exploration license may be rejected.

[44 FR 42613, July 19, 1979, as amended at 47 FR 33135, July 30, 1982; 50 FR 8626, Mar. 4, 1985]

§ 3410.2-2 Environmental analysis.

(a) Before an exploration license may be issued, the authorized officer shall prepare an environmental assessment or environmental impact statement, if necessary, of the potential effects of the proposed exploration on the natural and socio-economic environment of the affected area. No exploration license shall be issued if the exploration would:

(1) Result in disturbance that would cause significant and lasting degradation to the lands or injury to improvements, or in any disturbance other than that necessary to determine the nature of the overlying strata and the depth, thickness, shape, grade, quantity, quality or hydrologic conditions of the coal deposits; or

(2) Jeopardize the continued existence of a threatened or endangered species of fauna or flora or destroy or cause adverse modification to its critical habitat. No exploration license shall be issued until after compliance with sections 105 and 106 of the National Historic Preservation Act (16 U.S.C. 470(f)) with respect to any cultural resources which might be affected by any activity under the exploration license.

(b) The authorized officer shall include in each exploration license requirements and stipulations to protect

Bureau of Land Management, Interior

§ 3410.3-2

the environment and associated natural resources and to ensure reclamation of the lands disturbed by the exploration.

[47 FR 33135, July 30, 1982, as amended at 50 FR 8626, Mar. 4, 1985]

§ 3410.2-3 Surface management agency.

The authorized officer may issue an exploration license covering lands the surface of which is under the jurisdiction of any Federal agency other than the Bureau of Land Management only in accordance with those conditions prescribed by the surface management agency concerning the use and protection of the nonmineral interests in those lands.

[44 FR 42613, July 19, 1979. Redesignated at 47 FR 33135, July 30, 1982]

§ 3410.3 Exploration licenses.

§ 3410.3-1 Issuance and termination of an exploration license.

(a) The authorized officer has the discretion to issue an exploration license or to reject the application therefor under this subpart.

(b) An exploration license shall become effective on the date specified by the authorized officer as the date when exploration activities may begin. An exploration license shall not be valid for more than two years from its effective date.

(c) The approved exploration plan shall be attached and made a part of each exploration license.

(d) Subject to the continued obligation of the licensee and the surety company to comply with the terms and conditions of the exploration license, the exploration plan, and the regulations, a licensee may relinquish an exploration license for all or any portion of the lands covered by it. A relinquishment shall be filed in the Bureau of Land Management State Office in which the original application was filed. See 43 CFR subpart 1821.

(e) An exploration license may be cancelled by the authorized officer for noncompliance with its terms and conditions, the exploration plan, or the regulations, after the authorized officer has notified the licensee of the violation(s) in writing and the licensee

has failed to correct the violation(s) within the period prescribed in the notice.

(f) Should a licensee request a modification to the exploration plan, the authorized officer may approve the modification if geologic or other conditions warrant.

(g) When unforeseen conditions that could result in substantial disturbance to the natural land surface or damage to the environment or improvements are encountered, or when geologic or other physical conditions warrant a modification in the approved exploration plan:

(1) The authorized officer may adjust the terms and conditions of the exploration license, or

(2) The authorized officer may direct adjustment in or approve modification of the exploration plan. If the licensee does not concur in the adjustment of the terms and conditions of the exploration license and exploration plan, he/she may, under 43 CFR part 4, appeal the decision modifying the license, or he/she may relinquish the exploration license.

(h) Exploration licenses shall not be extended. Exploration operations may not be conducted after the exploration license has expired. The licensee may apply for a new exploration license as described in this section. A new exploration license may be issued simultaneously with the termination of the existing exploration license.

[44 FR 42613, July 19, 1979, as amended at 47 FR 33135, July 30, 1982; 47 FR 38131, Aug. 30, 1982; 50 FR 8626, Mar. 4, 1985]

§ 3410.3-2 Limitations on exploration licenses.

The issuance of exploration licenses for an area shall not preclude the issuance of a Federal coal lease under applicable regulations for that area. If such a lease is issued for lands included in an exploration license, the authorized officer shall cancel the exploration license on the effective date of the lease for those lands which are common to both.

[44 FR 42613, July 19, 1979, as amended at 47 FR 33135, July 30, 1982]
