§ 354.1 Purpose.

This part establishes the methodology for FEMA to assess and collect user fees from Nuclear Regulatory Commission (NRC) licensees of commercial nuclear power plants to recover at least 100 percent of the amounts that we anticipate to obligate for our Radiological Emergency Preparedness (REP) Program as authorized under Title III, Pub. L. 105-276, 112 Stat. 2461, 2502. Under Pub. L. 105-276 the methodology for assessment and collection of fees must be fair and equitable and must reflect the full amount of costs of providing radiological emergency planning, preparedness, response and associated services. Our assessment of fees will include our costs for use of agency resources for classes of regulated persons and our administrative costs to collect the fees. Licensees will deposit fees by electronic transfer into the Radiological Emergency Preparedness Fund in the U.S. Treasury as offsetting collections.

§ 354.2 Scope of this regulation.

The regulation in this part applies to all persons or licensees who have applied for or have received from the NRC:

- (a) A license to construct or operate a commercial nuclear power plant;
- (b) A possession-only license for a commercial nuclear power plant, with the exception of licensees that have received an NRC-approved exemption to 10 CFR 50.54(q) requirements;
- (c) An early site permit for a commercial nuclear power plant;
- (d) A combined construction permit and operating license for a commercial nuclear power plant; or
