### § 3430.5 Determination of entitlement to lease.

#### § 3430.5-1 Rejection of application.

(a) The authorized officer shall reject the application if:

(2) The applicant does not respond to a request for additional information within the time period specified in § 3430.3-2 or § 3430.4-2 of this title; or

(3) The applicant otherwise failed to meet statutory or regulatory requirements; or

(4) The applicant does not permit declassification of proprietary information within the time period specified in § 3430.2-2(b) of this title.

(b)(1) The authorized officer shall reject those portions of an otherwise acceptable application which were not available for prospecting when the underlying prospecting permit was issued because the lands were claimed, developed or withdrawn from coal leasing.

(2) In any action under this subsection, the authorized officer shall reject all lands in each affected smallest legal subdivision or, if practicable, each affected 10 acre aliquot part of the subdivision.

(c) The authorized officer may reject any preference right lease application

commercial quantities of coal exist in the proposed lease area.

**§ 3430.5-3 Determination to lease.**

A preference right lease shall be issued if, upon review of the application, any available land use plan and the environmental assessment or environmental impact statement, the authorized officer determines that:

- (a) Coal has been discovered in commercial quantities on the lands applied for;
- (b) The applicant has used reasonable economic assumptions and data to support the showing that coal has been found on the proposed lease in commercial quantities; and
- (c) The conditions or protective lease stipulations assure that environmental damage can be avoided or acceptably mitigated.

(1) The lands under application have been shown to contain commercial quantities of coal;

(2) All or a portion of the proposed lease has been assessed as lands which should be unavailable for coal development because of land use or resource conflicts or as lands which are unsuitable for coal mining under the provisions of subpart 3461 of this title; and

(3) The lands are exempted from the application of any relevant unsuitability criteria or the Secretary lacks the authority to prevent damage to or loss of the land use or resource values threatened by lease operations.
