

Subpart A—General Information

§ 100.1 Basis and purpose.

(a) The rules following in this part are promulgated pursuant to the provisions of Title III of the Communications Act of 1934, as amended, which vests authority in the Federal Communications Commission to regulate radio transmissions and to issue licenses for radio stations.

(b) The purpose of this part is to prescribe the manner in which parts of the radio frequency spectrum may be made available for the development of interim direct broadcast satellite service. Interim direct broadcast satellite systems shall be granted licenses pursuant to these interim rules during the period prior to the adoption of permanent rules. The Direct Broadcast Satellite Service shall operate in the frequency band 12.2–12.7 GHz.

§ 100.3 Definitions.

Direct Broadcast Satellite Service. A radiocommunication service in which signals transmitted or retransmitted by space stations are intended for direct reception by the general public. In the Direct Broadcast Satellite Service the term *direct reception* shall encompass both individual reception and community reception.

§ 100.5 Public interest obligations.

(a) DBS providers are subject to the public interest obligations set forth in paragraphs (b) and (c) of this section. For purposes of this rule, DBS providers are any of the following:

(1) Entities licensed pursuant to 47 CFR part 100; or

(2) Entities licensed pursuant to part 25 of this chapter that operate satellites in the Ku-band fixed satellite service and that sell or lease capacity to a video programming distributor that offers service directly to consumers providing a sufficient number of channels so that four percent of the total applicable programming channels yields a set-aside of at least one channel of non-commercial programming pursuant to paragraph (c) of this section, or

(3) Non-U.S. licensed satellite operators in the Ku-band that offer video programming directly to consumers in

the United States pursuant to an earth station license issued under part 25 of this title and that offer in a sufficient number of channels to consumers so that four percent of the total applicable programming channels yields a set-aside of one channel of non-commercial programming pursuant to paragraph (c) of this section.

(b) *Political broadcasting requirements*—(1) *Reasonable access.* DBS providers must comply with §312(a)(7) of the Communications Act of 1934, as amended, by allowing reasonable access to, or permitting purchase of reasonable amounts of time for, the use of their facilities by a legally qualified candidate for federal elective office on behalf of his or her candidacy.

(2) *Use of facilities.* DBS providers must comply with §315 of the Communications Act of 1934, as amended, by providing equal opportunities to legally qualified candidates.

(c) *Carriage obligation for noncommercial programming*—(1) *Reservation requirement.* DBS providers shall reserve four percent of their channel capacity exclusively for use by qualified programmers for noncommercial programming of an educational or informational nature. Channel capacity shall be determined annually by calculating, based on measurements taken on a quarterly basis, the average number of channels available for video programming on all satellites licensed to the provider during the previous year. DBS providers may use this reserved capacity for any purpose until such time as it is used for noncommercial educational or informational programming.

(2) *Qualified programmer.* For purposes of these rules, a qualified programmer is:

(i) A noncommercial educational broadcast station as defined in §397(6) of the Communications Act of 1934, as amended,

(ii) A public telecommunications entity as defined in §397(12) of the Communications Act of 1934, as amended,

(iii) An accredited nonprofit educational institution or a governmental organization engaged in the formal education of enrolled students (A publicly supported educational institution must be accredited by the appropriate

Federal Communications Commission

§ 100.11

state department of education; a privately controlled educational institution must be accredited by the appropriate state department of education or the recognized regional and national accrediting organizations.), or

(iv) A nonprofit organization whose purposes are educational and include providing educational and instructional television material to such accredited institutions and governmental organizations.

(v) Other noncommercial entities with an educational mission.

(3) *Editorial control.* (i) A DBS operator will be required to make capacity available only to qualified programmers and may select among such programmers when demand exceeds the capacity of their reserved channels.

(ii) A DBS operator may not require the programmers it selects to include particular programming on its channels.

(iii) A DBS operator may not alter or censor the content of the programming provided by the qualified programmer using the channels reserved pursuant to this section.

(4) *Non-commercial channel limitation.* A DBS operator cannot initially select a qualified programmer to fill more than one of its reserved channels except that, after all qualified entities that have sought access have been offered access on at least one channel, a provider may allocate additional channels to qualified programmers without having to make additional efforts to secure other qualified programmers.

(5) *Rates, terms and conditions.* (i) In making the required reserved capacity available, DBS providers cannot charge rates that exceed costs that are directly related to making the capacity available to qualified programmers. Direct costs include only the cost of transmitting the signal to the uplink facility and uplinking the signal to the satellite.

(ii) Rates for capacity reserved under paragraph (c)(1) of this section shall not exceed 50 percent of the direct costs as defined in this section.

(iii) Nothing in this section shall be construed to prohibit DBS providers from negotiating rates with qualified programmers that are less than 50 percent of direct costs or from paying

qualified programmers for the use of their programming.

(iv) DBS providers shall reserve discrete channels and offer these to qualifying programmers at consistent times to fulfill the reservation requirement described in these rules.

(6) *Public file.* (i) Each DBS provider shall keep and permit public inspection of a complete and orderly record of:

(A) Quarterly measurements of channel capacity and yearly average calculations on which it bases its four percent reservation, as well as its response to any capacity changes;

(B) A record of entities to whom non-commercial capacity is being provided, the amount of capacity being provided to each entity, the conditions under which it is being provided and the rates, if any, being paid by the entity;

(C) A record of entities that have requested capacity, disposition of those requests and reasons for the disposition; and

(D) A record of all requests for political advertising time and the disposition of those requests.

(ii) All records required by this paragraph shall be placed in a file available to the public as soon as possible and shall be retained for a period of two years.

(7) *Effective date.* DBS providers are required to make channel capacity available pursuant to paragraph (c) of this section upon the effective date. Programming provided pursuant to this rule must be available to the public no later than six months after the effective date.

[64 FR 5956, Feb. 8, 1999]

EFFECTIVE DATE NOTE: At 64 FR 5956, Feb. 8, 1999, §100.5 was added, effective June 15, 1999, except for paragraph (c)(6) which contains information collection and record-keeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

Subpart B—Administrative Procedures

§ 100.11 Eligibility.

An authorization for operation of a station in the Direct Broadcast Satellite Service shall not be granted to or held by:
