

signed under oath. Willful false statements made therein, however, are punishable by fine and imprisonment, 18 U.S.C. 1001, and by appropriate administrative sanctions, including revocation of station license pursuant to 312(a)(1) of the Communications Act of 1934, as amended.

(d) "Signed," as used in this section, means, for manually filed applications only, an original hand-written signature or, for electronically filed applications only, an electronic signature. An electronic signature shall consist of the name of the applicant transmitted electronically via ULS and entered on the application as a signature.

§ 1.919 Ownership information.

(a) Applicants or licensees in Wireless Radio Services that are subject to the ownership reporting requirements of § 1.2112(a) of this part shall use FCC Form 602 to provide all ownership information required by this chapter.

(b) Any applicant or licensee that is subject to the ownership reporting requirements of § 1.2112(a) of this part shall file an FCC Form 602, or file an updated form if the ownership information on a previously filed FCC Form 602 is not current, at the time it submits:

- (1) An initial application for authorization (FCC Form 601);
- (2) An application for license renewal (FCC Form 601);
- (3) An application for assignment of authorization or transfer of control (FCC Form 603); or
- (4) A notification of consummation of a *pro forma* assignment of authorization or transfer of control (FCC Form 603) under the Commission's forbearance procedures (see § 1.948(c) of this part).

(c) A single FCC Form 602 may be associated with multiple applications filed by the same applicant or licensee. If an applicant or licensee already has a current FCC Form 602 on file when it files an initial application, renewal application, application for assignment or transfer of control, or notification of a *pro forma* assignment or transfer, it may certify that it has a current FCC Form 602 on file.

(d) No filing fee is required to submit or update FCC Form 602.

(e) Applicants or licensees in Wireless Radio Services that are not subject to the ownership reporting requirements of § 1.2112(a) of this part are not required to file FCC Form 602. However, such applicants and licensees may be required by the rules applicable to such services to disclose the real party (or parties) in interest to the application, including (as required) a complete disclosure of the identity and relationship of those persons or entities directly or indirectly owning or controlling (or both) the applicant or licensee.

§ 1.923 Content of applications.

(a) *General.* Applications must contain all information requested on the applicable form and any additional information required by the rules in this chapter and any rules pertaining to the specific service for which the application is filed.

(b) *Reference to material on file.* Questions on application forms that call for specific technical data, or that can be answered yes or no or with another short answer, must be answered on the form. Otherwise, if documents, exhibits, or other lengthy showings already on file with the FCC contain information required in an application, the application may incorporate such information by reference, provided that:

(1) The referenced information has been filed in ULS or, if manually filed outside of ULS, the information comprises more than one "8½ × 11" page.

(2) The referenced information is current and accurate in all material respects; and

(3) The application states specifically where the referenced information can actually be found, including:

(i) The station call sign or application file number and its location if the reference is to station files or previously filed applications;

(ii) The title of the proceeding, the docket number, and any legal citations, if the reference is to a docketed proceeding.

(c) *Antenna locations.* Applications for stations at fixed locations must describe each transmitting antenna site by its geographical coordinates and

also by its street address, or by reference to a nearby landmark. Geographical coordinates, referenced to NAD83, must be specified in degrees, minutes, and seconds to the nearest second of latitude and longitude.

(d) *Antenna structure registration.* Owners of certain antenna structures must notify the Federal Aviation Administration and register with the Commission as required by Part 17 of this chapter. Applications proposing the use of one or more new or existing antenna structures must contain the FCC Antenna Registration Number(s) of each structure for which registration is required. If registration is not required, the applicant must provide information in its application sufficient for the Commission to verify this fact.

(e) *Environmental concerns.* Each applicant is required to indicate at the time its application is filed whether or not a Commission grant of the application may have a significant environmental effect, as defined by §1.1307 of this chapter. If answered affirmatively, an Environmental Assessment, required by §1.1311 of this chapter, must be filed with the application and environmental review by the Commission must be completed prior to construction.

(f) *International coordination.* Channel assignments and/or usage under this part are subject to the applicable provisions and requirements of treaties and other international agreements between the United States government and the governments of Canada and Mexico.

(g) *Quiet zones.* Each applicant is required to comply with the "Quiet Zone" rule (see §1.924).

(h) *Taxpayer Identification Number (TINs).* Wireless applicants and licensees, including all attributable owners of auctionable licenses as defined by §1.2112 of this part, are required to provide their Taxpayer Identification Numbers (TINs) (as defined in 26 U.S.C. 6109) to the Commission, pursuant to the Debt Collection Improvement Act of 1996 (DCIA). Under the DCIA, the FCC may use an applicant or licensee's TIN for purposes of collecting and reporting to the Department of the Treasury any delinquent amounts arising

out of such person's relationship with the Government. The Commission will not publicly disclose applicant or licensee TINs unless authorized by law, but will assign a "public identification number" to each applicant or licensee registering a TIN. This public identification number will be used for agency purposes other than debt collection.

(i) Unless an exception is set forth elsewhere in this chapter, each applicant must specify an address where the applicant can receive mail delivery by the United States Postal Service. This address will be used by the Commission to serve documents or direct correspondence to the applicant.

§ 1.924 Quiet zones.

Quiet zones are those areas where it is necessary to restrict radiation so as to minimize possible impact on the operations of radio astronomy or other facilities that are highly sensitive to interference. The areas involved and procedures required are as follows:

(a) *NRAO, NRRO.* The requirements of this paragraph are intended to minimize possible interference at the National Radio Astronomy Observatory site located at Green Bank, Pocahontas County, West Virginia, and at the Naval Radio Research Observatory site at Sugar Grove, Pendleton County, West Virginia.

(1) Applicants and licensees planning to construct and operate a new or modified station at a permanent fixed location within the area bounded by N 39° 15' 0.4" on the north, W 78° 29' 59.0" on the east, N 37° 30' 0.4" on the south, and W 80° 29' 59.2" on the west must notify the Director, National Radio Astronomy Observatory, Post Office Box No. 2, Green Bank, West Virginia 24944, in writing, of the technical details of the proposed operation. The notification must include the geographical coordinates of the antenna location, the antenna height, antenna directivity (if any), the channel, the emission type and power.

(2) When an application for authority to operate a station is filed with the FCC, the notification required in paragraph (a)(1) of this section should be sent at the same time. The application
