

§ 234.75

45 CFR Ch. II (10-1-00 Edition)

interested in or concerned with the individual's welfare, to act for the individual in receiving and managing assistance, with the selection of a protective payee being made by the individual, or with his participation and consent, to the extent possible. If it is in the best interest of the individual for a staff member of a private agency, of the public welfare department, or of any other appropriate organization to serve as a protective payee, such selection will be made preferably from the staff of an agency or that part of the agency providing protective services for families or for the disabled or aged group of which the recipient is a member; and such staff of the public welfare department will be utilized only to the extent that the department has adequate staff for this purpose. The selection will not include: The executive head of the agency administering public assistance; the person determining financial eligibility for the individual; special investigative or resource staff, or staff handling fiscal processes related to the recipient; or landlords, grocers, or other vendors of goods or services dealing directly with the recipient—such as the proprietor, administrator or fiscal agent of a nursing home, or social care, medical or non-medical institution, except for the superintendent of a public institution for mental diseases or a public institution for the mentally retarded, or the designee of such superintendent, when no other suitable protective payee can be found and there are appropriate staff available to assist the superintendent in carrying out the protective payment function.

(4) Protective payments will be made only in cases in which the assistance payment, with other available income, meets all the needs of the individual, using the State's standards for assistance for the pertinent program, not standards for protective payment cases only.

(5) The agency will undertake and continue special efforts to protect the welfare of such individuals and to improve, to the extent possible, their capacity for self-care and to manage funds.

(6) Reconsideration of the need for protective payments and the way in

which a protective payee's responsibilities are carried out will be as frequent as indicated by the individual's circumstances and at least every 6 months.

(7) Provision will be made for appropriate termination of protective payments as follows:

(i) When individuals are considered able to manage funds in their best interest, there will be a return to money payment status.

(ii) When a judicial appointment of a guardian or other legal representative appears to serve the best interest of the individual, such appointment will be sought and the protective payment will terminate when the appointment has been made.

(8) Opportunity for a fair hearing will be given to any individual claiming assistance in relation to the determination that a protective payment should be made or continued, and in relation to the payee selected.

(b) *Federal financial participation.* Federal financial participation is available for payments, which otherwise qualify as money payments with respect to a needy individual, but which are made to a protective payee under paragraph (a)(3) of this section. The payment must be supported by an authorization of award through amendment of an existing authorization document for such case or by preparation of a separate authorization document. In either instance, the authorization document must be a formal agency record signed by a responsible agency official showing the name of each eligible individual, the amount of payment authorized and the name of the protective payee. Payrolls must identify protective payment cases either by use of a separate payroll for these cases or by using a special identifying code or symbol on the regular payroll.

§ 234.75 Rent payments to public housing agencies.

At the option of a State, if its plan approved under title I, X, XIV, or XVI of the Social Security Act so provides, Federal financial participation under such title is available in rent payments made directly to a public housing agency on behalf of a recipient or a group or

groups of recipients of OAA, AB, APTD, or AABD. Such Federal financial participation is available in rent payments only to the extent that they do not exceed the amount included for rent under the State's standard of assistance or the amount of rent due under applicable law, whichever is less.

§ 234.130 Assistance in the form of institutional services in intermediate care facilities.

(a) *Applicability and State plan requirements.* A State which, on January 1, 1972, did not have in effect a State plan

In any State which may provide such assistance as authorized under title XI of the Act, a State plan under title I, X, XIV, or XVI of the Act which includes such assistance must:

(1) Provide that such benefits will be provided only to individuals who:

(i) Are entitled (or would, if not receiving institutional services in intermediate care facilities, be entitled) to receive assistance, under the State plan, in the form of money payments; and

(ii) Because of their physical or mental condition (or both) require living accommodations and care which, as a practical matter, can be made available to them only through institutional facilities; and

(iii) Do not have such an illness, disease, injury, or other condition as to require the degree of care and treatment which a hospital or skilled nursing home (as that term is employed in title XIX) is designed to provide.

(2) Provide that, in determining financial eligibility for benefits in the form of institutional services in intermediate care facilities, available income will be applied, first for personal and incidental needs including clothing, and that any remaining income will be applied to the costs of care in the intermediate care facility.

(3) Provide methods of administration that include:

(i) Placing of responsibility, within the State agency, with one or more staff members with sufficient staff time exclusive of other duties to direct and guide the agency's activities with respect to services in intermediate care facilities, including arrangements for consultation and working relationships with the State standard-setting authority and State agencies responsible for mental health and for mental retardation;
